Innovative, competent and independent

Paul Bedrunka + Otto Hirth

1969

It all started with a small workshop in Bräunlingen. Initially, the two founders Paul Bedrunka and Otto Hirth employed six people. The production area featured a few drilling machines, grinding and welding equipment and guillotine shears. Since the company did not have cranes or forklifts at the time, metal sheets and pipes were unloaded by hand after delivery. Pipes were loaded through the windows into the building one by one. This often posed great challenges to employees. Primarily table frames with crank adjustment were produced on a few square meters of production area. Sheet metal was processed entirely without a control system. Metal sheets were then painted by hand using liquid paint. The products were delivered by means of a single small truck. Mr. Hirth was in charge of sales, and was responsible for ensuring a stable order situation. Mr. Bedrunka coordinated and supervised the production. At that time, the customer base came from the region within a radius of 100 km.

The new development on Gießnaustraße, built in 1982/83, created more space for new production and administrative areas. Over time, there were further additions. The number of employees, the machinery and the opportunities of market expansion in Germany grew steadily. The company kept extending its product range in the following years.

In 1985, Ludwig Kellner became a Managing Director. Today, the workforce consists of 100 employees, who are employed on a factory space of 8,000 square meters.

Ludwig Kellner, Managing Director

1985

Digitalization is changing businesses. Meanwhile, production and shipping departments are bursting at the seams. The times of necessary provisional arrangements and rented temporary premises came to an end. The foundation stone was laid in the spring of 2018. For the 50th company anniversary, we will have erected a new three-storey business building and an additional factory building. This is necessary due to the digitized production and logistics. It also ensures optimal conditions for new product lines, state-of-the-art online marketing and additional workstations. We adapted to digitally networked systems early on, and combined the high-quality cabinets, worktables and shelving systems "made in Germany" with building blocks of information and communication technology. Such systems and solutions match the requirement profile of Industry 4.0 and bring us continuously growing sales and employment figures. Online distribution channels are gaining in importance along with complete digital internal logistics.

For example, customers can configure their cabinet systems online, or can have their entire factory floor planned and modelled. This can then be displayed in three dimensions on the customer's screen by means of professional interfaces.

The data is applied directly in the production. It accompanies the production of cabinets and worktables from plate cutting and assembly to delivery and installation.

1982

2019

Online Configurator

Schubladenschrank-Konfigurator

Your dream cabinet in just a few clicks

Our new drawer cabinet configurator is now even clearer and more user-friendly. In just a few steps it guides you through all the options of our extensive product range. The intelligent system calculates in the background, offers additional explanations and summarizes the selection with all technical details and illustrations.

The configurator's dialog box offers matching small parts bins and metal divider as well as trough plates, ribbed rubber inserts and anti-slip mats. With a few clicks, the drawers are equipped so that everything clearly finds its fixed place.

How the configurator works:

- Select cabinet type (stationary or mobile)
- Select desired grid size and cabinet height
- Define drawers (front heights and load capacities depending on application)
- Choose a suitable color for the housing and the drawers from our 16 standard colors
- Additional equipment such as matching small parts bins and metal dividers as well as trough plates, ribbed rubber inserts and anti-slip mats make your cabinet perfect

Range of products

PRODUCTS

Take a look at our wide range of products.

We have been making equipment for industry, trade and service sectors for over 50 years in Bräunlingen in the German Black Forest. We develop our products to state-of-the-art standards. We use only high-quality steel sheets and steel pipes to meet the highest of requirements and withstand large loads.

We help our customers optimise their value creation in the areas of production, assembly and service by using our products and services. Apart from drawer cabinets and workbenches as well as mobile logistics systems in a variety of designs, we manufacture ergonomic workplace systems with a wide range of components.

The production programme also includes CNC storage and transport systems with their own CNC inserts, which can be individually and rationally positioned simply by clicking them into place.

When it comes to drawer cabinets, all 736 mm drawers are equipped with 100% full pull-out and ball-bearing drawer guides. Drawers with 50 mm front height have a load capacity of 70 kg; drawers from 75 mm

front height have a load capacity of 100-300 kg.

The front opening solution for our electronic drawer cabinets "Tool Server Modular" TSM[®], with a complete inventory management, is protected by the European Patent Office. This system of tall cabinets and standard tool cabinets can be used wherever access control is needed. Each drawer, and even each subdivision with cover, is electromagnetically interlocked, on standby around the clock and contains an electronic storage and ordering system. The range of products has been extended in recent years by a spiral vending machine and a rotating drum device.

Market segments

- **Industry:** Due to their durability, our high-quality products are appreciated in mechanical and plant engineering and in the metalworking industry.
- **Industrial/crafts:** From simple workbenches to workshop trolleys and packing tables, our products make work easier.
- **Training and public facilities:** From group workplaces to workbenches and office furniture, we are well placed to meet all requirements.
- **Chemical/pharmaceutical industries:** Our workplace systems are particularly popular in research and development facilities.
- **Automotive/aviation industries:** Bedrunka+Hirth is a well-known brand in the aviation and automotive industries, as well as in motor racing.
- **Electrical and electronic devices:** With our secure ESD workstations and ESD accessories, we are optimally equipped for conductive products.

“The principles of orderliness, safety and ergonomics are crucial for the development of these workplaces. They ensure the proper flow of materials and ease the burden on employees.”

Industry 4.0

Industry 4.0 - We offer innovative systems

i4.0

INDUSTRY 4.0
Smart networking of machinery and processes.

TSM®

Smart drawer cabinets with electronic inventory management, and with cutting-edge software based on Windows. Each drawer or door is electromechanically locked and is unlocked by the software after entering the item to be taken out. The software is designed for up to 99 modules.

WORKPLACE SYSTEMS

Every day, company's employees grapple with strenuous tasks and heavy physical labour. In order to maintain and improve competitiveness in the long term, your resources should be better utilized. We offer smart workplace systems for this purpose. For example, heavy-duty tables from the "powerline" series with a load capacity of 600 or 900kg. They can be adjusted individually to the user by means of electrical height adjustment.

WP 4.0

"Workplace 4.0" - the innovative combination of an ergonomic packing and assembly station - supports the logistics staff, for example, by means of images on the work surface, and thus offers a reliable guidance. These technical advantages of augmented reality, combined with the critical benefits of instructing, checking and documenting in the field of logistics, put the cooperation partners in the foreground. Experience how ergonomic and innovative systems help employees to avoid stress, minimize errors and increase process quality.

Workstations of the future

Industry 4.0

Workplace 4.0

i4.0

INDUSTRY 4.0
Smart networking of machinery and processes.

We adapted to digitally networked systems early on, and combined the high-quality cabinets, worktables and shelving systems "made in Germany" with building blocks of information and communication technology.

For example, Workplace 4.0, or WP 4.0 for short, was created in this way. Our "Workplace 4.0" focuses on cognitive ergonomics and can be integrated individually into existing processes in assembly and logistics. The backbone of the system is a smart database-supported image processing software that links the real production with virtual and digital components, and makes even complex processes easy to structure, manage and control. Processes can be monitored by means of an additional 3D camera with a projector, and software for gesture control. Errors in complex assembly and logistics processes are detected already at the start, and are reliably avoided thanks to the close cooperation between the employee and the computer system. This significantly eases the burden on employees.

- Rapid and reliable acquisition of parameters
- Constant adherence to quality specifications
- Reduced personnel expenses and fewer returns
- Provable and fully tested quality
- Simple documentation
- Management of complexity
- Learning time of a few minutes
- Flexible staff planning

Cognitive ergonomics - mastering complex tasks

The constantly growing number of variants and rising quality requirements are gradually increasing the mental stress on an employee to know and implement the respective work steps correctly. Easy to set up visual instructions let each employee know at all times which work step has to take place next and with which article. The visual check relieves the employee from the need to follow complex installation instructions. This helps to avoid, for example, installing an incorrect component in the wrong order.

With a height-adjustable worktop, we ensure good ergonomics. The combination of intelligent software and an ergonomic workplace increases staff efficiency. The assistance system is employed along the entire value chain: from incoming goods to assembly to outgoing goods. The possibilities range from mere identification to a fully equipped incoming goods inspection with supplier-related sampling selection. Depending on the customer's requirements, these modules are unified into a single system.

TSM[®] - Tool Server Modular

i4.0

INDUSTRY 4.0
Smart networking of machinery and processes.

Your advantages:

- High user friendliness
- Guaranteed stock levels
- Customised subdivision, including with single covers
- Unlocked drawer and cover is displayed on the LCD display
- Reduction in personnel costs
- Can be used where access control is required
- Diverse variations
- System is operated autonomously with its own processor unit
- Individual access restrictions
- Maximum utilisation through the chaotic storage principle
- Part removal possible
- No unmanaged drawer stock levels
- Professional and sorted storage of materials and tools

Tool-Server-Modular (TSM[®])

Complete control takes place via storage and administration software. The TSM[®] meets your requirements with a modular drawer concept. The modules can be combined with each other to suit your needs. The TSM[®] is compatible with the TSS[®]. Both systems complement each other with the unrivalled range of variants and combinations across the board. The software is identical and therefore allows retrofits and upgrades.

Software video

... the innovative, modular storage system for small parts

Automation in the area of tool management is constantly advancing. The Tool-Server-Modular lets you enjoy much leaner and more efficient tool management. The costs of providing, managing and using tools and small materials are significantly reduced by using our tool storage system. Increased competition in the manufacturing industry is leading to greater cost pressure and forcing companies to consider optimising their production processes. Only companies with professional resource logistics can ensure a smooth and therefore economic production process. Our fully automated tool dispensing system supports you on your way to professional tool management. We meet your requirements with a modular drawer concept. Up to 100 modules can be combined with each other to suit your needs.

Adaptive cabinet system

The new generation of drawer cabinets

Bräunlingen/Stuttgart, February 2019. – The new HiPerCab® (High Performance Cabinet) drawer cabinets presented by Bedrunka + Hirth at the Logimat trade fair in Stuttgart (February 19-21), are as user-friendly as they are unyielding against unauthorized persons. The intuitive touchscreen guides the user simply and unerringly to the right drawer, where the item they are looking for is safely stored. However, anyone who cannot identify themselves is denied access.

»The centerpiece of the new cabinet system is its software«, explains Daniel Vogt, Head of Design and Development at Bedrunka + Hirth. Whether it's a multilingual user interface that allows language selection in German, English and French, or user identification by means of a PIN code and RFID chip - the company from the Black Forest equips its high-quality cabinet system with technology that offers real added value. The user database records who has been granted access and when, and allows to limit access in time. Furthermore the local administrator can manage user rights centrally, connect additional cabinets or remove them again.

The touchscreen is located on the top edge of the cabinet. The electromechanically locked drawers can be accessed in three steps. First, the system opens the drawers to which the user has access by just a small gap. Tapping the desired drawer opens it further, while the other drawers remain in provision mode.

In the third step, the desired drawer can be pulled out fully (full pull-out 100%). All others remain locked, „for safety reasons,“ explains Vogt, as the load capacity of the individual drawers is up to 100 kg. After removal, the system ensures that the retracted drawer is slowed down, gently retracted, closed and returned to staging mode.

The HiPerCab® is available as Medium and Premium versions or as extension module, each in widths of 705 and 1.005 mm and heights of 1.019 and 1.219 mm. Bedrunka + Hirth offers the cabinet system with the same divider materials as the classic drawer cabinet. This also applies to other features of the cabinet system „made in Germany“, such as the frame-reinforced, very stable housing, the welded sheet steel construction and the configurable front heights. As usual, the front of the cabinets can be individually colored, for example to match the user's corporate design.

HiPerCab[®]

Technical details

- Intuitive touch screen
- Multilingual user interface available in German, English and French
- User identification by PIN code and RFID chip
- Dual use of RFID frequencies at 13.56MHz and 125kHz
- Customer-specific RFID standard can be extended by updates
- Company-wide user database for all cabinet systems used
- Detailed event logging and evaluation options
- Identical divider materials as for the classic drawer cabinets

Certificated with the following standards and directives

Production

SERVICE

We are always available in case of questions or technical issues.

We develop and produce by making use of state-of-the-art machinery. In addition to punching/nibbling robots, laser cutting systems and a fully automated bending centre, production is optimised by welding robots. A fully automated powder coating system brings colour to your workplace.

Bedrunka+Hirth is committed to protecting the environment. To ensure the thrifty use of resources such as raw materials, energy and water, we encourage and motivate all employees to use them with a sense of responsibility. Bedrunka+Hirth avoids harmful environmental risks, reduces waste and complies with all relevant environmental regulations. Moreover, all employees are involved in improving quality and environment-related aspects within the company. We offer our employees ongoing perspectives for the long term.

- Fully automated bending centre
- Hydraulic press brake with an automatic tool changer
- NC-controlled guillotine shears
- Punching and notching machines
- CNC-controlled bending machines
- CNC turret press
- Laser machine
- Welding robot
- Spot welding equipment
- Fully automated powder coating system with circular conveyor
- Assembly area

We need your feedback to improve our services. Should you have any questions about the products, or if you need help with the installation, feel free to contact us.

Assembly

Gain insights
into our production process

We can offer complete installation with delivery, setup and assembly on the spot. Many tables and top parts must be fitted on-site. This task would unnecessarily engage your employees. Our experienced assembly teams can solve minor problems such as uneven floors etc. on the spot.

We offer installation and commissioning, including of electronics cabinets, and employee training.

ON-SITE ASSEMBLY

We provide assembly staff, trained across the EU, for your complete installation:

- We will coordinate the date with you
- We will coordinate delivery with assembly

Tested quality

CHECKS

We attach great importance to quality of our products.

We provide a **10-year quality guarantee**. The guarantee covers material and production of our own products made by "Bedrunka+Hirth", if operated correctly.

Merchandise, electronic components, software, workbench tops, custom-made items and wearing parts are not covered.

TÜV-Rheinland certificate: "GS" mark for tested safety

Some of our products have been awarded the Technical Inspection Association [TÜV] certificate.

- High-quality steel sheets and steel pipes
- Long product service life
- Optimisation of your value creation
- Product development to state-of-the-art standards
- Safety tested by the TÜV

PLANNING

Using workspaces with individual planning by Bedrunka+Hirth

Individuality

Apart from the standard programme, we can also manufacture customer-specific installations at any time. Object plans with proposals are provided with 3D drawings already in your corporate colours. Our field sales team and object consultants are available at all times for competent advice.

Specialist retailer loyalty

All products are sold across Europe through specialist retailers only. If required, we will gladly provide you with the details of a specialist retailer near you.

Technical support

- 3D AutoCAD "Inventor"
- 3D planning drawing program: for sales with integrated database
- SketchUp8 Professional for exhibition planning, spatial planning, 3D library
- Simlab Soft - 3D software done right
- pCon planner and pConBox

Professional installations

The planning program we use is the ideal concept and design tool for fast, efficient, three-dimensional modelling and presentation.

Seamless data transfer in the DWG/DXF format is guaranteed by professional import/export interfaces. You can look at 3D data by downloading a viewer free of charge.

Free, flexible designs are mostly automatically produced to implement your requirements, layouts, size and colour choice with creativity and dynamism. By building up an extensive library, we are in a position to visualise your ideas and suggestions quickly and easily in 3D.

We offer a professional solution for which there is no alternative. Can you visualise what that could look like? Let us show you.

On-site consulting and situation analysis

Consulting and planning

PLANNING

Using workspaces with individual planning by Bedrunka+Hirth

We offer:

- Object consulting acc. to situation analysis
- Reduction to the essentials
- Implementation according to individual requirements
- Adaptation to spatial circumstances
- Time savings through fast implementation
- Realistic presentation of complex designs and design tasks
- Impressive presentations and slide shows
- A detailed 3D preview

Precise visualisation of your equipment thanks to our planning programs

We have developed a library of all our products for the SketchUp drawing software. This planning program - along with the pCon drawing program - is the ideal design tool for fast, efficient, three-dimensional modelling and presentation.

Seamless data transfer in the DWG/DXF format is guaranteed by professional import/export interfaces. You can look at 3D data by downloading a viewer free of charge.

pCon planning program

pCon PLANNER - the 3D spatial planning program for experts.

- Plan creatively
- Boost your consulting skills
- Create convincing presentations
- Collaborate with architects
- Offer spatial planning as a service
- Seminars

pCon.box - functions

- Interactive product configuration in real time
- Detailed item lists
- Sharing CAD files, images, product and pricing information
- Project setup and management

Individual needs

Implementation according to individual customer requirements

Your individual requirements in terms of work organization and ergonomics will be used as a benchmark. In addition to standard products in various widths and heights and with comprehensive accessories, we also manufacture a number of customer-related solutions - custom-made for your production and/or storage area.

Our standard colours

All our products have an environmentally friendly powder coating.
Standard colours are only the textured and matt colours listed below. Other textures and finishes are available at extra cost.
Licensed colours of well-known brands are not available due to reasons of reutrality.

 RAL 1023 traffic yellow	 RAL 5002 ultramarine blue	 RAL 7016 anthracite grey
 RAL 3000 - Fire Red	 RAL 5005 signal blue	 RAL 7035 light grey
 RAL 3003 ruby red	 RAL 5010 gentian blue	 RAL 7040 window grey
 RAL 3020 traffic red	 RAL 5012 light blue	 RAL 9005 jet black
	 RAL 5013 cobalt blue	 RAL 9006 - White aluminium

	 RAL 6018 yellow green	

Individual needs

Solutions for your equipment

Are you looking for the right equipment that is tailored to your needs? Contact us and learn more today!

Bedrunka+Hirth workplace systems provide ideal conditions for comfortable work and project-related solutions. Module installation is simple and easy thanks to plug-in and mounting devices.

The base modules of the workstation series can be combined with each other or expanded, can be adapted to the work requirements, and can be adjusted to ensure optimal use of space. Assembly lines, U- or cross-formations and linking between workstations can also be implemented. The different module widths, lengths and heights result in a unique variety and maximum flexibility in the design of one-sided or duplex workstations. The systems can be assembled individually in a modular system according to your requirements.

Height adjustment is done steplessly using clamp fixing, crank or motor, or in 38 mm steps, and is therefore ideally suited for standing and sitting activities.

Furthermore, these unique Bedrunka+Hirth products feature a wide range of accessories, and are compatible with many of our multi-board accessories. These products ensure the perfect assembly of the workplace, including excellent illumination of the work surface, in every location. Direct supply of energy and compressed air allows versatile use of the workstation.

B+H workplace systems workraster, workline, workergo, workalu, powerline:

- Capacity with evenly distributed load up to 900 kg
- The modules are available in widths of 750 - 2000 mm
- Depth 550 - 1460 mm
- Height 700 - 2070 mm

Customized branding

Film inscription

We will gladly produce an adhesive film with your company logo or slogan. The slogan will be applied at Bedrunka+Hirth. The film is very durable and a good alternative to screen printing.

Screen printing

Do you require a particularly elegant logo for your new product? In this case, screen printing is the right option. We can produce multi-colour prints with up to 5 colors in one operation.

Laser cutting

Due to its longevity, laser marking has proved its worth for labelling metals. With our CNC-controlled laser systems, we can cut metal sheets to almost every shape.

Advantages of ergonomic workplace design

ERGONOMICS

Efficiency through protection and safety in the work to be performed

Workspaces are living spaces - this is where people spend a large part of their day. The modular workstation systems from Bedrunka+Hirth offer ideal conditions for pleasant and efficient work - designed according to ergonomic principles, with regard to people and technology.

When designing workstations, we take into account the latest ergonomic findings to ensure safe and smooth workflows and to optimize employees' daily work environment.

The aim is to create suitable conditions for human work and the use of technical equipment and tools, i.e. to perform work efficiently and without errors and to protect employees from damage to their health. The focus is on occupational safety, health and safety at work, but also on humanity and economic efficiency.

Ergonomics represent the link between people and technology. In the process of designing ergonomic workplaces, the physical performance of the employee must be matched to the performed task (production ergonomics). The movements sequences, physical exertion and environmental influences depend on this.

YOUR ADVANTAGES

- Increased quality by simplifying work processes through optimal ergonomics
- Error prevention
- 20 % increase in output due to efficient work
- Increase in performance and reduction of lead time
- Healthier work and lower costs in the long term due to less health-related absenteeism

The individual workplace

THE OPTIMAL WORKPLACE

Recommendations and assistance

One can speak of health-promoting working conditions if it is possible to organize the majority of the daily working time in a regular alternation of working while sitting, standing and walking. A balanced load should include about 60% sitting, about 30% standing and about 10% walking.

- Avoid continuous standing / standing aids
- Change of task: standing and sitting work
- Mixed work / group work
- Active breaks
- Design of the workplace
- Flooring
- Suitable footwear
- Health conscious behavior

CHECKLISTS

Using checklists

ADVANTAGES OF CHECKLISTS

For workplace optimization we as company have created checklists for our own employees as well as for you as retailers and business partners in order to offer matching solutions. Lack of movement, low-quality workplaces and wrong sitting positions can lead to pathological changes of the musculoskeletal system. Therefore the postures and movements should be adapted to the height of the worker. As there is usually not only one employee, but several employees working at one workplace due to different working time systems (such as night shift, part-time, etc.), ergonomics has a high priority.

- Constant repetition of the design standard
- Safe and fast tool for the designer
- No question is forgotten during execution and planning
- The work task, e.g. „valve assembly“, is specified by the planner in the form of a work plan

Workplace system features

workraster - the structured one

The **workraster** is the "entry-level model" among our ergonomic workplace systems. Thanks to a structured grid arrangement of 38 mm, the worktable can be individually set to your required height and is therefore suitable for both sitting and standing activities. With a load capacity of 300 kg with an even load, it is ideal for the assembly of small to medium-sized parts.

workergo - the versatile one

The **workergo** is the most versatile workplace system. Six different frame widths, three different frame depths and four different types of height adjustment make the workergo C-foot and 4-foot a versatile worktable.

New
Now faster and more quiet!

Our features at a glance

Modular system	Base modules are connected to each other by means of cross-members - add-on modules are not required
Can be retrofitted	Extension of existing workstations, inline and corner combinations possible
Frame widths	1000, 1500 mm
Frame depths	500, 800, 960, 1460 mm
Frame heights	1348, 2070 mm
Work height without worktop	715 – 1057 mm with reinforcement rod Recommended: 829 mm
Height adjustment	Height grid arrangement of 38 mm
Frame design	L-foot
Load capacity	300 kg with even load

Our features at a glance

Modular system	Freely selectable combinations from frame to worktop
Can be retrofitted	Multi-board setup and optional accessories
Frame widths	750, 1000, 1250, 1500, 1750, 2000 mm
Frame depths	600, 750, 900 mm
Travel speed	12 mm/s
Work height without worktop	670-1015 mm Travel: 345 mm
Height adjustment	Four different types: Clamp fixing, crank adjustment, electric height adjustment with 1 motor, electric height adjustment with 2 motors
Frame design	C-foot and 4-foot
Load capacity	180-300 kg with uniform load depending on height adjustment

▶ You can find further information on workraster on page 316

▶ You can find further information on workergo on page 334

workline - the highest one

The **workline** worktable achieves a working height of 1100 mm thanks to its continuous height adjustment and is therefore also an optimal standing workplace. At the same time, its simple and functional design ensures an ergonomic seated workplace.

powerline - the strongest ones

Thanks to its electric height adjustment, the **powerline** quietly moves to the required working height in a range of 705-1155 mm with a vertical travel speed of 9 mm/s without load. Thus, the powerline creates a flexible seated/standing workplace without long waiting times. At the same time, the quiet worktable has an extremely high load capacity.

Our features at a glance

Modular system	Individual workstations can be quickly expanded to group workstations
Can be retrofitted	Wide range of accessories: Flexible design and conversion of the workplace
Frame widths	1000, 1500 mm
Frame depths	750 mm
Travel speed	6.25 mm/s
Work height without worktop	735-1100 mm Travel: 365 mm
Height adjustment	Three different types: Clamp fixing, crank adjustment, electric height adjustment
Frame design	A-foot
Load capacity	180-200 kg with uniform load depending on height adjustment

Features at a glance

Can be retrofitted	Multi-board setup or stand and optional accessories such as foot switch
Frame widths	1250, 1500, 2000 mm
Frame depth	750, 900 mm
Travel speed	9 mm/s without load
Work height without worktop	705-1155 mm Travel: 450 mm
Height adjustment	Electric height adjustment
Frame design	C-foot and 4-foot
Load capacity	600-900 kg with uniform load depending on frame design

▶ You can find further information on workline on page 356

▶ You can find further heavy load tables on page 380

Locking systems

Page 110

Drawer cabinets

All series offer:

- Secure central locking with "B+H locking system", theft-proof, combination locking systems possible
- Pull-out 100 % with various drawer load capacities of 50 - 300 kg
- Increased security against tipping over through single drawer pull-out, only one drawer can be opened at a time
- Very stable housing with reinforced frame
- Powder coating in 15 standard colours in eco-friendly painting procedure, two-colour paint of standard colours without surcharge
- Production exclusively in Germany

T500

Features

3 widths:

- **R 18-16:** width 530 mm
- **R 24-16:** width 680 mm
- **R 36-16:** width 980 mm

■ Housing depth 500 mm

- Internal drawer depth generally 400 mm

New heights

Different heights:

- **R 18-16:** height: 469, 519, 619, 719, 819, 919, 1019, 1119, 1219, 1319, 1419 und 1519 mm
- **R 24-16:** height 519, 619, 719, 819, 919, 1019, 1119, 1219, 1319, 1419 und 1519 mm
- **R 36-16:** height 619, 719, 819, 919, 1019, 1119, 1219, 1319, 1419 und 1519 mm

- Integrated aluminium handle bars flush with housing
- Galvanised drawers **with slotted side walls on a 50 mm grid** for dividers – fast, comprehensive, rational subdivision is guaranteed
- Drawers with front heights: 75, 100, 150, 200, 250 and 300 mm
- **Cylinder lock with 180° closure**
- Cabinet housing, maximum load of up to 1.2 t

- Ball bearing guides
- Full pull-out (FP) 100 %
- Load capacity either 50 kg or 75 kg
- **Only a load capacity of 50 kg is possible for drawers with a front height of 75 mm**

Drawer cabinets

Robust - versatile - stable

T736

Features

4 widths:

- **R 18-24:** width 555 mm
- **R 24-24:** width 705 mm
- **R 36-24:** width 1005 mm
- **R 48-24:** width 1305 mm

■ Housing depth 736 mm

- Internal drawer depth generally 600 mm

New heights

Different heights:

- **R 18-24:** height 519, 619, 719, 819, 919, 1019, 1119, 1219, 1319, 1419 und 1519 mm
- **R 24-24:** height 519, 619, 719, 819, 919, 1019, 1119, 1219, 1319, 1419 und 1519 mm
- **R 36-24:** height 519, 619, 719, 819, 919, 1019, 1119, 1219, 1319, 1419 und 1519 mm
- **R 48-24:** height 818, 919, 1019, 1119, 1219, 1319, 1419 und 1519 mm

- Integrated recessed aluminium handle bars flush with housing
- Powder-coated drawers **with slotted side walls on a 25 mm grid** for dividers – fast, comprehensive, rational subdivision is guaranteed

- All drawer cabinets of series T736 with a front height from 75 mm with load capacity 100 kg, can be fitted with **soft close**.
- When placing your order, please indicate the desired number of drawers with soft close.
- Retrofitting on existing drawers is not possible.
- **Please note!**
When opening the drawer, it must stay open for at least 5 seconds because of the soft close cylinder; otherwise the soft close mechanism will be damaged. Perfect functioning is then no longer guaranteed.

■ Cylinder lock with 180° closure

- Cabinet housing, maximum load of up to 1.5 t

- TÜV-Rheinland certificate: "GS" mark for tested safety

- **Ball bearing guides**
- **Full pull-out (FP) 100 %, load capacity 70 kg** (with 50 mm front height)
- **Full pull-out (FP) 100 %, load capacity 100 kg** (from 75 mm front height)
- **Full pull-out (FP) 100 %, load capacity 180 kg** (from 100 mm front height)
- **Full pull-out (FP) 100 %, load capacity 300 kg** (for front height 200, 250 and 300 mm)
- Drawers with front heights:
50, 75, 100, 125, 150, 175, 200, 250, 300 & 400 mm

1005 x 736 x 719 mm (W x D x H)

- Welded sheet steel construction
- Housing: powder-coated
- Central locking
- Drawers with full pull-out (FP) 100%
- Drawers with 50 mm front height: load capacity 70 kg; drawers from 75 mm front height: load capacity 100 kg
- Drawer guides on ball-bearings
- Individual pull-out lock
- Individual locking per drawer possible
- Handle bars with insertable labelling strip
- Drawer front height: 50, 75, 100, 125, 150, 175, 200, 250, 300, 400 mm
- Usable drawer dimension: 900 x 600 mm
- Individual arrangements with 180 and 300 kg load capacity see page 84/85

Drawer soft close

- Possible from front height 75 mm
- When placing your order, please indicate the desired number of drawers with soft close.
- The specified price is understood as a surcharge per drawer.
- Retrofitting on existing drawers is not possible.
- **Please note!** When opening the drawer, it must stay open for at least 5 seconds because of the soft close cylinder; otherwise the soft close mechanism will be damaged. Perfect functioning is then no longer guaranteed.

Other sizes on request

MDF tool boards

- With the tool boards, you create order and a clear overview when storage of your tools.
- Quickly to hand and sorted according to size, the MDF tool boards make work easier.
- Ready for use with cabinet widths 555, 705 and 1005 mm.
- Possible for the following drawer front heights 100, 150, 200, 250, 300 mm
- Tool boards available in MDF (medium density fibreboard) In two synthetic resin decor coatings; white and walnut
- Due to the upright storage in the individual tool places, damage to expensive carbide milling tools is avoided
- No unprotected tool cutting edges lying next to each other
- Special solutions, as well as individually manufactured solutions possible
- Examples: Compression and tension collets, holders for eroding machines erosion machines, turning steels, workpiece clamping devices, hand tools, measuring equipment!

Upon submission of an original sample, additional shapes can be produced individually.

Mechanical locking

- Cylinder lock with 180° locking
- Handle lock for hinged doors with 90° locking
- Central locking
- Individual locking per drawer possible
- User-friendly operation
- Optionally different locking or keyed alike

Electronic locking

Pin code

- Operation via keys
- Management with electronic keys
- 4-7 digit numerical code
- Emergency power supply via management key
- Horizontal alignment
- With 90° or 180 °closure

Electronic locking

RFID

- RFID standards: iClass and Mifare
- Management with electronic keys
- Emergency power supply via management key
- Horizontal alignment
- With 90° or 180 °closure

Standard locking with one key

- Opening and closing by turning the key through 180° in the case of Drawers
- Opening and closing by turning the key 90° for hinged doors and hinged doors and single drawers
- Single, different or keyed alike as a locking system

Standard version with different locks

Only one specific locker can be opened with each lock

Keyed alike

All locks have the same key

Master key system

With one master key, lockers with different locking systems can be opened.

Possibilities:

- Access to any number of locks with one key
- Access to each lock with a different key

Mechanical locking

Item no.	Description	version

04GSSVS-R-GK	Handle lock right with 2 x key 90° lock	different locking	

Key management of the e-locks

For programming the e-locks with pin code and RFID, one programming key is required per hall/plant facility. This programming key is used to teach 1-6 management keys. The emergency power supply in case of disregard of the warning signals is possible with the programming key as well as with the management key.

The users are taught in with the help of the management key. With the pin code lock, the user has the option of creating a 4-7-digit individual user code for himself. With the RFID lock, the user learns his RFID chip or card.

User key

Up to 20 users can be assigned per lock, more on request

Management keys

Up to 6 management keys can be assigned per lock.

Programming key

1 programming key is required per lock system

Application	User key	Management key	Programming key

Please note!

To set up an e-lock, you need the key management in the form of the management key and the programming key.

Pin code E-lock

The pin code e-lock can be opened with a 4-7 digit numerical code. The programming of the users and their pin codes is done by means of administration and programming keys.

Video Pin code E-lock

- Key is replaced with numerical code
- Lever mechanism
- Management with management and programming key
- Lock housing made entirely of steel
- Inlet mounting
- Rotation angle 90° or 180°
- Opening and closing by turning the knob
- Operation via buttons; management with electronic keys
- Emergency power supply via management key
- Surface finish: brushed nickel
- Horizontal alignment
- Vertical orientation for vertical pull-outs (MRS®)

Technical data recessed lock

- Locking with a 4-7 digit numerical code
- Protection class IP55
- Power supply via 2x AAA batteries
- Dimensions (W x D x H): 105.17mm x 2.7mm x 29.57 mm (incl. knob 9.75mm)
- 2 years warranty

Technical data surface-mounted lock (retrofitting)

- Locking with a 4-7 digit numerical code
- Protection class IP55
- Power supply via 2 x lithium batteries CR2450
- Dimensions (W x D x H): 133 mm x 31.5 mm x 20.4mm (incl. knob depth 7.7mm)
- 2 years warranty

Pin code E-lock

Item no.	Lock variant
01PINSLEIN	Pin code E-lock 180° locking, recessed built-in (cannot be retrofitted)
01PINSLAUF	Pin code E-lock 180° locking, surface-mounted (retrofittable)
01PINSLEINZ	Pin code E-lock 90° for single drawer recessed fitted
01PINFLRE	Pin code E-lock hinged right for hinged door
01PINFLLI	Pin code E-lock hinged left for hinged door
01PINFL2	Pin code E-lock for double wing door

Please note!

To set up an e-lock, you need the key management in the form of the management key and the programming key.

RFID E-lock

The RFID e-lock can be opened with an RFID card or a chip. The programming of the locks is done by means of management and programming keys.

Video RFID E-lock

- Key or numerical code is replaced with RFID
- Lever mechanism
- Management with management and programming key
- Operation via RFID
- Inlet mounting
- Rotation angle 90° or 180°
- Opening and closing by turning the knob
- 4 x AA batteries; protection class IP55
- Emergency power supply via management key
- Housing made entirely of metal
- Surface finish: brushed nickel
- Horizontal alignment
- Vertical orientation for vertical pull-outs (MRS®)

Technical data recessed lock

- Closure with RFID standards: iClass and Mifare (13.56 MHz)
ISO 14443A - ISO 14443B - ISO 15693
- Protection class IP55
- Power supply via 4 x AA batteries
- Dimensions (W x D x H): 105.17mm x 2.7mm x 29.57 mm
(incl. knob 9.75mm)
- 2 years warranty

Technical data surface-mounted lock (retrofitting)

- Closure with RFID standards: iClass and Mifare (13.56 MHz)
ISO 14443A - ISO 14443B - ISO 15693
- Protection class IP55
- Power supply via 4 x AA batteries
- Dimensions (W x D x H): 133 mm x 31.5 mm x 20.4 mm
(incl. knob depth 7.7 mm)
- 2 years warranty

RFID E-Lock

Item no.	Lock variant	
01RFIDSLEIN	RFID e-lock 180° locking, recessed built-in (cannot be retrofitted)	
01RFIDSLAUF	RFID e-lock 180° locking, fitted on top (can be retrofitted)	
01RFIDSLEINZ	RFID e-lock 90° for single drawer recessed built-in	
01RFIDFLRE	RFID E-lock hinged right for hinged door

6 steps to your MRS®

Example illustration. Other variants are possible!

1. Frames and walls

Select the required height and width of your drawer shelving and rear wall or diagonal cross-braces for stabilisation.

2. Shelves and dividers

In the 2nd step, you can select your shelves and dividers.

3. Drawers

Select the desired drawers or CNC drawers and if necessary divider materials. Electrical locking systems are also possible.

4. Vertical pull-outs

In the 4th step, you can select vertical pull-outs. These are ideal for heavy CNC tools.

5. Accessories for vertical pull-outs

Here you can obtain accessories such as shelves or perforated walls for vertical pull-outs. Give your MRS® the finishing touch.

6. Hinged doors

Are you still missing hinged doors? You can find these on/ from page 141

Modulares Regal System

The MRS® - modular shelving system - enables flexible interior design at all times. Drawers, shelves, vertical pull-outs, CNC storage systems and closed hinged door cabinets can be ideally integrated into a single product. The system offers three different heights.

The unique feature of the product is its individuality. Configure your drawer shelving as you require. Our extensive range of equipment and accessories offers you a large number of constructive alternatives for implementing highly diverse spatial planning economically. The drawer shelving can be subsequently extended and expanded with additional modules. It combines the advantages of a drawer cabinet with the advantages of shelving, thus creating a product that can be perfectly adapted to your requirements thanks to the optimal use of space. Not only can you use the MRS® as wall cabinet shelving, but also as a room divider.

“ We offer our customers complete support, from planning to installation. ”

Precise visualisation of your draw shelving thanks to our planning programs

With a library containing all our products for the SketchUp drawing program, this planning program - along with the pCon drawing program - is the ideal design tool for fast, efficient, three-dimensional modelling and presentation.

Free, flexible designs are produced in no time at all in order to implement your requirements, layouts, size and colour choice with creativity and dynamism.

By building up our extensive library, we are in a position to visualise your ideas and suggestions quickly and easily in 3D.

Can you visualise what your modular shelving system could look like? Let us show you.

Individual solutions

MRS® – the modular shelving system is designed in an endless construction.

Expand your furnishing requirements at any time. If they do not fit in exactly, we will offer you our wall endings as an individual solution. Contact us!

Thanks to its excellent workmanship and material quality, the MRS® is a long-term investment for your company.

- Good price-performance ratio
- High flexibility
- High quality
- Order and structure
- Perfect detailed solutions
- Various RAL colours

Dimensioning in mm

Please note:

Only **1** support frame is required between the individual modules

- 1** Frame
- 2** Shelving with shelf
- 3** Hinged doors
- 4** Vertical pull-out 300 kg
- 5** Drawers FP 100 kg, FP 180 kg
- 6** Wall ending

	SHELVING LENGTH =	number of frames x 49 mm + usable widths. With side end walls, an additional 25 mm must be added per wall.
	WALL ENDING X =	Wall length- SHELVING LENGTH

Please note:

The usable heights 1400, 1200, 900 and 700 correspond to the total height of fronts.

Example:

- Usable height 1400 → 14 x 100 mm front height = 1400 mm total height of fronts
- Usable height 1200 → 12 x 100 mm front height = 1200 mm total height of fronts
- Usable height 900 → 9 x 100 mm front height = 900 mm total height of fronts
- Usable height 700 → 7 x 100 mm front height = 700 mm total height of fronts

Please note:

The usable widths 900 and 600 correspond to the total width of fronts.

Example:

- Usable width 900 → 2x 150, 1x 250, 1x 350 mm front width = 900 mm total width of fronts
- Usable width 600 → 1x 250, 1x 350 mm front width = 600 mm total width of fronts

Frames and walls

1. Frames and walls

Select the required **height** and **width** of the shelf. For the usable width, you can choose between the two widths **651 mm** and **951 mm**. The support frame with perforations on both sides is used to hang base carriers and drawer rails in position. To achieve a stabilising effect, a divided rear panel made from high-quality steel sheet is bolted into place. Diagonal cross-braces can also be used instead of a rear wall for lengthwise stabilisation. Additionally, you can choose side end walls and partition walls. You can use these in any way you want.

Floor anchoring

- For anchoring the drawer shelving absolutely necessary

Item no.	Dimensions in mm (Ø x H)
SRBV	Ø 12 x 110

Level compensation plate

- Enables precise alignment even on an uneven floor
- Required

Item no.	Dimensions in mm (WxDxH)
SRNAP1	60 x 150 x 1
SRNAP2	60 x 150 x 2
SRNAP4	60 x 150 x 4

Support frame

- Made of high-quality sheet steel
- Carrier with subdividing holes on both sides
- 25 mm spacing between holes
- For hanging the base carriers and drawer rails
- Incl. 1 floor anchors

Item no.	Dimensions in mm (WxDxH)
SRTR100	49 x 733 x 1030
SRTR200	49 x 733 x 2030
SRTR240	49 x 733 x 2430
SRTR280	49 x 733 x 2830

**New height
1018 mm**

Side end wall

- Made of high-quality sheet steel
- For covering the sides of the shelving
- For hanging in the rack frame with base carriers

Item no.	Dimensions in mm (WxDxH)
SRSAW100	25 x 733 x 1018
SRSAW200	25 x 733 x 2018
SRSAW240	25 x 733 x 2418
SRSAW280	25 x 733 x 2818

Partition wall

- Made of high-quality sheet steel
- For hanging in the support frame
- Anti-theft protection
- Can also be used when installing facing doors

Item no.	Dimensions in mm (WxDxH)
SRZW100	18 x 591 x 928
SRZW200	18 x 591 x 1928
SRZW240	18 x 591 x 2328
SRZW280	18 x 591 x 2728

Rear wall

- Made of high-quality sheet steel in two parts
- Rear wall has a stabilising effect
- Prevents reaching through

Item no.	Dimensions in mm (W x H)	Number of parts/height in mm
SRRW070/10	725 x 1003	1 x 1007
SRRW070/20	725 x 2003	2x 1007
SRRW070/24	725 x 2403	1x 1007, 1x 1407
SRRW070/28	725 x 2803	1x 1007, 1x 1807

SRRW100/10	1025 x 1003	1 x 1007
SRRW100/20	1025 x 2003	2x 1007
SRRW100/24	1025 x 2403	1x 1007, 1x 1407
SRRW100/28	1025 x 2803	1x 1007, 1x 1807

Example arrangements with diagonal cross-braces/rear walls

Diagonal cross-brace

- For lengthwise stabilisation instead of a rear wall from height 2030 mm
- A diagonal cross-brace or a rear wall is required for the 1st and 4th fields
- Standard size for all offered heights and widths

Item no.	Dimensions in mm (WxDxH)
SRDK	728 x 4 x 1870

Shelves and dividers

2. Shelves and dividers

In the 2nd step, you can select your shelves and dividers made of high-quality sheet steel. Universal shelves are used for the top and bottom of the drawer shelving. These are available smooth or slotted and have a load capacity of up to 500 kg. Standard shelves are available with a maximum load capacity of 250 kg. Side panels are used to create the sides of internal spaces. Special dividers are available to subdivide the slotted shelves. In order to use the lower shelf, you require another shelf (universal shelf 500 kg or smooth shelf 250 kg)

Shelf divider for individual subdivision of the slotted shelves.

New

Shelf connector

Item no.	Dimensions in mm (DxH)
SRFBVERB	592 x 80

Divider for shelf

- For subdividing the slotted shelves

Item no.	Dimensions in mm (DxH)
SRFBTB095	700 x 95
SRFBTB145	700 x 145
SRFBTB195	700 x 195

Side panel

- As a side barrier
- Prevents tools/materials from falling off at the sides

Item no.	Dimensions in mm (DxH)
SRSB095	614 x 95
SRSB145	614 x 145
SRSB195	614 x 195

New

2

Floor cover

Is required when the available space above the floor is used as an open compartment. Example: For hinged doors

1

Fitted shelf

The smooth universal shelf is turned over and placed on the support tray set. A smooth or slotted universal shelf 2 is then placed on top as a floor cover.

Smooth universal shelf

- This shelf is screwed into the support frame as a top and bottom
- Additionally, it can also be used as a heavy load shelf between support frames

Item no.	Dimensions in mm (WxDxH)	Version
1 SRUNFBGL070	651 x 731 x 56	Shelf
1 SRUNFBGL100	951 x 731 x 56	Shelf
2 SRUNDEGL070	651 x 731 x 56	Ground cover
2 SRUNDEGL100	951 x 731 x 56	Ground cover

Universal shelf, slotted

- This shelf is screwed into the support frame as a top and bottom
- Additionally, it can also be used as a heavy load shelf between support frames
- The slots are used to attach dividers

Item no.	Dimensions in mm (WxDxH)	Version
SRUNFBGE070	651 x 731 x 56	Shelf
SRUNFBGE100	951 x 731 x 56	Shelf
2 SRUNDEGE070	651 x 731 x 56	Ground cover
2 SRUNDEGE100	951 x 731 x 56	Ground cover

Smooth shelf

- Inserted into the support frame as an intermediate shelf

Item no.	Dimensions in mm (WxDxH)
SRFBGL070	651 x 731 x 25
SRFBGL100	951 x 731 x 25

Slotted shelf

- Inserted into the support frame as an intermediate shelf
- The slots are used to attach dividers

Item no.	Dimensions in mm (WxDxH)
SRFBGE070	651 x 731 x 25
SRFBGE100	951 x 731 x 25

3. Drawers

In the next step, you have the opportunity to adapt the drawer and the drawer divider material to your requirements. Furthermore, you can incorporate various locking systems. You can also select the variants for your CNC area.

Please note:

The usable heights 700, 900, 1200 oder 1400 correspond to the total height of fronts.

EXAMPLE:

Usable height 700 → 7 x 100 mm front height = 700 mm total height of fronts

Usable height 900 → 9 x 100 mm front height = 900 mm total height of fronts

Usable height 1200 → 12 x 100 mm front height = 1200 mm total height of fronts

Usable height 1400 → 14 x 100 mm front height = 1400 mm total height of fronts

Electrical locking systems
please see page 120

New
height

Support tray set with cylinder lock for drawer

- Cylinder lock and two keys
- Various locking mechanisms can be incorporated into the top

Item no.	Dimensions in mm (WxDxH)	Usable drawer heights H	Grid
SRSTS070/080	651 x 731 x 818	700	24-24
SRSTS070/100	651 x 731 x 1018	900	24-24
SRSTS070/130	651 x 731 x 1318	1200	24-24
SRSTS070/150	651 x 731 x 1518	1400	24-24
SRSTS100/080	951 x 731 x 818	700	36-24
SRSTS100/100	951 x 731 x 1018	900	36-24
SRSTS100/130	951 x 731 x 1318	1200	36-24
SRSTS100/150	951 x 731 x 1518	1400	36-24

A rear wall is essential when using drawers. Partition walls or side end walls are important due to the locking mechanism so that anti-theft protection is ensured.

Width 600 mm | Depth 600 mm

02.8710.100	920 x 120 x 180	16*	11*	8*

*Number of possible inserts for sizes E1, E2, E3

Vertical pull-out

4. Vertical pull-out

Do you need vertical pull-outs? They can be used in the CNC area and are essential for ensuring order in your workshop. Select the size of the vertical pull-outs here. They are noted for their high-quality powder-coated sheet steel construction with a load capacity of 300 kg per full pull-out. Also note the perforated panels, which can be used on both sides on telescopic pull-outs with ball bearing guides, and the complementary range of hooks. You will find more extras on the following pages.

Please note:

The usable widths 900 and 600 correspond to the total width of fronts.

EXAMPLE:

Usable width 900 → 3x 300 mm front width = 900 mm total width of fronts

Usable width 600 → 3x 200 mm front width = 600 mm total width of fronts

Support tray set with cylinder lock for vertical pull-out

- Generally with cylinder lock and 2 keys
- Optionally, electronic locking mechanisms can be incorporated
- Maximum load capacity per drawer shelf 900 kg

Item no.	Dimensions in mm (WxDxH)	For vertical pull-out	Usable width W in mm
SRSTV070/100	651 x 731 x 1018	700/1000	600

Accessories for vertical pull-outs

5. Accessories for vertical pull-outs

Perforated wall for vertical pull-out

Item no.	Dimensions in mm (WxDxH)
SRVZLW416	590 x 12 x 416

- Maximum number of perforated walls that fits on one side of the vertical pull-out
- Can also be hung on both sides

Support frame height	Number of perforated walls
1030	2 pieces
2030	4 pieces
2430	5 pieces
2830	5 pieces

Half shelf for vertical pull-out

- Can be hung on both sides, creating a full-length support surface

Item no.	Dimensions in mm (WxDxH)	Usable area in mm
SRHFBVZ150	592 x 67 x 91	588 x 61
SRHFBVZ200	592 x 90 x 91	588 x 86
SRHFBVZ250	592 x 115 x 91	588 x 111
SRHFBVZ300	592 x 140 x 91	588 x 136
SRHFBVZ350	592 x 165 x 91	588 x 161

For vertical pull-outs with a width from 200, the following perforated wall accessories are possible. Others on request

Tool clamp, single, small base plate

Item no.	Dimensions in mm (Ø)
03.87.331	6
03.87.332	10
03.87.333	13
03.87.334	16
03.87.335	19

Double tool clamp

Item no.	Dimensions in mm (Ø)
03.87.341	6
03.87.342	10
03.87.343	13
03.87.344	16
03.87.345	19

Double tool holder with slanted hook ends

- Ø 6 mm

Item no.	Dimension in mm (W)
03.87.322	50
03.87.323	75
03.87.324	150

Tool holder with vertical hook end

- Ø 6 mm

Item no.	Dimension in mm (W)
03.87.311	35
03.87.312	75
03.87.313	125

Pliers holder

Item no.	Dimensions in mm (WxD)
03.87.409	20 x 35
03.87.410	50 x 40
03.87.411	75 x 50
03.87.412	20 x 55
03.87.413	20 x 75

Round holder

Item no.	Dimensions in mm (WxD)
03.87.355	65 x 25

CNC half shelf | Static variant for vertical pull-out from a width of 250 mm

- Usable area: 588 x 61 mm

Item no.	Dimensions in mm (WxDxH)	CNC E1	CNC E2	CNC E3
SRVAHFBCN250	592 x 117 x 124	*10	*7	*5

*Number of possible inserts for sizes E1, E2, E3

CNC suspension | Flexible variant for vertical pull-out from a width of 300 mm

- Hang your tool holder carrier here **02.8707.100** (see page 134)

Item no.	Dimensions in mm (WxDxH)
SRVACNWAT300	70 x 49 x 150

Slotted cross-member

- Holds long tools, pipes, etc.

Item no.	Dimensions in mm (WxDxH)
SRTRGE	72 x 20 x 630

Storage rack

- Lower stop for tools, pipes, etc.
- 2 storage racks are needed in order to utilise the entire depth
- Is hung in the slotted cross-member (SRTRGE)

Item no.	Dimensions in mm (WxDxH)
SRAB150	273 x 61 x 60
SRAB200	273 x 86 x 60
SRAB250	273 x 111 x 60
SRAB300	273 x 136 x 60

Bracket

- Tilt protection for tools, pipes, etc.

Item no.	Dimensions in mm (WxDxH)	Internal dimensions x
SRHB025	49 x 33 x 71	17
SRHB050	49 x 58 x 71	42
SRHB075	49 x 83 x 71	67
SRHB100	49 x 108 x 71	92

CNC tool holder carrier (WAT) see pages 134/135

Hinged doors

6. Hinged doors

To protect against theft, our protruding lockable hinged doors ensure optimal protection for access control. This sheet steel construction is very robust and optimally welded. The MRS® has a resistant powder coating. Hinged doors and a PIN code lock can be retrofitted.

Electronical locking system
for hinged doors
More information,
see page 120

Hinged door assembly

- With rotary handle - cylinder lock
- A rear wall and two partition walls or end walls are additionally required to ensure anti-theft protection

Finished modules

Module 1 – 2

- Delivery unassembled

Module 1 | 700

- 2x support frame
- 1x diagonal cross-brace
- 3x smooth universal shelf
- 2x slotted shelf
- 8x shelf side panel
- 5x shelf divider
- 1x fitted shelf

Item no.	Dimensions in mm (WxDxH)
SRK01	749 x 733 x 2030

Module 2 | 700

- 2x support frame
- 1x rear wall
- 2x partition wall
- 2x smooth universal shelf
- 1x support tray set with cylinder lock for drawer 700/1300
- 11x drawer

Item no.	Dimensions in mm (WxDxH)
SRK02	749 x 733 x 2030

POSSIBLE MODULE COMBINATIONS

Module 1 Module 2 Module 3 Module 4

Module 1 Module 3 Module 2 Module 4

Please note:

Only **1** support frame is required between the individual modules

Example for total length:

5x support frame x 49 mm
 + 2x 651 mm (module 700)
 + 2x 951 mm (module 1000)

≅ 3449 mm Dimensions excluding side end walls

Module 3 | 1000

- 2x support frame
- 1x rear wall
- 2x partition wall
- 1x hinged door assembly 1000/2000
- 2x universal shelf with height of 56 mm as top and bottom
- 4x shelf with height of 25 mm as intermediate shelf
- 1x fitted shelf

Item no.	Dimensions in mm (WxDxH)
SRK03	1049 x 733 x 2030

Module 4 | 1000

- 2x support frame
- 1x rear wall
- 2x partition wall
- 1x support tray set with cylinder lock for vertical cabinet 1000
- 3x vertical pull-out
- No additional intermediate shelves or perforated walls

Item no.	Dimensions in mm (WxDxH)
SRK04	1049 x 733 x 2030

POSSIBLE MODULE COMBINATIONS

Module 2 Module 4 Module 3 Module 1

Module 4 Module 3 Module 2 Module 1

Other combinations are possible

Finished modules

Module 5 – 6

- Delivery unassembled

Module 5 | 1400

- 3x support frame
- 2x rear wall
- 2x side end wall
- 2x partition wall
- 6x smooth universal shelf
- 5x smooth shelf
- 4x shelf side panels
- 1x hinged door assembly 700/2000
- 1x support tray set with cylinder lock for drawer 700/1000
- 7x drawer
- 1x fitted shelf

Item no.	Dimensions in mm (WxDxH)
SRK05	1449 x 733 x 2030

Module 6 | 700

- 2x support frame
- 1x rear wall
- 2x side end wall
- 2x smooth universal shelf
- 2x smooth shelf
- 6x shelf side panels
- 1x hinged door assembly 700/1000, top
- 1x support tray set with cylinder lock for drawer 700/1000
- 7x drawer

Item no.	Dimensions in mm (WxDxH)
SRK06	749 x 733 x 2030

Module 7 | 1000

- 2x support frame
- 1x rear wall
- 2x side end wall
- 4x universal shelf
- 2x shelf
- 2x drawer, not lockable
- 1x hinged door assembly 1000, top
- 1x fitted shelf

Item no.	Dimensions in mm (WxDxH)
SRK07	1049 x 733 x 2030

Module 8 | 1000

- 2x support frame
- 1x rear wall
- 2x side end wall
- 1x support tray set with cylinder lock for vertical pull-out
- 3x vertical pull-out
- 1x shelf
- 2x universal shelf
- 1x Universal shelf, slotted
- 1x fitted shelf

Item no.	Dimensions in mm (WxDxH)
SRK08	1049 x 733 x 2030

Tool insert size 3
Tool insert 99 x 103 x 17 mm

CNC tool inserts

The tool inserts are made of oil-resistant, break-proof and impact-resistant ABS plastic and are noted for their tailored inner struts. The tapered tool holder is thus optimally centred.

- The insert is clicked into our grid system with a clip and can be moved in steps of 25 mm without a tool.
- Nubs on the top of the inserts. In this way, no adhesion occurs and the tool is prevented from attaching itself by vacuum
- All tool sizes can be combined

CNC cabinets and workbenches

CNC combinations from practice R 18-24 | R 24-24

- The CNC drawers of a front height of more than 300 mm are prepared to hold the tool carriers
- 5 tool carriers or 1 drawer frame can be set per drawer
- Tool holder carriers (WAT), drawer frames (SR) and inserts can be found on page 152/153, 155/156
- Lockable with cylinder lock
- Cabinet can be arranged with other drawer front heights
- **Supplied without tools and tool holder frames**

CNC Drawer cabinet R 24-24

- 4x drawer
- Drawers with full pull-out 100 %
- Drawers with 100 mm front height, load capacity 100 kg
- Drawers with 300 and 400 mm front height, load capacity 180 kg
- Usable drawer dimension, internal: 600 x 600 mm

Item no.	Dimensions in mm (WxDxH)
02.140V	705 x 736 x 1019

Note:
Suspension rails on
page 157

CNC inline workbench

- Beech multiplex top 40 mm (H)
- Drawers with full pull-out (FP) 100%
- Drawers with 50 mm front height, load capacity 70 kg
- Drawers with 100, 150, 200 mm front height, load capacity 100 kg
- Drawers with 400 mm front height, load capacity 180 kg
- **Supplied without tool holder carriers (WAT) and drawer frames (SR)**

Item no.	Dimensions in mm (WxDxH)	Designation
580.0111V86	555 x 736 x 819	Left: CNC drawer cabinet R 18-24, 3x drawer Usable drawer dimension, internal: 450 x 600 mm
780.1111V86	705 x 736 x 819	Right: CNC drawer cabinet R 24-24, 4x drawer Usable drawer dimension, internal: 600 x 600 mm
03.15.40	1500 x 750 x 40	Beech multiplex workbench top
03.20.40	2000 x 750 x 40	Beech multiplex workbench top

CNC inline workbench

- Beech multiplex top 1500 x 750 x 40 mm (WxDxH)
- Workbench stand
- Drawer cabinet R 18-24
- 3x drawer
- Drawers with full pull-out 100 %
- Drawers with 100 and 200 mm front height, load capacity 100 kg
- Drawers with 400 mm front height, load capacity 180 kg
- Usable drawer dimension, internal: 450 x 600 mm
- **Supplied without tools, inserts and table mounted frame**

Item no.	Dimensions in mm (WxDxH)
02.580V86	1500 x 750 x 859

Note:
CNC accessories
from page 152/153

CNC box workbench

- Beech multiplex top, 2000 x 750 x 40 mm (WxDxH)
- Drawer cabinets R 24-24
- 7x drawer
- Drawers with full pull-out (FP) 100%
- Drawers with 50 mm front height, load capacity 70 kg
- Drawers with 100 mm front height, load capacity 100 kg
- Drawers with 400 mm front height, load capacity 180 kg
- Usable drawer dimension, internal: 600 x 600 mm
- 2x shelf 500 x 730 x 300 mm (WxDxH)
- incl. levelling feet
- 1000 kg total load capacity
- **Supplied without tools, inserts, drawer frames and tool holder carriers**

Item no.	Dimensions in mm (WxDxH)	Designation
03.20.34V86	2000 x 750 x 859	Left: 3x drawer, usable drawer dimension, internal: 600 x 600 mm Central: 2x shelf, 500 mm Right: 4x drawer, usable drawer dimension, internal: 600 x 600 mm
03.20.34V96	2000 x 750 x 959	Left: 3x drawer, usable drawer dimension, internal: 600 x 600 mm Central: 2x shelf, 500 mm Right: 4x drawer, usable drawer dimension, internal: 600 x 600 mm

CNC cabinets and workbenches

CNC workstation – We offer you the right solution R 18-24 | R 24-24

- Drawers with full pull-out (FP) 100%
- Drawers with 50 mm front height, load capacity 70 kg
Drawers with 100, 150, 200 mm front height, load capacity 100 kg
Drawers with 400 mm front height, load capacity 180 kg
- **Supplied without tools, inserts and decoration**

Mobile CNC workbench R 18-24

- Beech multiplex top, 1250 x 750 x 40 mm (WxDxH)
- 4x drawer, 1x door
- Drawers with full pull-out (FP) 100 %, load capacity 100 kg per drawer
- Drawer with 400 mm front height, load capacity 180 kg per drawer
- Usable drawer dimension, internal: 450 x 600 mm
- Drawer guides on ball-bearings, individual pull-out lock
- Round tube push handle
- 2x fixed and 2x steering caster Ø 200 mm, of which 2 with locks
- Space for 5x CNC tool holder carrier (WAT), 500
- *Number of possible inserts for sizes E1, E2, E3

Item no.	Dimensions in mm (WxDxH)
04.12.27V	1250 x 750 x 995

Mounting brackets for 1 CNC tool holder carrier (WAT)

- Supplied in pairs

Item no.	Dimensions in mm (WxDxH)
02.89.WAT.01	70 x 75 x 88

Suspension rail for up to 5 x CNC tool holder carriers (WAT)

- Supplied in pairs

Item no.	Dimensions in mm (WxDxH)
02.33.87.60	25 x 600 x 75

CNC tool holder carrier (WAT), 450

Item no.	Dimensions in mm (WxDxH)	CNC E1	CNC E2	CNC E3
02.8705.100	470 x 120 x 180	7*	5*	3*

CNC cabinets and workbenches

CNC combination system R 36-24

- With CNC tool holder frames (WAR) and tool holder carriers (WAT)
- Drawers with full pull-out 100 %
- Drawers with 50 mm front height, load capacity 70 kg
- Drawers with 100 and 150 mm front height, load capacity 100 kg
- Drawers with 400 mm front height, load capacity 180 kg
- **Supplied without tools and inserts**
- *Number of possible inserts for sizes E1, E2, E3

CNC roller shutter attachment cabinet (empty)

- Cabinet with plastic roller shutters
- With push cylinder lock

Item no.	Dimensions in mm (WxDxH)
02.98.00	1000 x 500 x 1000

Shelf bracket for roller shutter cabinet and CNC-frame

- 1 piece

Art.-Nr.
01-00206

1

CNC tool holder frame (WAR) for roller shutter cabinet

- Can be installed straight or inclined
- Load capacity 120 kg

Item no.	Dimensions in mm (WxDxH)
02.89WARG900	950 x 425 x 85

	CNC E1	CNC E2	CNC E3
Maximum insert capacity per carrier	48*	33*	24*

2

CNC tool holder frame (WAR) for roller shutter cabinet, pull-out

- For roller shutter cabinet
- Full pull-out 100 %
- Load capacity 50 kg

Item no.	Dimensions in mm (WxDxH)
02.095.03 VA	950 x 420 x 68

	CNC E1	CNC E2	CNC E3
Maximum insert capacity per carrier	48*	33*	24*

3

CNC drawer cabinet R 36-24

- With cylinder lock
- Usable drawer area, internal: 900 x 600 mm
- 4x drawer
- Drawer with 400 mm BLH without slotted side panels, therefore the use of metal dividers is not possible

Item no.	Dimensions in mm (WxDxH)
02.1080.4V	1005 x 736 x 819

400

CNC drawer frames or single carriers see page 175/176
CNC inserts see page 153/154

CNC tall magazine cabinet

CNC storage and transport systems

- Housing made of sturdy, welded sheet steel
- The possible number of tool frames is based on the tool height and mounting (straight or inclined)
 - Maximum capacity of the **straight** frame: 5
 - Maximum capacity of the **inclined** frame: 4
- *Number of possible inserts for sizes E1, E2, E3

CNC roller shutter cabinet with plastic roller shutters (empty)

- Plastic roller shutters with push cylinder lock

Item no.	Dimensions in mm (WxDxH)
02.95.01	1000 x 500 x 1950

CNC roller shutter cabinet with aluminium roller shutters (empty)

- High-quality aluminium roller shutters with push cylinder lock

Item no.	Dimensions in mm (WxDxH)
02.89.01	1000 x 500 x 1950

1

CNC tool holder frame (WAR)

- Can be installed straight or inclined
- Load capacity 120 kg

Item no.	Dimensions in mm (WxDxH)
02.89WARG900	950 x 425 x 85

	CNC E1	CNC E2	CNC E3
Maximum insert capacity per carrier	48*	33*	24*

2

CNC tool holder frame (WAR) for roller shutter cabinet, pull-out

- For roller shutter cabinet
- Full pull-out 100 %
- Load capacity 50 kg

Item no.	Dimensions in mm (WxDxH)
02.095.03 VA	950 x 420 x 68

	CNC E1	CNC E2	CNC E3
Maximum insert capacity per carrier	48*	33*	24*

3

Shelf for CNC roller shutter cabinet

- Load capacity 100 kg

Item no.	Dimensions in mm (WxDxH)
04.122	950 x 420 x 28

4

Drawer for CNC roller shutter cabinet

- 100 mm front height, full pull-out 100 %
- Load capacity 50 kg
- Usable drawer dimension, internal: 899 x 375 (W x D)

Item no.	Dimensions in mm (WxD)
60.095.100VA	950 x 430

CNC roller shutter cabinet with plastic roller shutters (as shown)

- 2x CNC tool holder frame (WAR), straight/inclined
- 1x CNC tool holder frame (WAR), pull-out
- 1x shelf
- 1x drawer
- **Supplied without tools and inserts**

Item no.	Dimensions in mm (WxDxH)
02.95.01.01	1000 x 500 x 1950

CNC cabinets and workbenches

CNC hinged door cabinet with solid sheet doors R 36-16

- Robust, welded sheet steel construction
- Resistant powder coating
- Drawers with full pull-out 100 %
- Solid sheet doors with moulded recess cylinder lock
- When using drawers and pull-outs, the opening angle must be 130°, therefore these hinged-door wardrobes not be placed directly next to each other.

CNC hinged door cabinet R 36-16

- 1x fixed, inclined tool holder frame (WAR)
- 1x pull-out tool holder frame (WAR)
- 1x shelf
- 3x drawer
- **Supplied without tools and inserts**

Item no.	Dimensions in mm (WxDxH)	Product name	Description
02.118.05.01	980 x 500 x 1838	Hinged door cabinet R 36-16	1x fixed and 1x pull-out tool holder frame (WAR), 1x shelf, without tools and inserts, 3x drawer (100, 150, 200 mm)
02.89WAR900	924 x 425 x 87	CNC tool holder frame (WAR), straight/ inclined	Suitable for all hinged door cabinets, can be used straight/inclined, load capacity 80 kg
02.89WARA900	926 x 450 x 60	CNC tool holder frame (WAR), pull-out, for hinged door cabinet	Pull-out 100 %, load capacity 50 kg
04.090.013	925 x 443 x 22	Shelf for hinged door cabinet	Fixed shelf, height-adjustable, load capacity 80 kg
60.098.100VA	900 x 400 x 90	Drawer for hinged door cabinet Front height 100 mm, load capacity 50 kg	Drawer suitable for all hinged door cabinets, pull-out 100 %, internal usable dimension: 900 x 400 mm
60.098.150VA	900 x 400 x 140	Drawer for hinged door cabinet Front height 150 mm, load capacity 50 kg	Drawer suitable for all hinged door cabinets, pull-out 100 %, internal usable dimension: 900 x 400 mm
60.098.200VA	900 x 400 x 190	Drawer for hinged door cabinet Front height 200 mm, load capacity 50 kg	Drawer suitable for all hinged door cabinets, pull-out 100 %, internal usable dimension: 900 x 400 mm

- Robust, welded sheet steel construction
- Resistant powder coating
- Glazed doors with moulded recess cylinder lock
- When using drawers and pull-outs, the opening angle must be 130°, therefore these hinged-door wardrobes not be placed directly next to each other.

CNC hinged door cabinet with glazed doors R 36-16

- 2x fixed, inclined tool holder frame (WAR)
- 2x pull-out tool holder frame (WAR)
- **Supplied without tools and inserts**

Item no.	Dimensions in mm (WxDxH)	Product name	Description
02.117.04.01	980 x 500 x 1838	CNC hinged door cabinet with glazed doors R 36-16	2x fixed and 2x pull-out CNC tool holder frame (WAR), without tools and inserts
04.090.013	925 x 443 x 22	Shelf	Fixed shelf, height-adjustable, load capacity 80 kg
02.89WAR900	924 x 425 x 87	CNC tool holder frame (WAR), straight/inclined	Suitable for all hinged door cabinets, can be used straight/inclined, load capacity 80 kg
02.89WARA900	926 x 450 x 60	CNC tool holder frame (WAR), pull-out	Suitable for all hinged door cabinets, Pull-out 100 %, load capacity 50 kg

CNC inserts see page 153/154

CNC cabinets and workbenches

CNC hinged door cabinet R 36-16

- When using drawers and pull-outs, the opening angle must be 130°, therefore these hinge-door wardrobes cannot be placed directly next to each other.

CNC hinged door cabinet (empty) R 36-16

- Hinged door cabinet with solid sheet doors
- With moulded recess cylinder lock

Item no.	Dimensions in mm (WxDxH)	Usable height in mm

Bracket retrofit kit for CNC tool holder frame

- Load capacity 140 kg
- 4-part set

Item no.	Dimensions in mm (WxDxH)
02.89W140	76 x 29 x 12

CNC RotaRex® large cabinet

Your advantages

- Barrier-free access to the cabinet - no impairment by pull-outs
- Space-saving - high quantity of inserts with minimal storage area, up to 400x SK30 or up to 300x SK40 tools fit in 1m²
- Optimised work process as all tools are quickly within reach
- Opening/usable height: 1790 mm
- Forklift base for transport. **Warning!** RotaRex® must not be transported when loaded!

Roller shutters

- The electrically driven roller shutter is operated by remote control
- Alternatively possible with spring-loaded shaft or hinged doors
- Multiple cabinets can be opened simultaneously with one remote control (on request)
- Aluminium-coloured plastic slats
- In case of a power failure or technical defect, emergency unlocking is provided on the rear of the cabinet

Column

- Precision steel tube, Ø 60 mm
- Galvanized
- Total load 1.5 t
- For holding up to 5 CNC rotating frames Individually adjustable on a grid of 25 mm
- Individual readjustment of the column position thanks to a tongue on the bottom

Equipped CNC lathe frames
see page 171

CNC rotating frame

- With handles and locking mechanism
- 16 lines for Tool inserts
- Supplied without inserts

Item no.	Dimensions in mm (Ø)
02.R01	915

CNC-RotaRex® with electric roller shutters

- With remote control
- Without CNC rotating frame

Item no.	Dimensions in mm (WxDxH)
02.1000.1	1055 x 1035 x 2130

CNC-RotaRex® with manual roller shutters

- Without CNC rotating frame

Item no.	Dimensions in mm (WxDxH)
02.1000.2	1055 x 1035 x 2130

CNC-RotaRex® with hinged doors

- Glazed doors with acrylic glass
- Without CNC rotating frame

Item no.	Dimensions in mm (WxDxH)
02.1000.3	1055 x 1035 x 1955

CNC RotaRex® large cabinet

CNC-RotaRex®

Lighting RotaRex®

New

Bring even more clarity to your RotaRex® cabinet.

The self-adhesive lighting set is attached to the inside of the RotaRex® housing and is circumferential. Each storage space is thus optimally illuminated.

The lighting time can be set manually between 30 seconds and 10 minutes. As soon as you open, approach or reach into your storage system, the lighting is activated by the sensor. The lighting is activated by the sensor and gives you a better overview of your tools. Retrofitting is possible.

Lighting set can be flexibly attached

Optimally illuminated tool

Lighting set

- Motion sensor
- LED Stribe warm white, clear coated
- X-adapter for connecting LED Stribes
- Self-adhesive on the back for easy mounting
- Simple plug-in system for easy installation
- Pleasant warm white LED light
- Transparent coating to protect the LED against contact or moisture
- Electrical connection with 230/12V required
- Energy-saving LED technology (saves up to 80 % compared to conventional incandescent lamps)

Item no.	Dimensions in mm (W x D)
02.BELROT	6000 x 10,5

CNC rotating frame only for CNC-RotaRex®

- Dimensions (Ø): 915 mm
- Customer-specific height adjustment thanks to a grid of 25 mm in the column
- Up to 5 x CNC rotating frame fit in the RotaRex®, depending on the tool height
- All frames can be individually rotated 360°
- Maximum load of up to 300 kg per frame
- With handles for optimum access to each tool
- Locking at 90°, 180°, 270°, and 360°
- Smooth rolling with steel ball bearing guides
- **CNC lathe frame only available in combination with a CNC-RotaRex® cabinet available.**

Example: equipped with tool inserts size E2

Tool insert size 1

- Tool insert 49 x 103 x 17 mm
- CNC rotating frame completely equipped with the inserts listed below
- Only suitable for CNC-RotaRex® cabinet

CNC
E1

Item no.	Type	Number of inserts	Number of tools
02.R560130	SK 30	80	80
02.R570104	Capto C4	80	80

CNC workshop and transport trolleys

CNC workshop trolley R 18-24 | R 24-24

The optimum storage and safe transport of CNC tools significantly influence economic efficiency.

- Inserts see page 152/153
- **Suspension rails 02.33.87.60 are required when using the single carrier (WAT).**
- **Supplied without tools and inserts**

CNC workshop trolley R18-24

- Raised edges and ribbed rubber mat
- 5x drawer
- Usable drawer dimension, internal: 450 x 600 mm
- Drawers with full pull-out 100 %
- Drawers with 50 mm front height, load capacity 70 kg
Drawers with 100 mm front height, load capacity 100 kg
Drawers with 400 mm front height, load capacity 180 kg
- With individual interlocking
- 2 fixed and 2 steering casters, Ø 125 mm with locks
- Max. load capacity 500 kg

Item no.	Dimensions in mm (WxDxH)	Designation
02.580.05V	555 x 736 x 991	CNC workshop trolley with 5x drawer and raised edges
02.8705.100	470 x 120 x 180	CNC tool holder carrier (WAT), 5x single carrier per drawer possible
02.33.87.60	600 x 25 x 75	Suspension rail for CNC for tool holder carrier (WAT)
02.8705.500	450 x 600 x 130	CNC drawer frame SR 450, without tool inserts

CNC workshop trolley R24-24

- Raised edges and ribbed rubber mat
- 4x drawer
- Usable drawer dimension, internal: 600 x 600 mm
- Drawers with full pull-out 100 %

Please note!

To set up an e-lock, you need the key management in the form of the management key and the programming key.

More information
see page 120

Pin code E-lock

The pin code e-lock can be opened with a 4-7 digit numerical code. The programming of the users and their pin codes is done by means of administration and programming keys.

Video Pin code E-lock

- Key is replaced with numerical code
- Lever mechanism
- Management with management and programming key
- Lock housing made entirely of steel
- Inlet mounting
- Rotation angle 90° or 180°
- Opening and closing by turning the knob
- Operation via buttons; management with electronic keys
- Emergency power supply via management key
- Surface finish: brushed nickel
- Horizontal alignment
- Vertical orientation for vertical pull-outs (MRS®)

Technical data recessed lock

- Locking with a 4-7 digit numerical code
- Protection class IP55
- Power supply via 2x AAA batteries
- Dimensions (W x D x H): 105.17mm x 2.7mm x 29.57 mm (incl. knob 9.75mm)
- 2 years warranty

Technical data surface-mounted lock (retrofitting)

- Locking with a 4-7 digit numerical code
- Protection class IP55
- Power supply via 2 x lithium batteries CR2450
- Dimensions (W x D x H): 133 mm x 31.5 mm x 20.4mm (incl. knob depth 7.7mm)
- 2 years warranty

Pin code E-lock

Item no.	Lock variant	
01PINSLEIN	Pin code E-lock 180° locking, recessed built-in (cannot be retrofitted)	
01PINSLAUF	Pin code E-lock 180° locking, surface-mounted (retrofittable)	
01PINSLEINZ	Pin code E-lock 90° for single drawer recessed fitted	
01PINFLRE	Pin code E-lock hinged right for hinged door	
01PINFLLI	Pin code E-lock hinged left for hinged door	
01PINFL2	Pin code E-lock for double wing door	

Please note!

To set up an e-lock, you need the key management in the form of the management key and the programming key.

RFID E-lock

The RFID e-lock can be opened with an RFID card or a chip. The programming of the locks is done by means of management and programming keys.

Video RFID E-lock

- Key or numerical code is replaced with RFID
- Lever mechanism
- Management with management and programming key
- Operation via RFID
- Inlet mounting
- Rotation angle 90° or 180°
- Opening and closing by turning the knob
- 4 x AA batteries; protection class IP55
- Emergency power supply via management key
- Housing made entirely of metal
- Surface finish: brushed nickel
- Horizontal alignment
- Vertical orientation for vertical pull-outs (MRS®)

Technical data recessed lock

- Closure with RFID standards: iClass and Mifare (13.56 MHz)
ISO 14443A - ISO 14443B - ISO 15693
- Protection class IP55
- Power supply via 4 x AA batteries
- Dimensions (W x D x H): 105.17mm x 2.7mm x 29.57 mm
(incl. knob 9.75mm)
- 2 years warranty

Technical data surface-mounted lock (retrofitting)

- Closure with RFID standards: iClass and Mifare (13.56 MHz)
ISO 14443A - ISO 14443B - ISO 15693
- Protection class IP55
- Power supply via 4 x AA batteries
- Dimensions (W x D x H): 133 mm x 31.5 mm x 20.4 mm
(incl. knob depth 7.7 mm)
- 2 years warranty

RFID E-Lock

Item no.	Lock variant	
01RFIDSLEIN	RFID e-lock 180° locking, recessed built-in (cannot be retrofitted)	
01RFIDSLAUF	RFID e-lock 180° locking, fitted on top (can be retrofitted)	
01RFIDSLEINZ	RFID e-lock 90° for single drawer recessed built-in	
01RFIDFLRE	RFID E-lock hinged right for hinged door	
01RFIDFLLI	RFID E-lock hinged left for hinged door	
01RFIDFL2	RFID e-lock for double wing door	

Box workbenches

- No unassembled goods - complete assembly at the factory
- Construction made of 40 x 40 x 2 mm square tube
- Housing made from high-quality thin sheet metal, frame 1.5 mm thick
- **workbenches with a maximum load of up to 1 t**
- Secure central locking, combination locking systems are possible
- Drawers with ball-bearing guides
- Recessed drawers and doors, therefore no risk of injury due to protruding handle bars
- Worktop made of beech multiplex, glue laminated, oiled, water-repellent
- Levelling glides under the feet

Inline workbenches

Energy block for inline workbench combinations

Removable door so that all components can be easily maintained.

Front side

Back side

Energy block

- Fully assembled with 1x cable reel and 1x hose reel
- 1x socket panel with 3x earthed sockets and on/off switch
- 2x 1/4" compressed air connections
- Compressed air supply
- Unwired

Item no.	Dimensions in mm (WxDxH)
03.961.2651	200 x 650 x 819

Energy block, empty housing, can be filled from both sides

- Usable height of 750 mm can be used on both sides
- Can be filled with the individual components

Item no.	Dimensions in mm (WxDxH)
03.961.265	200 x 650 x 819

- Reels integrated into the side part offer a total hose/cable length of 6 m
- The door is secured by a cylinder lock and removable so that all components can be easily maintained.

- You can find components to fit for the individual energy supply on/ from page 229
- Delivered unassembled, for easy self-assembly

Workbench accessories ON THE WORKBENCH

Worktop covers

High-strength non-slip mat for use as a worktop cover, transport securing device and floor mat, made from highly tear-proof PES base material with PVC soft foam special coating.

The "Panther" anti-slip mat is produced in accordance with the latest EU regulations "Restriction of Hazardous Substances" and is free of azo dyes, formaldehyde, silicon and poisonous heavy metals such as lead and cadmium.

Processing: The non-slip mat can be cut with the cutter, perforated with a punch, nailed, riveted and screwed.

Other dimensions on request.

Safety non-slip mats as workbench coverings

Adhesive	
0340604SANT	600 x 4000 x 4
0340804SANT	800 x 4000 x 4

Advantages:

- Temperature resistance approx. -40 °C to +120 °C
- Closed surface – no absorption of liquids
- Excellent resistance to acids, lyes, oil, petrol and diesel
- Melting temperature approx. 250 °C, auto-ignition temperature approx. 350 °C
- Cleaning: wipe with a damp cloth and a solvent-free cleaning agent. Rinse thoroughly with water and allow to dry.

Processing: soft PVC material can be cut with the cutter, perforated with a punch, nailed, riveted and glued with special adhesive.

Properties: Soft PVC, bluish- transparent, glossy and flexible

Normal quality, Shore A approx 80°

Temperature-resistant from -20 °C to +60 °C

UV-stabilised

DOP-, cadmium and silicone free

Soft PVC workbench coverings

**LEINEN - Vice Junior**

- Maximum stability due to high-strength solid gray cast iron (G 25)
- Cast-on clamping jaws
- With interchangeable jaws. Jaws have one knurled and one smooth side and can be turned around as required
- Absolutely backlash-free movement of upper and lower part due to precision-machined dovetail guide
- Safe guidance even in wide open condition
- High impact resistance and long service life
- Special jaw locking, thus no jaw position change and loosening under impact load
- Cross slide precisely adjustable due to smooth-running, backlash-free spindle operation
- Parallel jaws in toolmaker quality, even after years of use
- Problem-free conversion from „fixed“ to „rotating“ design
- Opening to the rear
- Hammer finish according to RAL 6011/ also available in RAL 5007.

Workbench accessories ON THE WORKBENCH

Workbench accessories

MAGNEFIX

The new MAGNEFIX protective jaws provide a firm but gentle grip and are the best choice even for demanding craftsmen. The MAGNEFIX jaws are right-angled, surface-parallel and suitable for all vices, including machine vices, making them equally suitable for production as assembly work. MAGNEFIX protective jaws are equipped with extremely strong magnetic strips for quick and easy assembly. The magnetic strip is only magnetic against the vise and therefore does not attract iron filings and dirt. In addition, the workpiece is not magnetized.

Advantages:

- Shockproof extruded polycarbonate
- Extremely powerful neodymium magnetic strip
- Holding force for a 100-mm wide protective jaw is 3.5 kg, corresponding to 34N
- Hardened aluminum 6063, T66F25 with magnesium and silicon as alloy components
- Provides superior corrosion protection with first-class surface finish and is ideally suited for firm clamping in a vise while protecting delicate workpieces

PRISMATIC PROTECTIVE JAWS

The MAGNEFIX prismatic protective jaws are designed for versatile use and offer efficient clamping while protecting the workpiece.

Designed for

- horizontal clamping of flat workpieces
- horizontal clamping of round workpieces
- vertical clamping of round workpieces

For thread cutting, it's recommended using only one protective jaw with prisms to prevent damage to the jaw. The keyway aligns the workpiece, while the fluting of the opposite vise jaw prevents rotation.

90° recess at the top for clamping of flat bars during marking or center punching.

Horizontal 120° V-groove for clamping tubes and other round workpieces.

Three vertical V-grooves with 100°, 120° and 130° for clamping tubes and other round workpieces.

New

PROTECTIVE JAWS MADE OF POLYURETHANE

The protective jaws are made of highly flexible polyurethane with a Shore hardness of A82. Polyurethane is known for its unique ability to „bite“ into the workpiece without damaging or scratching it. At the same time, it's extremely flexible, so it easily returns to its original shape after deformation.

Workbench accessories ON THE WORKBENCH

Info boards

Info board A5, Wall 10

- Complete set made of powder-coated sheet steel, for wall mounting
- Metal wall bracket with 10 display panels
- A5 format (10 pieces in black)
- Tab with blank insert labels

Item no.	Version
5507	Black

Info board A4, Wall 20

- Complete set made of powder-coated sheet steel, for wall mounting
- Metal wall bracket with 20 display panels
- A4 format (5 pieces in each colour: red, yellow, green and dark blue)
- Tab with blank insert labels

Item no.	Version
5512	Assorted colours

Info board A4, Wall 5

- Complete set made of powder-coated sheet steel, for wall mounting
- Metal wall bracket with 5 display panels
- A4 format
- Tab with blank insert labels

Item no.	Version
5551R	Red
5551B	Blue
5551O	Orange

Info board A4, Wall 10

- Complete set made of powder-coated sheet steel, for wall mounting
- Metal wall bracket with 10 display panels
- A4 format (2 pieces in each colour: black, red, yellow, green and dark blue)
- Tab with blank insert labels

Item no.	Version
5567	Assorted colours

Info panel A4

- Polypropylene display panels with all-round, coloured profile frame with 5 display panels
- DIN A4 format (5 pieces in each colour: black, red, yellow, green, dark blue, orange, grey, graphite, blue, violet)

Item no.	Version
5606	Assorted colours

Magnetic Info board A4, Wall 5

- Metal wall bracket with magnetic back with 5 display panels
- A4 format
- Can be quickly and easily attached to metallic substrates such as racks or machines

Item no.	Version
5914	Black

Sorting racks and magnetic frames

Metal sorting racks for the clear sorting of documents. Available in multiple colour and sizes. Ideal for wall mounting, includes fastening material, also suitable for desktop use
Label window on the side

- Sorting rack with 5 compartments
- For A4/folio format
- Powder-coated steel
- (WxDxH): 360 x 250 x 330 mm

Item no.	Version
3360-01	Black
3360-10	Grey

- Sorting rack with 8 compartments
- For A4/folio format
- Powder-coated steel
- (WxDxH): 360 x 250 x 540 mm

Item no.	Version
3361-01	Black
3361-10	Grey

Magnetic frame

For the clear presentation of information

- Material: anti-reflective rigid film, thickness 240 my
- Can be used in profile and landscape format
- Frames adhere to all ferrous surfaces
- Scratch-proof frame print
- Back completely sealed with magnets
- Paper can be changed extremely quickly (lift one corner - change paper - let go of corner - done)
- Example applications: Notices on whiteboards, signs on control cabinets and in lockers

Magnetic label bag

- Bag of 50 pieces
- Made of durable PP with two magnet strips for attachment to metallic surfaces such as storage racks
- Scanner-friendly and waterproof
- Blue

Item no.	Internal dimensions (HxW) in mm	External dimensions
1741-07	38 x 100	50 x 110

Workplace mats

Preventive health protection by ensuring that workers stand in a safe and healthy way

- High wear resistance
 - Good low-temperature behaviour
 - Exceptional ageing resistance
 - Durability
 - Excellent dimensional stability
 - Wear resistance
 - Environmental compatibility (free of silicon, CFCs, HCFCs, PVC, propellants and solvents)
 - Special dimensions possible
- Standard PU colour: anthracite grey.
Additional charge for coloured mats (opal green + ultramarine blue)
 - Weight: 3 kg
 - 600 x 900 mm
 - Temperature resistance: -40°C to +80°C
 - Electrical resistance: 106 Ω (ESD)

MULTI-WALL – suitable for all workstations

Our features	Your advantages
Suitable for all workstations	Custom arrangement options
Modular system	Combinations in different dimensions freely configurable
Two different fastening systems	Suitable for all worktop designs and thicknesses
Perforated and slotted profiles – reinforced and welded	Very stable construction, which the various accessories or special solutions can be attached to
Heights: 650, 950, 1250 & 1550 mm Widths: 700, 1000, 1500 & 2000 mm	Individuality and arrangement can be implemented completely according to customer requirements
Wide range of accessories	The right solution for every application
Attachment of overhead frames with equipment rails possible	Lighting and slider mounted extremely easily, providing ergonomic working conditions
Electricity and compressed air supplied via energy ducts	Power supplied directly at the workplace
Convertible and retrofittable at any time	Additional parts can attached and existing parts can be converted for modified working conditions
All parts available in 15 standard colours	Eco-friendly painting procedure

- Delivered unassembled, for easy self-assembly

07.8920.1	2000 x 750

Double-sided overhead frame with bolted reinforcement cross-members

Item no.	Dimensions in mm (WxDxH)
07.8910.2	1000 x 750
07.8915.2	1500 x 750
07.8920.2D*	2000 x 750

slider

The equipment rail is mounted on the overhead frame and serves to accommodate the slider or the lighting.

Item no.	Dimensions in mm (WxDxH)
03.910.03	1000 x 30 x 30
03.912.03	1250 x 30 x 30
03.915.03	1500 x 30 x 30
03.917.03	1750 x 30 x 30
03.920.03	2000 x 30 x 30
03.900.01	Slider

Multi-board

Multi-board setup for panel thicknesses from 40 mm

- Table width 750 mm
- Superstructure width centre-centre 650 mm
- 1x support column left
- 1x support column right

- Table width 1000 mm
- Superstructure width centre-centre 950 mm
- 1x support column left
- 1x support column right

- Table width 1250 mm
- Superstructure width centre-centre 1200 mm
- 1x support column left
- 1x support column right

- Table width 1500 mm
- Superstructure width centre-centre 950 mm
- 1x support column left
- 1x support column right

- Table width 1500 mm
- Superstructure width centre-centre 1450 mm
- 1x support column left
- 1x support column right

- Table width 1750 mm
- Superstructure width centre-centre 1700 mm
- 1x support column left
- 1x support column right

- Table width 2000 mm
- Superstructure width centre-centre 950 mm
- 1x support column left
- 1x support column right

- Table width 2000 mm
- Superstructure width centre-centre 1450 mm
- 1x support column left
- 1x support column right

- Table width 2000 mm
- Superstructure width centre-centre 2 x 950 mm
- 2x support column left
- 1x support column right

- Table width 2000 mm
- Superstructure width centre-centre 1900 mm
- 1x support column left
- 1x support column right

Open fronted storage bins

- Made of polypropylene (lids on request)

Item no.	Dimensions in mm (WxDxH)
03.900.001	100 x 95 / 65 x 50
03.900.002	100 x 175 / 140 x 75
03.900.003	145 x 235 / 195 x 125

Rail for open fronted storage bins on perforated wall

Item no.	Length in mm
03.900.06	300
03.900.05	450

Perforated wall

- 2000 mm perforated walls can only be attached to setups with 2 support columns, otherwise 2 x 1000 mm are required

Item no.	Dimensions in mm (WxDxH)
03.983.101	700 x 20 x 302
03.983.102	1000 x 20 x 302
03.983.104	1250 x 20 x 302
03.983.103	1500 x 20 x 302
03.983.106	1750 x 20 x 302
03.983.105	2000 x 20 x 302

Magnetic board

- 2000 mm magnetic boards can only be attached to setups with 2 support columns, otherwise 2 x 1000 mm are required

Item no.	Dimensions in mm (WxDxH)
03.983.07	700 x 20 x 302
03.983.10	1000 x 20 x 302
03.983.12	1250 x 20 x 302
03.983.15	1500 x 20 x 302
03.983.17	1750 x 20 x 302
03.983.20	2000 x 20 x 302

Slotted wall

- 2000 mm slotted walls can only be attached to setups with 2 support columns, otherwise 2 x 1000 mm are required

Item no.	Dimensions in mm (WxDxH)
03.983.111	700 x 20 x 302
03.983.112	1000 x 20 x 302
03.983.114	1250 x 20 x 302
03.983.113	1500 x 20 x 302
03.983.116	1750 x 20 x 302
03.983.115	2000 x 20 x 302

Monitor holder incl. crossbar

- 2000 mm crossbars can only be attached to setups with 2 support columns, otherwise 2 x 1000 mm are required

Item no.	Dimensions in mm (WxDxH)
03MONTRA070	700 x 125 x 121
03MONTRA100	1000 x 125 x 121
03MONTRA125	1250 x 125 x 121
03MONTRA150	1500 x 125 x 121
03MONTRA175	1750 x 125 x 121
03MONTRA200	2000 x 125 x 121

Monitor holder

Item no.	Dimensions in mm (WxDxH)
03MONHAL	125 x 125 x 121

Multi-board

Energy duct accessories

Shelf for hanging between the support columns

- Adjustable height and incline
- Inclination 0°, 10° and 20° incl. roll-off edge
- 2000 mm shelves can only be attached to setups with 2 support columns, otherwise 2 x 1000 mm are required
- Includes bracket
- Load capacity refers to uniformly distributed load

Shelf 700 mm

Item no.	Dimensions in mm (WxDxH)	Usable dimensions in mm (WxD)
03.907.220	700 x 220 x 20	614 x 218
03.907.320	700 x 320 x 20	614 x 318
03.907.420	700 x 420 x 20	614 x 418

Shelf 1000 mm

Item no.	Dimensions in mm (WxDxH)	Usable dimensions in mm (WxD)
03.910.220	1000 x 220 x 20	914 x 218
03.910.320	1000 x 320 x 20	914 x 318
03.910.420	1000 x 420 x 20	914 x 418

Shelf 1250 mm

Item no.	Dimensions in mm (WxDxH)	Usable dimensions in mm (WxD)
03.912.220	1250 x 220 x 20	1164 x 218
03.912.320	1250 x 320 x 20	1164 x 318
03.912.420	1250 x 420 x 20	1164 x 418

Shelf 1500 mm

Item no.	Dimensions in mm (WxDxH)	Usable dimension in mm (WxD)
03.915.220	1500 x 220 x 20	1414 x 218
03.915.320	1500 x 320 x 20	1414 x 318
03.915.420	1500 x 420 x 20	1414 x 418

Shelf 1750 mm

Item no.	Dimensions in mm (WxDxH)	Usable dimension in mm (WxD)
03.917.220	1750 x 220 x 20	1664 x 218
03.917.320	1750 x 320 x 20	1664 x 318
03.917.420	1750 x 420 x 20	1664 x 418

Shelf 2000 mm

Item no.	Dimensions in mm (WxDxH)	Usable dimension in mm (WxD)
03.920.220	2000 x 220 x 20	1864 x 218
03.920.320	2000 x 320 x 20	1864 x 318
03.920.420	2000 x 420 x 20	1864 x 418

Wooden shelf

- For mounting between the support columns

Item no.	Dimensions in mm (WxDxH)
07.8907.350	700 x 350 x 19
07.8910.350	1000 x 350 x 19
07.8912.350	1250 x 350 x 19
07.8915.350	1500 x 350 x 19

Fitting carried out completely according to customer requirements, the individual components can be screwed on individually. The energy duct is available in three different lengths. Special brackets offer attachment options between or in front of the support columns or on the overhead frame of the multi-board setup. Attachment directly to the worktop is also possible.

Direct supply of electricity and compressed air via the energy duct. Each component is earthed separately. The individual elements in the energy duct are supplied via M20 cable glands.

For the energy bars offered here, on-site fuse protection is assumed.

Energy duct mounting bracket see page 281

Energy duct

- Energy duct, fully equipped with 1x socket bar with 3x earthed socket with on/off switch
- Unwired

Item no.	Dimensions in mm (WxDxH)	Systemmaß in mm
07.861.10.10	875 x 60 x 130	1000
07.861.15.10	1375 x 60 x 130	1500
07.861.20.10	1875 x 60 x 130	2000

Energy duct

- Energy duct, fully equipped with 1x socket bar with 3x earthed socket with on/off switch
- 2x 1/4" compressed air connection
- Unwired

Item no.	Dimensions in mm (WxDxH)	Systemmaß in mm
07.861.10.11	875 x 60 x 130	1000
07.861.15.11	1375 x 60 x 130	1500
07.861.20.11	1875 x 60 x 130	2000

Energy duct

- Energy duct, fully equipped with 1x socket bar with 3x earthed socket with on/off switch
- 2x 1/4" compressed air connection
- 1x CEE socket 16 A, unwired

Item no.	Dimensions in mm (WxDxH)	Systemmaß in mm
07.861.10.12	875 x 60 x 130	1000
07.861.15.12	1375 x 60 x 130	1500
07.861.20.12	1875 x 60 x 130	2000

Energy duct

- Energy duct, fully equipped with 2x earthed socket with cover plate
- 1x 1/4" compressed air connection
- 1x CEE socket 16 A
- Emergency stop button, unwired

Item no.	Dimensions in mm (WxDxH)	Systemmaß in mm
07.861.10.13	875 x 60 x 130	1000
07.861.15.13	1375 x 60 x 130	1500
07.861.20.13	1875 x 60 x 130	2000

Multi-board

Energy duct accessories

New

Energy duct, empty

- Universal applicable
- Fuses see page 283
- Unwired
- The width of the individual cover plates added together equals the width of the energy duct

Item no.	Dimensions in mm (WxDxH)	Total width in mm
07.861.501	375 x 60 x 130	-
07.861.500	500 x 60 x 130	-
07.861.701	625 x 60 x 130	750
07.861.801	875 x 60 x 130	1000
07.861.1251	1125 x 60 x 130	1250
07.861.1301	1375 x 60 x 130	1500
07.861.1751	1625 x 60 x 130	1750
07.861.1801	1875 x 60 x 130	2000

Various mounting options

- Mounting laterally on the support column
- Mounting under the worktop
- Mounting between the support columns

New

Energy duct

- 45° inclination
- For mounting on the workbench
- Fuses see page 283
- Unwired
- The width of the individual cover plates added together equals the width of the energy duct

Item no.	Dimensions in mm (WxDxH)
07.861.1005	1000 x 150 x 150
07.861.1255	1250 x 150 x 150
07.861.1505	1500 x 150 x 150
07.861.2005	2000 x 150 x 150

Energy duct mounting bracket for mounting in front of the support columns

- Mounting brackets for mounting energy duct in front of support columns (pair)

Item no.	Version in mm
07.861.03	1000 / 1500
07.861.03-1	625 / 2000

Energy duct mounting bracket for mounting on the worktop

- Mounting brackets for direct mounting on worktop (pair)

Item no.	Dimensions in mm (WxDxH)
03.861.04	60 x 52 x 110

Energy duct mounting bracket for mounting between the support columns

- Mounting brackets for mounting energy duct between support columns (pair)

Item no.	Dimensions in mm (WxDxH)
07.861.01-1	33 x 38 x 117

Cover plate and network socket

- Cover plate incl. RJ45 socket

Item no.	Dimensions in mm (WxH)
07.861.19	125 x 125

Cover plate and toggle switch

- Cover plate incl. toggle switch

Item no.	Dimensions in mm (WxH)
07.861.10	125 x 125

Cover plate and CEE socket

- Cover plate incl. CEE socket

Item no.	Dimensions in mm (WxH)
07.861.12	16 A - 250 x 125
07.861.32	32 A - 250 x 125

Cover plate and emergency stop

- Cover plate incl. emergency stop button

Item no.	Dimensions in mm (WxH)
07.861.09	125 x 125

Cover plate and earthed socket

- Cover plate incl. earthed socket

Item no.	Dimensions in mm (WxH)
07.861.11	125 x 125

Cover plate and compressed air

- Cover plate incl. compressed air connection

Item no.	Dimensions in mm (WxH)
07.861.07	1 / 4" - 125 x 125
07.861.08	1 / 2" - 125 x 125

Multi-board

Energy duct accessories

Cover plate for the energy duct

Item no.	Dimensions in mm (WxH)
07.861.04	125 x 125
07.861.05	250 x 125
07.861.06	375 x 125

Cover plate and socket panel

- Cover plate incl. socket panel with 2x earthed socket

Item no.	Dimensions in mm (WxH)
07.861.21	250 x 125

Cover plate and socket panel

- Cover plate incl. socket panel with 2x earthed socket

Item no.	Dimensions in mm (WxH)
07.861.14	375 x 125

Cover plate and socket panel

- Cover plate incl. socket panel with 3x earthed sockets with on/off switch

Item no.	Dimensions in mm (WxH)
07.861.15	375 x 125

Cover plate and socket panel

- Cover plate incl. socket panel with 4x earthed socket

Item no.	Dimensions in mm (WxH)
07.861.16	375 x 125

New

USB port

- Cover plate incl. earthed socket, USB A and USB C port

Item no.	Dimensions in mm (WxH)
07.861.26	125 x 125

New

USB port

- Cover plate incl. USB A and USB C port

Item no.	Dimensions in mm (WxH)
07.861.33	125 x 125

Cover plate for fuses

- Cover plate incl. pre-lasered cutouts for fuses

Item no.	Dimensions in mm (WxH)
07.861.13	375 x 125

Cover plate for fuse size 1

- Cover plate incl. pre-lasered cutouts for fuse

Item no.	Dimensions in mm (WxH)
07.861.27	125 x 125

Cover plate for fuse size 2

- Cover plate incl. pre-lasered cutouts for fuses

Item no.	Dimensions in mm (WxH)
07.861.28	125 x 125

Cover plate for fuse size 3

- Cover plate incl. pre-lasered cutouts for fuses

Item no.	Dimensions in mm (WxH)
07.861.29	125 x 125

Cover plate for fuse size 4

- Cover plate incl. pre-lasered cutouts for fuses

Item no.	Dimensions in mm (WxH)
07.861.30	125 x 125

Installation contactor 20 A

- Size 1
- 230 V
- For earthed sockets

Item no.
03.74.16

Installation contactor 20 A

- Size 2
- 400 V
- For CEE sockets

Item no.
03.74.17

Circuit breaker B

- Size 1
- 1-pole 16 A
- 230 V
- For earthed sockets

Item no.
03.74.18

Circuit breaker C

- Size 3
- 3-pole 16 A
- 440 V
- For CEE sockets

Item no.
03.74.19

Earth leakage circuit breaker 25 A

- Size 2
- 230 V
- For earthed sockets

Item no.
03.74.20

Earth leakage circuit breaker 25 A

- Size 4
- 400 V
- For CEE sockets

Item no.
03.74.21

Multi-board

Multi-board accessories

Advantages of technical optimisation:

- Clean look
- Support column clearance minimised
- Ease of movement of the pivots can be adjusted with a screw (cannot be fully locked)
- Noise minimisation
- Withstands higher torsional moment
- Can also be mounted on superstructure stand with additional bracket

Standard pivot arm bracket | Worktop

- For attachment to the worktop

Item no.	Version
07.98.01	For 40 x 40 x 2 mm pivot arm

Pivot arm

- Dimensions in mm (WxDxH) 40 x 40 x 2 square tube
- Axle diameter 25 mm
- Load capacity 30 kg
- 4x plain bearing

Item no.	Dimensions in mm (WxDxH)
07.98.SA	332 x 40 x 40

Standard pivot arm bracket | Support column

- For lateral mounting at support column
- For holding the pivot arm

Item no.	Version
07.98.02	For 40 x 40 x 2 mm pivot arm

Please note:

Pivot arm bracket is mandatory

Pivot arm with depositing tray

Item no.	Dimensions in mm (WxDxH)
07.98.04	400 x 300 x 48

Pivot arm with inclinable tray

Item no.	Dimensions in mm (WxDxH)
07.98.13	450 x 350 x 40

Please note:

Pivot arm bracket is mandatory

Pivot arm with pivot frame and shelves

- With 2x inclinable shelf

Item no.	Dimensions in mm (WxDxH)
07.98.03	680 x 287 x 400

Pivot arm with document holder A4

- With raised lateral and bottom edge

Item no.	Dimensions in mm (WxDxH)
07.98.05	215 x 370 x 330

Pivot arm with document holder A4

- With raised bottom edge

Item no.	Dimensions in mm (WxDxH)
07.98.06	310 x 156 x 310

Pivot arm with monitor bracket

- VESA 75 / 100 mm

Item no.	Dimensions in mm (WxDxH)
07.98.07	700 x 370 x 320

Pivot arm with monitor bracket and inclined keyboard platform

- VESA 75 / 100 mm
- Platform made of sheet steel

Item no.	Dimensions in mm (WxDxH)
07.98.15	700 x 370 x 320

Pivot arm with monitor bracket and keyboard platform

- VESA 75 / 100 mm
- Beech multiplex shelf, 15 mm

Item no.	Dimensions in mm (WxDxH)
07.98.08	700 x 355 x 322

Multi-board

Multi-board accessories

Please note:

Pivot arm bracket is mandatory

Pivot arm with perforated/slotted wall

- For hooks and small parts boxes
- 1st side with slotted wall | 2nd side with perforated wall

Item no.	Dimensions in mm (WxDxH)
07.98.10	655 x 45 x 500

Application example

Open fronted storage bins

- 15 pieces

Item no.	Dimensions in mm (WxDxH)	Preis in €
07.45.26	–	43,91

Pivot arm with perforated walls

- Perforated walls on both sides

Item no.	Dimensions in mm (WxDxH)
07.98.09	680 x 60 x 350

Pivot arm with shelf and ribbed rubber mat

Item no.	Dimensions in mm (WxDxH)
07.98.11	420 x 300 x 20

Pivot arm with shelf

- Beech multiplex 25 mm

Item no.	Dimensions in mm (WxDxH)
07.98.12	600 x 350

Pivot arm with shelf

- Beech multiplex 25 mm
- Tiltable

Item no.	Dimensions in mm (WxDxH)
07.98.14	400 x 182 x 100

Keyboard drawer underneath shelf

- For 320 und 420 mm deep shelves

Item no.	Dimensions in mm (WxDxH)
PTTAAUFB320	598 x 300 x 95

Tablet wall mount with pivot arm

- Universal and flexible applicable
- Optimum viewing distance thanks to individual table screen positioning
- Inclination range holder: -6° to +46°; rotatable: 180°
- Colour: silver metallic

Item no.	Dimensions in mm (WxDxH)	Mounting
07.8934LW	95 x 225 x 170	Perforated wall
07.8934TR		Support column

Roller shutter cabinet

- For hanging between the support columns
- Incl. 2x perforated wall

Item no.	Dimensions in mm (WxDxH)
03.990.01.14	910 x 220 x 820

Inclined support for bins

- For lateral mounting at support column
- Includes 6 bins, size 2

Item no.	Dimensions in mm (WxDxH)
07.89.37	350 x 110 x 82

Info bag, DIN A4

- For lateral mounting at support column

Item no.	Dimensions in mm (WxDxH)
07.89.15	216 x 35 x 333

Folder holder for support column

- For mounting on the support column

Item no.	Dimensions in mm (WxDxH)
03.900.40	120 x 300 x 340

Composition of the pivot frame for attachment to the multi-board

i Pivot frames can be use from a table width of 1250 mm

Support column 30 x 60 mm

- 1x support column right and 1 x support column left is required for mounting a stiffening crossbar
- Three support columns are required for installation on 2 m work surfaces (2 x left and 1 x right support column)
- Reinforced by U-profile tube
- Suitable for mounting an work surfaces from 40 mm height
- Thinner plate thicknesses on request

Item no.	Height in mm
03.935.125.240	1250 left
03.935.125.140	1250 right

Stiffening crossbar

- Mandatory when using a pivot frame

Item no.	Width in mm
03.935TR075	750
03.935TR100	1000
03.935TR125	1250
03.935TR150	1500
03.935TR175	1750
03.935TR200D	2000
03.935TR200	Consists of 2 x 950 mm corssbars (for two seperated 2000 mm Multi-boards)

Further add-on parts such as shelves, magnetic panels or energy bars can be found from page 278 onwards.

Is attached to the left or right side of the support column with 2 x hinges. Swivelling through hinges.

Pivot frame combination

- 1 x perforated wall
- 2 x shelf 220 mm depth, adjustable incline
- 4 x adapter strips

Item no.	Dimensions in mm (WxDxH)
07.98.7071	700 x 700 x 40

Pivot frame combination

- 2 x Aluminium brace
- 3 x Assembly swift 200 x 200 x 25 mm
- 1 x Assembly swift 400 x 200 x 25 mm
- Assembly swift can be installed straight or inclined

Item no.	Dimensions in mm (WxDxH)
07.98.7072	700 x 700 x 40

Pivot frame combination

- 1 x magnetic board
- 1 x perforated wall
- 4 x adapter strips
- 1 x assembly swift 400 x 200 x 25 mm
- Assembly swift can be installed straight or inclined

Item no.	Dimensions in mm (WxDxH)
07.98.7073	700 x 700 x 40

Pivot frame combination

- 1 x perforated wall
- 1 x shelf 220 mm depth, adjustable incline
- 4 x adapter strip
- 2 x Assembly swift 200 x 200 x 25 mm
- Assembly swift can be installed straight or inclined

Item no.	Dimensions in mm (WxDxH)
07.98.7074	700 x 700 x 40

Multi-Wand

New

Pivot frame attached to the support column, individual equipment

Attaches to the left or right side of the support column
Swivelling through hinges

Pivot frame

- Attaches to the left or right side of the support column with 2 x hinges
- Swivelling through hinges
- Regular multi-board accessories can be attached using adapter strips

Item no.	Dimensions in mm (WxDxH)
07.98.7070	700 x 700 x 40

Aluminium brace

- Attaches to the inside of the pivot frame

Item no.	Dimensions in mm (WxDxH)
07.98.7080-1	620 x 40 x 40

Adapter strip with screw joint

- 2 pieces
- Attaches to the aluminium profile
- Adapts regular multi-board accessories to the aluminium profile
- Required for perforated walls, magnetic boards and shelves

Item no.	Dimensions in mm (WxDxH)
07.98.7069	44,5 x 50 x 300

Magnetic board Requires adapter strip

Item no.	Dimensions in mm (WxDxH)
03.983.07SR	700 x 20 x 302

Shelf

Requires adapter strip

- Adjustable in inclination and height
- Inclination 0°, 10° und 20°, incl. roll-off edge

Item no.	Dimensions in mm (WxDxH)
03.907.220SR	700 x 220 x 20w

Perforated wall Requires adapter strip

- Grid 10x10 mm, 38 mm spacing

Item no.	Dimensions in mm (WxDxH)
03.983.101SR	700 x 20 x 302

Swivel frame for mounting on the worktop
Swivelling due to swivel arm

Pivot frame, for mounting on the worktop, swivelling

- Incl. swivel arm and swivel arm holder
- Regular multi-board accessories can be attached using adapter strips s. page kann 295

Item no.	Dimensions in mm (WxDxH)
07.98.8010	700 x 700 x 40

Pivot frame, for mounting on the worktop,

- Incl. swivel arm holder
- Regular multi-board accessories can be attached using adapter strips s. page kann 295

Item no.	Dimensions in mm (WxDxH)
07.98.8020	700 x 700 x 40

Pivot frame combination, for mounting on the worktop, swivelling

- Incl. swivel arm and swivel arm holder
- 1 x magnetic board
- 1 x perforated wall
- 4 x adapter strip
- 1 x assembly swift 400 x 200 x 25 mm
- Assembly swift can be installed straight or inclined

Item no.	Dimensions in mm (WxDxH)
07.98.8011	700 x 700 x 40

Pivot frame, for mounting on the worktop,

- Incl. swivel arm holder
- 3 x shelf 220 mm depth, adjustable incline
- 4 x adapter strip

Item no.	Dimensions in mm (WxDxH)
07.98.8021	700 x 700 x 40

Multi-Wand

Aluminium brace

New

Composition of the aluminium brace for attachment to the multi-board

Support column 30 x 60 mm

- 1x support column right and 1 x support column left is required for mounting a stiffening crossbar
- Three support columns are required for installation on 2 m work surfaces (2 x left and 1 x right support column)
- Reinforced by U-profile tube
- Suitable for mounting an work surfaces from 40 mm height
- Thinner plate thicknesses on request

Item no.	Height in mm
03.935.125.240	1250 left
03.935.125.140	1250 right

Aluminium brace

- For suspension on support column
- Assembly swifts can be hooked onto the aluminium profile strut. eingehängt werden
- Incl. 2 x adapter strip
- 40 kg carrying capacity

Item no.	v)
07.98.7080	700 x 40 x 40
07.98.7081	1000 x 40 x 40
07.98.7082	1250 x 40 x 40
07.98.7083	1500 x 40 x 40
07.98.7084	1750 x 40 x 40
07.98.7085	For width 2000 mm, consists of 2 x Aluminium brace 1000 x 40 x 40

Assembly swift

- Plug-in system for aluminium profiles
- Quick and flexible attachment in the groove of the aluminium profiles
- Easy handling
- Versatile workplace design
- Quick and easy to stow away after use
- 12 kg load capacity

Assembly swift 2 level

- Is hooked into the groove of the aluminium profile
- 0° horizontal (upper hook)
- 20° inclined (lower hook)
- Ideal for tool inlets, ribbed rubber or as a holder for plastic boxes, screws and small assembly parts

Item no.	Dimensions in mm (WxDxH)
07.98.7090	200 x 200 x 25

New

Assembly swift 2 level with handle

- Is hooked into the groove of the aluminium profile
- 0° horizontal (upper hook)
- 20° inclined (lower hook)
- Ideal for tool inlets, ribbed rubber or as a holder for plastic boxes, screws and small assembly parts
- Matching tool inlets can be found on page 472/473

Item no.	Dimensions in mm (WxDxH)
07.98.7091	400 x 200 x 25

The Assembly swift is perfect for storing inlets or tools in a drawer and hooking them into the aluminium profile strut for easy access when needed.

Multi-board

Tablet stands

- Variable for holding all tablet sizes from 7" to 13"
- Symmetrical opening of the stands
- Easy insertion and removal of the tablet
- Rotatable: 360° for portrait and landscape format – with locking points every 90°
- Anti-theft protection, effective protection against the lateral removal of the tablet
- Cable management, opening in the stand serves as a duct for the tablet charging cable

Anti-theft protection

Tablet table stand

- Aluminium, steel and high-quality plastics
- Elegant and clear lines with a fine matt-finished surface
- Has stepless angle variability from 0° to 88°
- Additional anti-theft protection thanks to cable lock
nicht im Lieferumfang enthalten
- Colour: Silver metallic

Item no.	Dimensions in mm (WxDxH)
07.8930	155 x 183 x 242

Tablet wall mount

- Secure and flat mounting at walls/multi-walls
- Universally and flexibly applicable
- Simple assembly
- Colour: Silver metallic

Item no.	Dimensions in mm (WxDxH)
07.8933	85 x 180 x 50

Tablet table stand with pivot arm

- Optimum viewing distance thanks to individual tablet screen positioning
- Table column height: 295 mm
- Inclination range holder: -6° to +46°; rotatable: 180°
- Arm radius: 365 mm; swivelling: 180°
- Table clamp dimensions: tabletop thicknesses up to 40 mm
- Colour: Silver metallic

Item no.	Dimensions in mm (WxDxH)
07.8931	100 x 210 x 440

Tablet wall mount with pivot arm

- Universal and flexible applicable
- Optimum viewing distance thanks to individual table screen positioning
- Inclination range holder: -6° to +46°; rotatable: 180°
- Colour: silver metallic

Item no.	Dimensions in mm (WxDxH)	Mounting
07.8934LW	95 x 170 x 225	Perforated wall
07.8934TR		Support column

Container carrier 1000 mm

- Mounting between two support columns
- Including open fronted storage bins

Item no.	open fronted storage bins in mm	Piece
03.900.012	Size 2: 100 x 170 / 140 x 80	8
03.900.013	Size 3: 145 x 230 / 195 x 125	6
03.900.015	Size 5: 200 x 350 / 300 x 200	4

Container carrier 1000 mm

- Mounting between two support columns
- Including open fronted storage bins

Item no.	Dimensions in mm (WxDxH)	Piece
07.89.19	145 x 230 x 125	6
07.89.53	100 x 170 x 80	8

Container carrier 1250 mm

- Mounting between two support columns
- Including open fronted storage bins

Item no.	Dimensions in mm (WxDxH)	Piece
07.89/125.24	145 x 230 x 125	7
07.89/125.23	100 x 170 x 80	11

Container carrier 1500 mm

- Mounting between two support columns
- Including open fronted storage bins

Item no.	Dimensions in mm (WxDxH)	Piece
07.89.24	145 x 230 x 125	9
07.89.23	100 x 170 x 80	13

Rail for open fronted storage bins on perforated wall

Item no.	Length in mm
03.900.06	300
03.900.05	450

Rail for open fronted storage bins between support columns

Item no.	Length in mm
07.89BTR10-0	1000
07.89BTR12-0	1250
07.89BTR15-0	1500

Open fronted storage bins

- Made of polypropylene (lids on request)

Item no.	Dimensions in mm (WxDxH)
03.900.001	100 x 95 / 65 x 50
03.900.002	100 x 175 / 140 x 75
03.900.003	145 x 235 / 195 x 125

New

Application example

Document holder for rail between support columns

- 1 x A4 document holder
- Can be mounted on rail for open fronted storage bins

Item no.	Dimensions in mm (WxDxH)
03.900.38	216 x 21 x 312

Workbench accessories

Workplace lighting

LIGHTING

Ideal illumination and improved field of vision guaranteed

Work and sight are inextricably linked in most occupations. Particular attention must therefore be paid to light at the workplace. With its high-quality work lights, Bedrunka+Hirth guarantees ideal illumination, improved visual comfort and the implementation of or compliance with workplace guidelines with regard to lighting assistance in the workplace environment.

80% of all sensory impressions experienced during a working day are perceived by sight. Poor visual conditions can have a negative impact on our entire body. Discomfort, headaches, irritated eyes and other symptoms of illness increase markedly. This is of particular significance at the workplace.

Of crucial importance are the requirements that need to be met directly at the job site. These requirements are so varied that a single appropriate, generally applicable workplace lighting system is not possible. Rather, the individual features of the respective work process provide the parameters for optimal light.

LIGHTING AND PERFORMANCE AT WORK

DIN EN 12464-1 deals with the requirements for lighting in indoor workplaces. The aim is to achieve optimum visual performance and comfort for people with normal vision so that individual visual tasks can be performed in the best possible way. Depending on the complexity of the tasks, significant improvements in performance can be achieved by using the correct illuminance. At the same time, compliance with this guideline prevents health impairments.

Examples of recommended illuminance levels:

Illuminance	Scope of application
500 lx	Testing and measuring workstations
500 lx	Computer workstations
1.000 lx	Fixture and jig construction
1.000 lx	Micromechanics
1.000 lx	Final inspection
1.000 lx	Color inspection
1.000 lx	Quality control
1.500 lx	Electronics workshop

Universal LED workplace lamp**Universal basic**

- Microprismatic optics
- Uniform illumination
- Suitable for reflective surfaces

Universal power:

- LED optics 3-row
- High illuminance
- High energy efficiency

Premium LED workplace lamp**Premium basic-line:**

- Microprismatic optics
- Uniform illumination
- Suitable for reflective surfaces

Premium eco-line/power-line:

- Parabolic louvre
- Outstanding glare control UGR<19
- High illuminance

Intelligente LED workplace lamp**Premium Sense DIM**

- Integrated brightness and motion sensor
- Automatic brightness control and on/off switching
- Programming via pushbutton

Premium Sense Remote DIM:

- Integrated brightness and motion sensor
- Automatic brightness control and on/off switching
- Programming via IR remote control

Premium LED workplace lamp, tunable white and dimmable**Premium TW DIM**

- Color temperature and dimmability controllable via push button
- Light colors continuously adjustable from 2700 K to 6500 K

Premium TW App connect DIM:

- Color temperature and dimmability controllable via app
- Light colors programmable and reproducible from 2700 K to 6500 K
- Create different light scenes
- Network and control up to 64 luminaires

LED testing workplace lamp VDA**LED test workplace lamp VDA 16**

- Brightness control via touch dimmer
- Light colors 6500 k and 4000 k alternating
- Color rendering > RA90
- Average illuminance > 2300 lux

**Cros-linkable test workplace lamp VDA 16**

- Brightness control via app or remote control
- Light colors 6500 k and 4000 k alternating
- Light scenes programmable and reproducible
- Color rendering > RA90
- Average illuminance > 2300 lux
- Network and control up to 64 luminaires

Workbench accessories

Lighting

New

Universal LED workplace lamp basic

- Colorless anodized aluminum housing
- Integrated on/off switch
- Color rendering Ra > 80
- UGR < 22
- Dimmable upon request
- Life time L80/B10 at 50.000h
- Color temperature 5.000 K

Included in delivery:

- 1x mounting kit, standard
- 4 m connection cable

Universal LED workplace lamp power

- Colorless anodized aluminum housing
- Integrated on/off switch
- Color rendering Ra > 85
- UGR < 19
- Dimmable upon request
- Life time L80/B10 at 50.000h
- Color temperature 5.000 K

Included in delivery:

- 1x mounting kit, stanard
- 4 m connection cable

LED Microprismatic optics

Universal 600 | basic

- System output approx. 19,9 W
- Luminaire luminous flux approx. 1911 lm
- Average illuminance 859 lx*

Item no.	Dimensions in (WxDxH)

- System output approx. 46,8 W
- Luminaire luminous flux approx. 4778 lm
- Average illuminance 1533 lx*

Item no.	Dimensions in (WxDxH)
03L15M50B	1440 x 70 x 80

Universal 1500 | power

- System output approx. 26,5 W
- Luminaire luminous flux approx. 4047 lm
- Average illuminance 1728 lx*

Item no.	Dimensions in (WxDxH)
03L15O350P	1440 x 70 x 80

Premium LED workplace lamp basic-line e

Anodised aluminium housing, natural colour

- Three-part light control system incl. microprismatic disc
- Integrated on/off switch and device connector plug for connection to mains voltage
- Additionally with internal feed-through wiring 3 x 1.5 mm² and an integrated connection socket for connecting a further lamp.
- Colour rendering Ra > 80
- UGR < 22
- Colour temperature 5000 K
- Service life: 50,000 hours (L80/B10)

Scope of delivery:

- 1x 4 m connection cable with earthed plug and
- 1x mounting kit, standard

**LED workplace lamp basic line e****LED workplace lamp | 600**

03L11R2765DT		switch

Test workstations according to standard VDA 16

Our ergonomic solutions to support your testing and evaluation processes of decorative surfaces.

Often the quality of a surface cannot be measured, but only assessed subjectively. This appearance-dependent assessment requires, on the one hand, optimum illumination of the test parts and, on the other hand, shielding of the test parts from changing and disturbing extraneous light influences in order to guarantee the reproducibility of the test process.

The German Association of the Automotive Industry (VDA) has published a uniform standard for quality assurance in Volume 16. The guideline, known as VDA 16 for short, is primarily aimed at suppliers and customers who deal with decorative surfaces in the visible area, regulates the underlying test conditions and thus enables a universal and uniform assessment basis across manufacturers. It provides clarity and bindingness with regard to the characteristics of appearance-dependent surfaces and their description.

Our ergonomic test workplaces meet all the requirements of VDA 16 with regard to shielding, illuminance, light colours and colour rendering index. These are in detail:

- Illuminance at least 1000 Lux at the test object
- Color temperature 4000 K and 6500 K
- Color rendering RA >90

In addition, the illumination can be individually adapted to the material and surface by dimming the individual light colours. Several modules can be defined as a group, mounted as a row and controlled together. Light scenes can be programmed, saved and reproducibly recalled without limitation at part level. In addition to a remote control, we offer the option of being able to control the VDA 16 module luminaire via free app control with a smartphone or tablet.

Our test workstations provide you with sustainable support in implementing the required test conditions. The ergonomically and lighting-specific well thought-out design enables you to meet the demanding requirements of the future and to be prepared for the future.

New

LED test workplace lamp VDA 16

- Colorless anodized aluminum housing
- Brightness stepless adjustable
- Life time L80/B10 bei 50.000h
- Direct illumination
- Color reproduction Ra >90
- UGR <22 system output approx. 74 W
- Also available with color temperature 4.000 - 6.500 -4.000

Included in delivery:

- 1 x mounting kit, standard
- 4 m connection cable with Schuko plug

**LED test workplace lamp VDA 16 | 600**

- Luminaire luminous flux approx. 6.586 lm
- Average illuminance 2386 lx*

Item no.	Dimensions in (WxDxH)	Color temperature
03LVDA3-0600	582 x 210 x 80	6.500 - 4.000 - 6.500

LED-test workplace lamp VDA 16 | 900

- Luminaire luminous flux approx. 9.879 lm
- Average illuminance 3448 lx*

Item no.	Dimensions in (WxDxH)	Color temperature
03LVDA3-0900	868 x 210 x 80	6.500 - 4.000 - 6.500

LED-test workplace lamp VDA 16 | 1200

- Luminaire luminous flux approx. 13.173 lm
- Average illuminance 3971 lx*

Item no.	Dimensions in (WxDxH)	Color temperature
03LVDA3-1200	1154 x 210 x 80	6.500 - 4.000 - 6.500

03FBDIM

Test station with beech multiplex worktop 25 mm

- worktop: 1170/1420 x 800 x 25 mm
- Load capacity 350 kg
- Incl. lighting

Item no.	Dimensions in mm (WxDxH)
03PPBM125	1250 x 840 x 1950
03PPBM150	1500 x 840 x 1950

Example of the use of the test workplace lamp in a test station.

Satellite workplace lamps

- Anodised aluminium housing, natural colour
- Integrated on/off switch and device connector plug for connection to mains voltage
- For mounting on a vertical profile
- Colour temperature 5000 K
- Service life: 50,000 hours (L80/B10)

Scope of delivery:

- Mounting bracket for installation on commercially available profile systems
- 1x 4 m connection cable with earthed plug and 1x mounting kit, standard

Satellite workplace lamp | basic-line

- Three-part light control system incl. microprismatic disc
- UGR < 22
- System output 10 W
- Luminous flux approx. 925 lm
- Colour rendering Ra > 80

Item no.	Length in mm
03L43SATML	430 mm Left version
03L43SATMR	430 mm Right version

Satellite workplace lamp | eco-line

- Three-part light control system incl. parabolic louvre
- UGR < 19
- System output 10 W
- Luminous flux approx. 837 lm
- Colour rendering Ra > 80

Item no.	Length in mm
03L43SATRL	430 mm Left version
03L43SATRR	430 mm Right version

*Measurement conditions: Height: 1000 mm; Measuring surface: 1000 x 555 mm

LED-RLL Flex magnifier lamp

- Magnifier lamp incl. screw-on flange

Item no.	Version
03.960.54	3 dioptr
03.960.55	5 dioptr

Table clamp for screw-on flange 60 mm

- For LED all-round workplace lamp and LED-RLL Flex magnifier lamp
- Colour: Silver

Item no.
03.960.52

COOL FLEX LED

- LED flex arm lamp with 14 W TC 11 W/900 lm
- LED engine integrated in lamp base
- Colour temperature 5000 K, CRI > 80
- Dimmable in the range of 25 – 100 % via rotary knob
- Mounting: Screw-on base 70 x 70 mm (integrated)
- Colour: Silver/Black
- Fully flexible
- Robust metal hose with shrink sleeve coating

Item no.	Version
03L61490	Flex arm 500, lighting unit 295

LED-Flex 3

- 3x high-power LED
- Brilliant white
- High vibration and shock resistance
- Fully flexible
- Robust metal hose 300 mm
- Handle on head
- Colour: Black

Item no.	Version
03.960.46	Flex arm 520, lighting unit Ø 75

Table clamp for screw-on flange 40 mm

- For Cool-Flex LED and LED-Flex 3
- Colour: Black

Item no.
03.960.90

*Measurement conditions: Height: 1000 mm; Measuring surface: 1000 x 555 mm

Perforated wall system: The right hook for every tool. The hooks can be easily hung and clicked into the required perforation. Nothing wobbles and the hooks remain in place.

Please also specify the desired colour.

Delivered in our standard colours without extra charge.

If no colour is specified, we will supply RAL 7035 light grey. Standard colours see page 27

- Clearly arranged and space-saving storage of tools, small parts and working materials
- Powder coated
- Reinforced by beams

Perforated wall

- Steel plate, square perforation, 10 x 10 mm
- Bevelled all-round
- Stiffened with strong beams for maximum loads
- Easy wall mounting
- Spacing 38 x 38 mm

Item no.	Dimensions in mm
03.87.101-1	500 x 15 x 450
03.87.102-1	1000 x 15 x 450
03.87.103-1	1500 x 15 x 450
03.87.104-1	2000 x 15 x 450

Quickly connects the hooks to the perforated wall without the use of tools.

Workbench bracket

Recommendation for

- 1000 mm - 2 brackets
- 1500 mm - 3 brackets
- 2000 mm - 3 brackets

workraster Accessories

Page 328

workraster - the structured one

The **workraster** is the "entry-level model" among our ergonomic workplace systems. Thanks to a structured grid arrangement of 38 mm, the work bench can be individually set to your required height and is therefore suitable for both sitting and standing activities. In particular due to the linkage with roller and small roller conveyors, this system is ideal for a smooth production flow. Thanks to its remarkable flexibility in terms of form, additional modules can be added to the basic work benches at any time. Double-sided workstations are also no problem. With a load capacity of 300 kg with an even load, it is ideal for the assembly of small to medium-sized parts.

i Please note that workraster tables are delivered unassembled. Easy self-assembly!

Our features at a glance	
Basic module models	Single or double for double-sided workplace design
Modular system	Basic modules are connected to each other by means of cross-members - no need for add-on modules
Retrofittable	Extension of existing workstations, inline and corner combinations possible
Energy	Direct supply of lighting, energy, compressed air
Frame widths	1000, 1500 mm
Frame depths	500, 800, 960, 1460 mm
Frame heights	1348, 2070 mm
Work height without worktop	715 – 1057 mm with adjustable support Recommended: 829 mm
Height adjustment	Height grid arrangement of 38 mm
Frame design	L-foot
Load capacity	300 kg with even load

Grid adjustment

The linkage concept optimises productivity thanks to the arrangement of workstations according to the work sequence

Production - Assembly - Inspection - Packaging. Intermediate transport is avoided, distances are reduced and the working cycle is increased.

The workraster system is among the most efficient systems on the market. Due to the use of standard modules, workstations are interlinked, thus optimising the production flow.

All modules are height-adjustable!

Transport path

The workpiece carriers are transported on the roller conveyors. The path is created by a string of modules.

Linking workstations

The assembly line starts with a basic table with a roller or small roller conveyor. The consecutive conveyors are supplemented by add-on tables or interim connections (labelled as ZM). A basic table with a roller ball or small roller conveyor follows each roller ball/intersecting bridge.

Linking

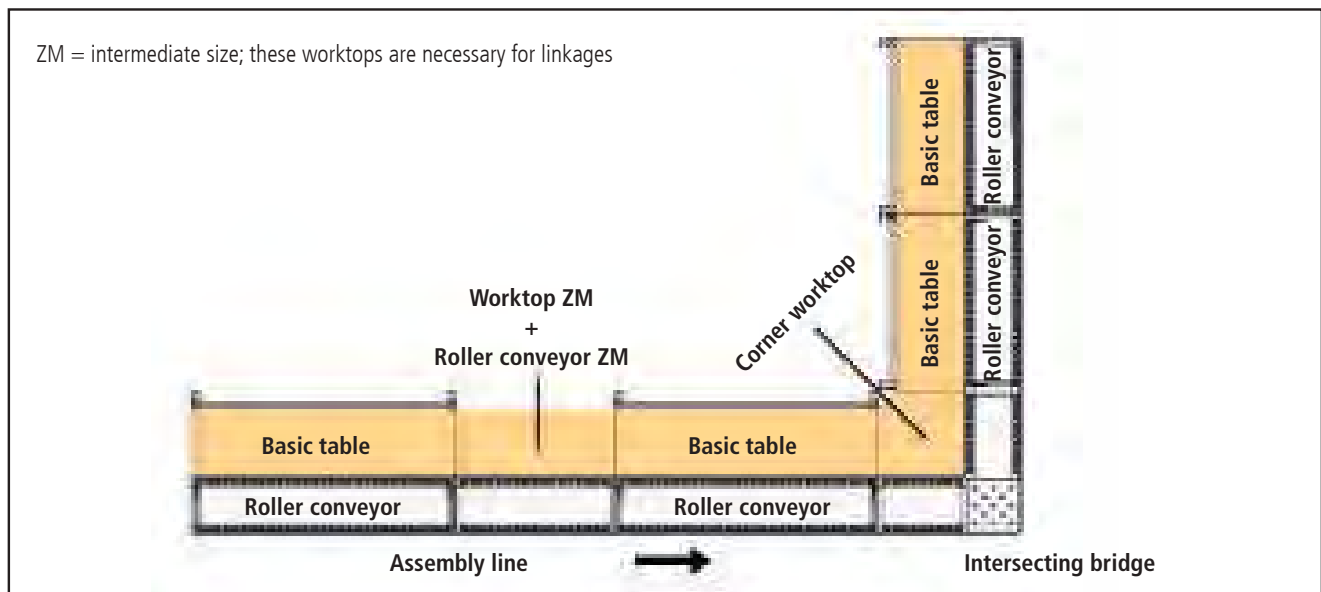

The workstations are connected using connection, linear or corner modules. Module lengths: 1000 and 1500 mm.

Workstations

The workstations are generally basic tables. With **workline**, they can either feature a roller ball board (for directly passing on the workpiece) or a worktop. With **workraster**, the worktop is combined with the conveyor.

Change of direction

The direction of the workpiece carriers is changed by means of roller ball/intersecting bridge.

Cross combination

Cross combination

The basic modules are arranged according to the intended application. The various components can be individually combined, linked and arranged in a simple modular system. Working height and handling areas are adapted on site.

Assembly line

Arrangement variant Double basic module

Corner combination

Shelves, adjustable incline

The shelves have a raised edge and are simply suspended in the perforated holes in the support columns. Their height and incline can be adjusted. Incline: 0°, 10°, 20°.

Hanging drawer

Lockable drawer with front height of 100 mm. It is secured under the worktop.

Module arrangement

PC support A

Is screwed onto the support column of the **workraster** basic module from the inside or outside. Special bracket on the base frame for Construction.

Combinations from practice

- Figure: RAL 5013 Cobalt blue/RAL 7035 Light grey
- Height grid arrangement of 38 mm, individually height-adjustable, therefore ideal for standing and sitting activities
- Modular system: Diverse combination options, including for retrofitting
- The load capacity of the individual basic modules is up to 300 kg with an even load
- Load capacity of the drawer 35 kg
- Direct supply of lighting; electricity and compressed air supplied via energy ducts
- Beech multiplex worktop, 1500 x 750 x 25 mm

workraster with multi-board setup

- 1x overhead frame

Basic modules for individual arrangement

Single-sided basic module

- 2x base frame each
- Support columns
- Cross-members, junction plates, supports and worktop carriers
- For worktops with 750 mm depth

Item no.	Dimensions in mm (WxDxH)
07.8410.811	1000 x 800 x 1348
07.8410.821	1000 x 800 x 2070
07.8415.811	1500 x 800 x 1348
07.8415.821	1500 x 800 x 2070

Single-sided basic module, short

- 2x base frame each
- Support columns
- Cross-members, junction plates, supports and worktop carriers
- For worktops with 600 mm depth

Item no.	Dimensions in mm (WxDxH)
07.8410.511	1000 x 550 x 1348
07.8410.521	1000 x 550 x 2070

workergo workplace systems

workergo - the versatile one

The **workergo** is the most versatile workplace systems. Six different frame widths, two different frame depths and four different types of height adjustment make the workergo C-foot a versatile worktable.

- Standard colours: RAL 7035 Light grey/RAL 5012 Light blue
- Base frame made of 45 x 45 mm steel tube
- Cross-members made of 40 x 40 mm aluminium sections

 Please note that workergo tables are delivered unassembled. Easy self-assembly!

Our features at a glance	
Modular system	Freely selectable combinations from frame to worktop
Retrofittable	Multi-board setup and optional accessories
Energy	Direct supply of lighting, energy, compressed air
Frame widths	750, 1000, 1250, 1500, 1750 and 2000 mm
Frame depths	600, 750 mm
Travel speed	12 mm/s
Work height without worktop	670 – 1015 mm Vertical travel: 345 mm
Height adjustment	Four different types: Clamp fixing, crank adjustment, electric height adjustment with 1 motor, electric height adjustment with 2 motors
Frame design	C-foot
Load capacity	180-300 kg with uniform load depending on height adjustment

Basic table

HEIGHT ADJUSTMENT:

Clamp fixing

Crank adjustment

Electric height adjustment,
1 motor

Electric height adjustment,
2 motors

C-foot linkage variants

Cascading

- Cascading is required to adjust the height of several tables synchronously
- Linking up to 5 basic tables

Item no.	Description
4CKAS1-2	Y-connector for cascading 2 basic tables
4CKAS3-6	Lifting element for cascading 3 to 5 basic tables
4CKASVERB	Connecting element absolutely necessary for each individual basic table

Linkage consisting of two basic tables with multi-board setup and corner panel

C-foot linkage variants

Linkage consisting of two basic tables and two multi-board setups

Individual cover panel labelling on request

Available in new widths

Cover panels are included as standard with C-foot

- For lateral mounting between the table legs

CLAMP FIXING - STANDARD

4-foot tables

4-foot basic frame

New
Now even faster
and quieter!

workergo workplace systems

workergo - the versatile one

The workergo is the most versatile workplace systems. Six different frame widths, three different frame depths and four different types of height adjustment make the workergo 4-foot a versatile work-table.

- Standard colours: RAL 7035 light grey/RAL 5012 light blue
- Base frame made of 45 x 45 mm steel tube
- Cross-members made of 40 x 40 mm aluminium sections

 Please note that workergo tables are delivered unassembled. Easy self-assembly!

Our features at a glance	
Modular system	Freely selectable combinations from frame to worktop
Retrofittable	Multi-board setup and optional accessories
Energy	Direct supply of lighting, energy, compressed air
Frame widths	750, 1000, 1250, 1500, 1750 and 2000 mm
Frame depths	600, 750, 900 mm
Travel speed	12 mm/s
Work height without worktop	670 – 1015 mm Vertical travel: 345 mm
Height adjustment	Four different types: Clamp fixing, crank adjustment, electric height adjustment with 1 motor, electric height adjustment with 2 motors
Frame design	4-foot
Load capacity	180-300 kg with uniform load depending on height adjustment

FRAME DESIGN:

4-foot

Basic table

HEIGHT ADJUSTMENT:

Clamp fixing

Crank adjustment

Electric height adjustment,
1 motor

Electric height adjustment,
2 motors

4-foot linkage variants

Corner combination with large corner panel comprising two basic tables. Multi-board setup not possible on the corner panel.

Inline combination with two basic tables. Multi-board setup possible on both tables.

Cascading

- Cascading is required to adjust the height of several tables synchronously
- Linking up to 5 basic tables

Item no.	Description
4CKAS1-2	Y-connector for cascading 2 basic tables
4CKAS3-6	Lifting element for cascading 3 to 5 basic tables
4CKASVERB	Connecting element absolutely necessary for each individual basic table

Ground anchorage

- For fixing the workbench to the floor
- 4 pieces

Item no.
03.00.34

workergo 4-foot - expander casters Ø 100 mm

Item no.	Description
4XXXXXMBL100	2 x fixed caster, 2 x steering caster with lock
4XXXXXMLL100	4 x steering caster, thereof 2 with locks

Linkage consisting of two basic tables with multi-board setup on both tables.

Corner combination with large corner panel comprising two basic tables. Multi-board setup not possible on the corner panel.

Available in new widths

-------	----------------

workline - the highest one

The **workline** worktable achieves a working height of 1100 mm thanks to its continuous height adjustment and is therefore also an optimal standing workplace. At the same time, its simple and functional design ensures an ergonomic seated workplace.

- Standard colours: RAL 7035 Light grey / RAL 5013 Cobalt blue
- Base frame made of 45 x 45 mm steel tube Cross-members made of 40 x 40 mm aluminium sections

i Please note that workline tables are delivered unassembled. Easy self-assembly!

Our features at a glance	
Modular system	Individual workstations can be quickly expanded to group workstations
Retrofittable	Wide range of accessories: Flexible design and conversion of the workplace
Energy	Direct supply of lighting, power, compressed air
Frame widths	1000, 1500 mm
Frame depth	750 mm
Travel speed	6.25 mm/s
Work height without worktop	735 – 1100 mm Vertical travel: 365 mm
Height adjustment	Three different types: Clamp fixing, crank adjustment, electric height adjustment
Frame design	A-foot
Load capacity	180-200 kg with uniform load depending on height adjustment

07.30.26	1500 x 350	Add-on table

workline basic table

- Beech multiplex worktop 25 mm
- 1x drawer block with 1x drawer, 100 mm, load capacity 20 kg
- 1x shelf, 3rd level beech multiplex (top)

Superstructure frame

- 1x superstructure frame for stand
- 1x stand with 2x earthed sockets and 1x halogen lamp

Item no.	Dimensions in mm (WxDxH)	Design
07.75.46	1500 x 750 x 735 – 1100	Clamp fixing
07.75.46KHV	1500 x 750 x 735 – 1100	Crank fixing

workline basic table

- Beech multiplex worktop 25 mm

Superstructure frame

- 1x superstructure frame for stand
- 1x stand with 2x earthed sockets and 1x halogen lamp

Item no.	Dimensions in mm (WxDxH)	Design
07.75.35	1500 x 750 x 735 – 1100	Clamp fixing
07.75.35KHV	1500 x 750 x 735 – 1100	Crank fixing

Superstructure frame below the worktop

Please note:

Mandatory for stand and pivot arms

Item no.	Dimensions in mm (WxDxH)
07.40.00	610 x 170 x 130
07.40.01	Surcharge power supply
07.40.02	Surcharge compressed air distributor

Stand

- For structures with 2x earthed sockets and 1x halogen lightning 35 W
- Total height 1130 mm

Item no.	Design
07.40.06	Standard
07.40.07	Surcharge for compressed air distributor

360° pivot arm inserts offer maximum flexibility for the work to be carried out.

Sockets, compressed air connections and a halogen lamp are integrated into the stand. This saves the space an additional energy bar would require.

Please note:

- The superstructure frame below the worktop is mandatory for pivot arms
- Load capacity 25 kg

Pivot arm with pivot frame and shelves

- 2x inclinable shelf

Item no.	Dimensions in mm (WxDxH)
07.98.03	680 x 287 x 400

Pivot arm with depositing tray

Item no.	Dimensions in mm (WxDxH)
07.98.04	400 x 300 x 48

Pivot arm with document holder A4 Portrait format

- With raised lateral and bottom edge

Item no.	Dimensions in mm (WxDxH)
07.98.05	215 x 370 x 330

Pivot arm with document holder A4 Landscape format

- With raised bottom edge

Item no.	Dimensions in mm (WxDxH)
07.98.06	310 x 156 x 310

Pivot arm with monitor bracket

- VESA 75 / 100 mm

Item no.	Dimensions in mm (WxDxH)
07.98.07	130 x 370 x 320

Pivot arm with monitor bracket and keyboard platform

- VESA 75 / 100 mm
- Beech multiplex shelf, 15 mm

Item no.	Dimensions in mm (WxDxH)
07.98.08	700 x 355 x 322

Linkage accessories

workline roller ball table

- Beech multiplex worktop 25 mm
- 2x workpiece carrier stop
- Integrated roller ball rail
- Height-adjustable with clamp fixing
- incl. guide rails

Item no.	Depth of workpiece carrier in mm	Dimensions in mm (WxDxH)
07.60.10.40	384	1000 x 750 x 735 – 1100
07.60.15.40	384	1500 x 750 x 735 – 1100
07.60.10.50	500	1000 x 750 x 735 – 1100
07.60.15.50	500	1500 x 750 x 735 – 1100
07.60.10.60	616	1000 x 750 x 735 – 1100
07.60.15.60	616	1500 x 750 x 735 – 1100

Beech multiplex worktop incl. roller ball rail

- Beech multiplex worktop 25 mm
- Integrated roller ball rail
- Incl. guide rails and 2 x workpiece carrier stop

Item no.	Depth of workpiece carrier in mm	Dimensions in mm (WxDxH)
07.60.90	384	1000 x 750 x 25
07.60.91	384	1500 x 750 x 25
07.60.92	500	1000 x 750 x 25
07.60.93	500	1500 x 750 x 25
07.60.94	616	1000 x 750 x 25
07.60.95	616	1500 x 750 x 25

workline basic table with small roller conveyor

- 1x small roller conveyor up to 600 mm depth
- Continuously height-adjustable with clamp fixing

Item no.	Dimensions in mm (WxDxH)
07.60.100	1000 x 600 x 790 – 1100
07.60.150	1500 x 600 x 790 – 1100

workline add-on table with small roller conveyor

- 1x small roller conveyor up to 600 mm depth
- Continuously height-adjustable with clamp fixing

Item no.	Dimensions in mm (WxDxH)
07.61.100	1000 x 600 x 790 – 1100
07.61.150	1500 x 600 x 790 – 1100

Roller ball table - bridge

- Without guide rails
- For an intersection with 3 or 4 junctions

Item no.	Dimensions in mm (WxD)
07.60.70	3 junctions - 750 x 750
07.60.71	4 junctions - 750 x 750

Roller ball table - end module

- Without guide rails, with one intersection and two junctions

Item no.	Dimensions in mm (WxD)
07.61.70	750 x 750

Workpiece carrier rail with 1x stopper

Item no.	Width in mm
07.60.03	1000
07.60.01	1500

Stopper for workpiece carrier rail

Item no.
07.60.02

Beech multiplex workpiece carrier

Item no.	Dimensions in mm (WxDxH)
07.60.10	384 x 384 x 12
07.60.11	500 x 500 x 12
07.60.12	616 x 616 x 12

Guide bracket, pair

Item no.	Dimensions in mm
07.60.40	For workpiece carrier 384
07.60.42	For workpiece carrier 500
07.60.44	For workpiece carrier 616

End stop

Item no.	Dimensions in mm (WxDxH)
07.60.46	373 x 20 x 20

Guide rail

Item no.	Dimensions in mm
07.60.48	700

ROLLER CONVEYOR SYSTEMS

The conveying elements are standardised to optimise the internal material flow. With the tried-and-tested roller and wheel conveyor programme, we develop optimal concepts in unit load conveyor technology and realise projects in the areas of: Production, incoming goods, warehouse with picking zones, dispatch, the transport of light products, such as cardboard boxes, is mastered by the conveyor system as well as the handling of heavier goods, which can be moved gently on medium-heavy roller conveyors.

ACCORDION ROLLER CONVEYORS

Flared conveyors are independent, flexible conveyor sections. They are used where stationary conveyor sections cannot be installed and packages are handled manually. Thanks to their high degree of flexibility, they can be used as curves or even S-curves. Furthermore, their conveying length is variable (extendable), and they can be moved using steering casters.

- Also galvanised steel tube, Ø 50 x 1.5 mm, on request
- The centre distance is 55 - 130 mm, depending on the extended length
- Height-adjustable, 700 - 1100 mm
- Also ball bearing-mounted plastic rollers, Ø 48 mm, on request (without surcharge)
- The centre distance is 32 - 130 mm, depending on the extended length
- Height-adjustable, 700 - 1100 mm

Accordion roller conveyors with conveyor rollers made of blue plastic tube

Accordion small roller conveyors with ball bearing-mounted and galvanised steel rollerverzinkten Stahlröllchen

SMALL ROLLER CONVEYORS

For transporting small, light-weight conveyed goods. The conveyed goods should always lie over at least 3 conveyor rollers. Consequently, length and diameter of the smallest conveyed good:

min. 75 mm with a centre distance of 25 mm,

min. 115 mm with a centre distance of 37.5 mm.

The roller conveyor width determines the inner clearance between the roller conveyor frames. The conveyor rollers protrude over the upper edge

of the frame.

Conveyor rollers \varnothing 20 mm or \varnothing 30 mm

LIGHT ROLLER CONVEYORS

Light roller conveyors are used for transporting piece goods of a weight that can still be handled manually. The conveyed goods should always lie over at least 3 conveyor rollers (check centre distance). The roller conveyor width determines the inner clearance between the roller conveyor frames. The load capacity of the conveyors depends on, among other things, the roller conveyor width, and the roller and support spacing. With plastic rollers, the weight of the conveyed good should be no more than 20-25 kg. Supports are placed with a spacing of up to 2 m.

MEDIUM-WEIGHT ROLLER CONVEYORS

For applications where light roller conveyors reach their load limits and heavy-duty roller conveyors would be oversized.

They are used for loads of up to approx. 150 - 200 kg/m, irrespective of the roller conveyor width, and the roller and support spacing. For multi-segment sections, the individual conveyors are connected via the supports (no track connectors).

powerline C

powerline C - the strong one

Thanks to its electric height adjustment, the **powerline** quietly moves to the required working height in a range of 705-1155 mm with a vertical travel speed of 9mm/s without load. Thus, the powerline creates a flexible seated/standing workplace without long waiting times. At the same time, the quiet worktable has an extremely high load capacity. The C-foot variant bears up to 600 kg.

- Feet with levelling
- **Drive:** Internal DC drive with built-in end switches and two synchronous Hall effect sensors
- **Connection:** 230 V | **Drive motor:** 24 V

**Features at a glance**

Retrofittable	Multi-board setup or stand and optional accessories such as foot switch
Energy	Direct supply of lighting, energy, compressed air
Frame widths	1250, 1500, 2000 mm
Frame depth	750 mm
Travel speed	9 mm/s without load
Work height without worktop	705 – 1155 mm Vertical travel: 450 mm
Height adjustment	Electric height adjustment
Frame design	C-foot
Load capacity	600 kg with even load

FRAME DESIGN:**HEIGHT ADJUSTMENT:**

Electric height adjustment

powerline C basic frame

- Equipped with up/down manual switch for height adjustment as standard
- Lifting columns made of aluminium
- Frame and feet made of rectangular tube and 5 mm thick sheet steel

Item no.	Dimensions in mm (WxDxH)
CF.125.75	1250 x 750 x 705 – 1155
CF.150.75	1500 x 750 x 705 – 1155

Ergonomics at the workplace

A workplace that individually adapts to the respective worker's height. Optimal working conditions for a seated and standing workplace. Beech multiplex worktop 40 mm.

You can find further accessories on/from page 398

powerline C heavy load table with stand

- powerline heavy load table electrically height-adjustable
- Stand structure
- 1x pivot arm with perforated/slotted walls
- 1x pivot arm with shelf and ribbed rubber mat
- 1x halogen lamp
- 2x earthed sockets
- 1x 1/4" compress air connection

Item no.	Dimensions in mm (WxDxH)
CF.125.75-2	1250 x 750 x 745 – 1195
CF.150.75-2	1500 x 750 x 745 – 1195
CF.200.75-2	2000 x 750 x 745 – 1195

powerline C heavy load table with multi-board setup

- 2x support column
- 1x energy bar with 3x earthed sockets and on/off switch
- 1x perforated wall
- 1x magnetic board
- 1x shelf, 320 mm
- 1x overhead frame
- 1x equipment rail
- 1 x LED illumination 28.9 W, 1290 lx

Item no.	Dimensions in mm (WxDxH)
CF.125.75-1	1250 x 750 x 745 – 1195
CF.150.75-1	1500 x 750 x 745 – 1195
CF.200.75-1*	2000 x 750 x 745 – 1195

Supplied without hooks, boxes and decoration

- Table width 2000 mm
- Superstructure width centre-centre 2 x 950 mm
- 2x support column left
- 2x support column right

*Three support columns are required for a table width of 2000 mm.
The number of perforated walls, magnetic boards and shelves doubles.

Attachments for the stand

- Attachment for powerline, for example
- Screwed to the worktop (40 mm)

Item no.
07.40.016

Multiple socket bar, single

- With 4 sockets
- Attachment under the worktop, for example

Item no.	Designation
07.40.03	840 x 110 x 45 Multiple socket bar
07.40.04	1/4" compressed air connection

powerline 4

powerline 4 - the strongest one

Thanks to its electric height adjustment, the **powerline** moves virtually silently to the required working height in a range of 705-1155 mm. The vertical travel speed is 9 mm/s without load. Thus, the powerline creates a flexible seated/standing workplace without long waiting times. The 4-foot variant boasts a load capacity of up to 900 kg.

- Feet with levelling
- **Drive:** Internal DC drive with built-in end switches and two synchronous Hall effect sensors
- **Connection:** 230 V | **Drive motor:** 24 V

**Features at a glance**

Retrofittable	Multi-board setup or stand and optional accessories such as foot switch
Energy	Direct supply of lighting, energy, compressed air

4F.150.90-2	1500 x 900 x 745 – 1195
4F.200.75-2*	2000 x 750 x 745 – 1195
4F.200.90-2*	2000 x 900 x 745 – 1195

Supplied without hooks, boxes and decoration

i *Three support columns are required for a table width of 2000 mm. The number of perforated walls, magnetic boards and shelves doubles.

powerline 4 with multi-board setup

- 2x support column
- 1x energy bar with 3x earthed sockets and on/off switch
- 3x shelf, 220 mm depth
- 1x shelf, 320 mm depth
- 1x overhead frame
- 1x equipment rail
- 1 x LED illumination 28.9 W, 1290 lx

powerline 4 with multi-board setup

- 2x support column
- 1x energy bar with 3x earthed sockets and on/off switch
- 1x perforated wall
- 1x magnetic board
- 2x shelf, 320 mm
- 1x overhead frame
- 2x equipment rail
- 1 x LED illumination 28.9 W, 1290 lx
- 1x carriage

hydline heavy load table

Item no.	Dimensions in mm (WxDxH)	Description
03.15.40.07	1500 x 750 x 700 – 1100	Complete set, as illustrated, but without decoration, spring balancer, boxes and tools, without lighting
03.15.40HVS	1500 x 750 x 700 – 1100	hydline heavy load table with electric height adjustment
07.40.016		Attachments for the stand, screwed to the worktop (40 mm)
07.40.06		Stand structure with 2x earthed sockets and 1x halogen lightning 35W
07.40.07		Surcharge for 1/4" compressed air distributor
07.98.10	655 x 45 x 500	Pivot arm with perforated/slotted wall
07.00.30	740 x 410 x 430	Footrest, with individually adjustable height and incline
05.96.09	520-710	PU standing aid, blue, large PU seat, blue, 370 mm wide Seat incline adjustment, 7.5° forwards and backwards, seat height adjustment with gas spring, stable plastic-cruciform base, Ø 630 mm
04.10.05V-1	555 x 736 x 1005	Mobile drawer cabinet, 2x 100 mm drawer, 2x 150 mm drawer, 1x 200 mm drawer, drawers with full pull-out 100 %, load capacity 100 kg, central locking with individual pull-out lock, double locking of the drawers with single locks, 2x steering casters with locks, 2x fixed casters Ø 125 mm, beech multiplex worktop 25 mm

hydline - the quickest of the strong ones

The **hydline** heavy load table moves to your required working height at a speed of 15 mm/s. However, this table is not only quick, but also strong. The hydline has a load capacity of up to 600 kg. Thanks to the hydraulic drive, it has a long service life and will be your trusty companion for a long time.

- Stepless height adjustment of the drive
- Very large forces and torques
- Pressure relief valve for reliable and quick-acting overload protection
- High power density in comparison with electric motors
- Implementation of linear drive elements working in parallel
- Long service life thanks to the hydraulic drive
- High positioning accuracy
- Uniform movement

Features at a glance	
Retrofittable	Multi-board setup or stand and optional accessories such as foot switch
Energy	Direct supply of lighting, energy, compressed air
Frame widths	1500, 2000 mm
Frame depth	750 mm
Travel speed	15 mm/s without load
Work height without worktop	705 – 1155 mm Vertical travel: 450 mm
Height adjustment	Two different types: Crank adjustment, electric height adjustment
Frame design	H-foot
Load capacity	350-600 kg with uniform load depending on height adjustment

FRAME DESIGN:

HEIGHT ADJUSTMENT:

Crank adjustment

Electric height adjustment

Ergonomics at the workplace

A workplace that individually adapts to the respective worker's height. Optimal working conditions for a seated and standing workplace. Beech multiplex worktop 40 mm.

Multi-board setup

- 2x support column
- 1x overhead frame
- 1x equipment rail
- 1x LED illumination 28.9 W, 1290 lx
- 1x energy bar with 3x earthed sockets and on/off switch
- 2x 1/4" compressed air connection
- 1x perforated wall
- 1x magnetic board
- 1x shelf, 320 mm

Item no.	Dimensions in mm (WxDxH)	Description
03.900.15.20	1500 x 750 x 1250	Multi-board setup
03.15.40HV	1500 x 750 x 700 – 1100	hydline heavy load table with crank adjustment, 350 kg load capacity
03.15.40HVS	1500 x 750 x 700 – 1100	hydline heavy load table height-adjustable with electric control, 600 kg load capacity

Adjustable pivot arms ensure the free configuration of handling areas

360° pivot arm inserts, which are attached directly to the stand, offer maximum flexibility for the work to be carried out.

You can find multi-board setups on/ from page 265

Freely adjustable system lights, which are attached directly to the stand.

Sockets, compressed air connections and a halogen lamp are integrated into the stand. This saves the space an additional energy bar would require.

You can find further accessories on/from page 284

Attachments for the stand

- Screwed to the worktop (40 mm)

Item no.
07.40.016

Stand

- For structures with 2x earthed sockets and 1x halogen lightning 35 W

Item no.	Design
07.40.06	Standard
07.40.07	Surcharge for 1/4" compressed air distributor

Multiple socket bar, single

- With 4 sockets
- Attachment under the worktop, for example

Item no.	Designation
07.40.03	840 x 110 x 45 Multiple socket bar
07.40.04	1/4" compressed air connection

Please note:

- The stand or the attachment for the stand is required for the pivot arms
- Load capacity 30 kg

Pivot arm with pivot frame and perforated walls

- With double-sided perforated wall

Item no.	Dimensions in mm (WxDxH)
07.98.09	680 x 60 x 350

Pivot arm with perforated/slotted wall

- For hooks and small parts boxes
- 1st side with slotted wall | 2nd side with perforated wall

Item no.	Dimensions in mm (WxDxH)
07.98.10	655 x 45 x 500

Example application

Open fronted storage bins

- 15 pieces

Item no.	Dimensions in mm (WxDxH)
07.45.26	—

Pivot arm with shelf

- Beech multiplex 25 mm

Item no.	Dimensions in mm (WxD)
07.98.12	600 x 350

Pivot arm with depositing tray

Item no.	Dimensions in mm (WxDxH)
07.98.04	400 x 300 x 48

Pivot arm with document holder A4

- With raised lateral and bottom edge

Item no.	Dimensions in mm (WxDxH)
07.98.05	215 x 35 x 330

You can find further accessories on/from page 236

Carriage

Item no.	Designation
03.900.01	—

Spring balancer

- For all kinds of portable equipment and tools
- 1600 mm pull-out

Item no.	Load capacity in kg
03.900.44	0.4 – 1.0
03.900.45	1.0 – 2.0
03.900.46	2.0 – 3.0

Spring balancer with hose

- Max. pressure 8 bar
- Airflow 370 l/min
- Both sides R 1/4"
- 1400 mm pull-out

Item no.	Load capacity in kg
03.900.60	0.4 – 0.8
03.900.61	0.8 – 1.5
03.900.62	1.2 – 2.5

Bag holder

- For mounting on the worktop

Item no.	Dimensions in mm (WxDxH)
03.900.41	40 x 30 x 70

Bottle holder

- For mounting on the perforated wall and the worktop

Item no.	Dimensions in mm
03.900.43	Ø 90 x 70

Roll holder

- For mounting on the perforated wall and the worktop

Item no.	Dimensions in mm (WxDxH)
03.900.42	200 x 95 x 71

Range of hooks, 10 parts

- 7x tool holder with inclined end
- 2x double tool holder
- 1x tool clamp

Item no.
03.87.395-10

Double tool holder with slanted hook ends

- Ø 6 mm

Item no.	Dimension in mm (W)
03.87.322	50
03.87.323	75
03.87.324	150

Depositing box, small

Item no.	Dimensions in mm (WxDxH)
03.87.430	250 x 80 x 35

Other heavy load tables

Heavy load table

- Very stable steel tube construction, 80 x 80 x 3 mm
- Completely welded
- 2500 kg total load capacity
- Frame height 919 mm

You can find worktops
on/from page 422

Heavy load table frame

- Frame without worktop

Item no.	Dimensions in mm (WxDxH)
03.10SLT1.6	1000 x 650 x 919
03.15SLT1.6	1500 x 650 x 919

Heavy load table

- Beech multiplex worktop 50 mm

Item no.	Dimensions in mm (WxDxH)
03.10SLT0.6	1000 x 750 x 969
03.15SLT0.6	1500 x 750 x 969
03.20SLT0.6	2000 x 750 x 969

Height-adjustable heavy load table

Heavy load tables

- Stable U-profile construction, 75 x 50 x 2 mm
- Welded and bolted with gusset plates for stiffening
- For assembly, workshop and shipping
- 1000 kg total load capacity
- Height-adjustable from 694 to 1044 mm on a grid of 25 mm

You can find worktops on/from page 422

New

Height-adjustable heavy load table frame

- Frame without worktop
- Height-adjustable on a grid of 25 mm

Item no.	Dimensions in mm (WxDxH)
03.10.001.6	1000 x 650 x 694 – 1044
03.15.001.6	1500 x 650 x 694 – 1044

Wooden shelf

- Beech multiplex

Item no.	Dimensions in mm (WxDxH)
03.10.001FB	900 x 550 x 25
03.15.001FB	1400 x 550 x 25
03.20.001FB	1900 x 550 x 25

Height-adjustable heavy load table

- Beech multiplex worktop 40 mm
- Height-adjustable on a grid of 25 mm

Item no.	Dimensions in mm (WxDxH)
03.10.000.6	1000 x 750 x 734 – 1084
03.15.000.6	1500 x 750 x 734 – 1084
03.20.000.6	2000 x 750 x 734 – 1084

Mobile add-on for height-adjustable heavy load table

- Retrofittable
- Stable U-profile construction
- Height-adjustable on a grid of 25 mm
- Total height of heavy load table incl. casters: 884 – 1236 mm
- Load capacity 450 kg
- 4x steering caster, Ø 125 mm with lock

Item no.	Dimensions in mm (WxDxH)
03.90.HVMOB	1000 x 750 x 150

New

**Table scales, dual range**

- Stainless steel weighing platform
- Substructure powder-coated. Reliable, extremely precise industrial
- Incl. evaluation unit 82B1, calibratable class III
- Can be used as table and wall unit
- Membrane keypad with 6x short-stroke key
- 1x strain gauge weighbridge can be connected
- 1x serial RS-232 onboard interface
- Integrated 230 V power supply
- Mains plug with 2 m cable
- Strain gauge weighing cell made of anodised aluminium alloy (IP66)
- 2 m measuring cable (fixed connection)
- EC-calibratable Class III
- Weighing range up to 60 kg/20 g

Item no.	Weighing platform in mm	Weighing range in kg	Increment in g
03.WA833B1	500 x 400	60	20

Conformity assessment (HKB) for scales up to 60 kg

Item no.
03.WA114223

Counting scales 30kg/1g, non-calibratable

- ABS plastic housing
- Stainless steel weighing platform
- 3x LCD display, digit height 14 mm with blue backlight, membrane keyboard with tactile keys, numeric keypad and acoustic feedback
- Weighing functions: taring, counting, totalising, target weight checking
- Serial RS-232 interface, Sub-D socket for printer connection, acoustic-optical signal
- Optimisation of counting accuracy
- Memory for 200 reference weights
- Battery operation
- Plug-in power supply with 1.5 m cable
- Incl. transparent protective hood
- For counting parts from 0.8 g

Item no.	Weighing platform in mm	Weighing range in kg	Increment in g
03.WA200927	280 x 220	30	1

work alu[®]

General perks and advantages of aluminium profiles*

- Modular, simple plug-in system for all requirements
- No drilling. The profiles are already cut to size and provided for easy self-assembly
- Non-magnetic or magnetisable
- The surface of the aluminium profile is anodised and therefore not electrically conductive. It serves as electrical insulation
- When correctly contacted, the aluminium profile has good electrical conductive. Contact is made via the front of the profile, which has no anodised layer
- Very light due to its low density of 2.71 g/cm³, which is about one about one third of the weight of steel
- Highly corrosion resistant
- Hygienic, easy to clean

Characteristics and advantages of the workalu[®] product series

- High combination variety due to the modular system
- Quick and easy combination of all tables and accessories
- Quick and easy profile shifting through corner connections, double-sided frames and add-on modules
- Extensive range of accessories, current accessories can be combined with the new workalu[®] series
- Position of the profiles variable and steplessly adjustable

How it works:

1 The sleeves with the screws are screwed into the profile grooves with a drill. The slot nuts are pushed into the groove of the profile to which the first profile is to be screwed. **2** Then the screws are screwed into the slot nuts and tightened.

Levelling:

The height of the workalu® 4-leg tables can be adjusted by 20 mm. Floor unevenness can thus be easily compensated for.

Our solution

The workalu® has the ability to grow with the diversity of your workplace. Thanks to the flexibility of the aluminium profile and the numerous accessories, the workstation can be extended at any time. This allows for a perfectly optimized handling area, which is essential from an ergonomic point of view.

Advantages:

- Assembly times are reduced
- Ergonomic workplace design
- Modular and easily expandable
- Slim and timeless design

With workalu® workplaces adapt to the requirements of the user and not vice versa. It can be variably expanded and changed at any time. Only this variability and flexibility allows for highly optimised workflows. Static, unchangeable workplaces are a thing of the past.

Item no.
03.00.32

MDF worktop with 2.5 mm linoleum coat

- 4-sided ABS edging
- Easy to care
- Durable
- Antistatic
- Scratch resistant
- Due to the production process, a yellow patina may be visible at the beginning, which disappears again with time due to the influence of light
- Production, light and environmental influences may lead to colour differences and colour changes in the coating
- Made from purely natural raw materials, thus linoleum is very environmentally friendly in production, use and disposal
- Areas of application: technical, electrical and chemical works

Page 453

ESD stands for electrostatic discharge. A large potential difference causes a spark or disruptive discharge, which produces high electric voltage pulses in electronic devices.

Humans first feel an electrostatic charge from 3000 volts, and in most cases the discharge is harmless, with the moment of shock being the worst part.

When is ESD dangerous?

Sparking can already occur at 10000 volts and can cause explosions if flammable liquids or gases are being handled. Static electricity is produced, for example, when running on a carpeted floor, whereby a person can become charged to approx. 30000 volts in some cases.

The effects of ESD are insidious, meaning that the damage is not immediately visible, and the causer often does not notice it. The consequences can become costly, especially if the assembly is installed in devices for sensitive applications. Sensitive components can be destroyed from just 40 volts.

EPA offers protection against ESD!

EPA = Electrostatic Protected Area

A work area equipped with ESD protective measures where electrostatically sensitive components can be handled without damaging them.

A comprehensive EPA protection area includes the following areas:

- Workstation
- Personal grounding
- Tools
- Markings
- Measurement technology
- Storage/containers
- Flooring

The ESD standard DIN EN 61340-5-1 applies to electronics production facilities.

All products listed here comply with this standard.

Four golden rules for dealing with ESD

1. Always presume that all active components are ESD-sensitive.
2. Only touch electronic components in ESD protection areas (EPA) and then only when you are properly grounded.
3. Store and transport ESD-sensitive components in ESD protective containers.
4. Regularly check the ESD protection system.

Observe the principle *“No charge, no discharge”*.

Making as few movements as possible and using ESD-safe equipment reduces the risk of a static charge on people to a minimum.

ESD GLOSSARY

A

Bleeder resistance:

Measurement between an earthing point and the electrodes on a surface.

Antistatic:

The "electrostatic charge reduction property", could be a special type of plastic, for example.

Workstation

The ESD-protected workstation should be ergonomically adaptable.

Electrostatic charge is dissipated via the worktop and a earthing cable so that the workstation remains charge-neutral.

D

Dissipative:

Surface resistance of materials between 10^5 and $10^{12} \Omega$.

E

EPA:

Electrostatic protected area, a work area where electrostatically sensitive components can be handled without damaging them.

Earthing:

Discharge of electric currents into the ground.

Earthing point:

Central point (e.g. on a worktop) that is connected to the building's earthing.

ESD:

The phenomenon of electrostatic discharge.

ESDS:

Electrostatic discharge sensitive devices.

F

Flooring

The flooring should be conductive and comply with the required limit values specified in DIN EN 61340-5-1. When cleaning ESD flooring, use only cleaning agents that do not form layers so that the conductivity values remain within the desired range. If only individual workstations are set up as EPAs, ESP floor mats or tiles can also be earthed.

I

IC:

Integrated circuit, microchip, e.g. microprocessor.

Ionisation:

Removal of charged particles (e.g. electrons) from a material such as air. Ionisation devices can neutralise electrostatic charges by distributing ionised air.

Isolator:

Materials that have a high surface resistance of at least $10^{12} \Omega$. Static charges remain in a part of these materials for a long time without discharging (plastic, glass, air).

L

Storage/containers

Conductive ESD shelving and containers for transporting and storing components protect endangered components. Assembly trolleys should be fitted with conductive wheels.

Conductivity:

Ability of a material to conduct electrical current, e.g. metals.

M

Markings

Markings on the flooring indicate ESD protection areas. Signs and labels indicating potentially endangered components and assemblies are also important.

Measurement technology

Protective device must be metrologically tested regularly. When entering an EPA, measurements and regular personal inspections must be performed. Work benches, floor mats and earthing connections should be checked monthly and ESD monitoring instruments should be checked annually.

The respective bleeder resistances should have the following values: Worktop: between $7.5 \times 10^5 \Omega$ and $10^9 \Omega$, Flooring: less than $10^9 \Omega$, Chair/standing aid: less than $10^{10} \Omega$, Tool: less than $10^{12} \Omega$.

N

Standards:

IEC 61340-5-1 Protection of electronic devices from electrostatic phenomena - General requirements

IEC 61340-5-2 Protection of electronic devices from electrostatic phenomena - User guide

IEC 61340-4-1 Electrical resistance of floor coverings and installed floors
ANSI/ESD S20.20.-1999 Protection of Electrical and Electronic Parts, Assemblies and Equipment

ANSI/ESD S541-2003 Packaging materials for ESD sensitive items

O

Surface resistance:

Resistance between two points on a surface, measured using a megohmmeter and two electrodes.

P

Personal grounding

People are the main source of electrostatic charges. Shoes and a wrist strap with an earthing cable should be mandatory for employees in electronics production. Wrist strap and shoe testers facilitate the daily inspection of EPA effectiveness. The chair or standing aid should also have ESD protection.

S

Current:

Unit [A] ampere, formula symbol: I, flow of (mostly negative) charge carriers.

Voltage:

Unit [V] volt, formula symbol: U, maintains the electrical current in a closed circuit and is thus the cause for the flow of current.

W

Resistance:

Unit [Ω] Ohm, formula symbol: R, indicates what voltage is required to cause a particular current to flow through an electrical conductor.

Overview

ESD

To be able to ensure the reliability and quality of current electronic products, it is necessary to observe the most important **HANDLING REGULATIONS** when processing electrostatic discharge sensitive devices (ESDS):

1. ESDS may only be processed at electrostatic protection workstations (EPA)!
 2. Ensure a constant "smooth" potential equalisation!
 3. Ensure personal grounding via wrist and shoe earthing!
 4. Ensure conductive, closed clothing!
 5. Avoid electrostatic chargeable materials such as normal PE, PVC, polystyrene , etc.!
 6. ESDS must not be exposed to electrostatic fields $> 100 \text{ V/cm}$!
 7. Only use labelled and defined packaging and transport materials!
 8. Employee training!
-

Standard colours

All ESD products on pages 440-444 have an eco-friendly, conductive powder coating.

Here you can see our 7 standard colours, which may deviate slightly from the standard RAL colours due to the pigmentation.

ESD guidelines at a glance: DIN EN 61340-5-1

Last updated in July 2017, DIN EN 61340-5-1 is the standard dealing with electrostatic charge in connection with technical devices. Official title of this ESD standard: "Protection of electronic devices from electrostatic phenomena". As part of the international series of standards 61340, which deals with electrostatics in all areas, it is of significance for many industrial companies. Essentially, DIN EN 61340-5-1 contains the requirements that companies must place on their design, concept, creation, setup and maintenance processes for the effective management of electrostatic charges.

The requirements formulated are directly related to electrical parts, components or devices that are manufactured, further processed, packaged, operated or handled in any other way and that can be damaged by electrostatic charges. Adherence to ESD guidelines for companies with sensitive production areas such as clean rooms is of particular importance. Sources of electrostatic charge are also considered in DIN EN 61340-5-1. For example, certain material combinations, gases, impurities or the employees themselves unknowingly produce such charges.

Standard-compliant industrial chairs ensure product safety

In clean rooms compliance with such ESD guidelines should always have top priority. It therefore not only makes sense to orient clean room chairs and industrial chairs to this requirement, but also to prevent the occurrence of electrostatic charges to the greatest extent possible by means of suitable further measures. Companies from the electrical industry should already have a great operational interest in implementing such standards, e.g. DIN EN 61340-5-1, as precisely as possible and striving for their optimal integration into operational workflows.

- Tests personal bleeder resistances for wrist strap and footwear grounding systems to monitor access to electrostatic protection areas (EPAs)
- The test result is signalled visually and audibly. An additional potential-free relay contact makes it possible to control a door opener or turnstile, for example, to control access
- Voltage is supplied by an integrated battery or a plug-in power supply
- Tests wrist strap grounding
- Simultaneous testing of right and left shoe possible thanks to separate measuring circuits

- In combination with entry control systems (e.g. turnstiles), footwear measurements can be performed in hands-free mode without pressing the button
- Test voltage 30, 50 or 100 volts (standard setting)
- The lower limit values can be deactivated
- Can be used as a table-top or wall-mounted device (as a wall-mounted device, the optional wall bracket is required)
- Limit values can be adjusted using a DIP switch

Magnetic document holder made of IDP-STAT- PVC in DIN A3 format. Can be used for various labelling options.

Test station mat
830 x 680 x 13 mm

Footwear testing electrode for separate measuring, left and right shoe
Dimensions: 350 x 500 mm

Personnel Grounding PGT®120

- Scope of delivery: Footwear testing electrode, works calibration certificate, instructions for use (German/English), 9 V battery, 230 V AC plug-in power supply

Item no.	Type
1 EPGT120	Personnel Grounding Tester PGT®120
EPGT120.WK	Wall bracket for PGT®120 and PGT®120.COM made of stainless steel (not illustrated)

Personnel Grounding accessories

Item no.	Type
2 EPGT120.CU.12	Calibration unit for PGT®120 and PGT®120.COM for on-site testing, incl. works calibration certificate for PGTs with 12 dip switches
3 EPGT120.12.S	Test station mat with yellow leading edge

PGTest Station

- Powder coating in the colours depicted
- Test station for the PGT®120
- Dimensions: 590 x 730 x 1700 mm (W x D x H)
- PGT®120 not included in the scope of delivery

Item no.	Type
EPGT120.TEST	PGTest Station for PGT®120 / PGT®120.COM with magnetic document holder made of IDP-STAT-PVC in A3

Measuring and test devices

METRISO® B530 measuring lit

Metriso® B530 – MEASURING KIT

- For measuring point-to-point and bleeder resistances in accordance with DIN EN 61340-4-1 and DIN EN 61340-2-3 (VDE 0300, Part 4-1 / 2-3)
- For measuring the system resistance of human/footwear/flooring systems in accordance with DIN EN 61340-4-5 (VDE 0300, Part 4-5)
- Additional low-ohmic measuring range of 1 Ω - 10 kΩ for testing earthing measures, digital and analogue measurement display, as bar graph or pointer
- Optical signalling of the voltage measuring range with red and green LED
- External voltage detection with red LED

- **Measuring voltage:** DC 10 V, 100 V, 500 V
- **Resistance measuring range:** 1 Ω to 199 GΩ
- **Mode of operation:** Battery operation
- **Electrodes:** 2x model 870: 1x hand electrode – model 45
1x extension set for electrode 870
- **Dimensions:** 225 x 130 x 140 mm (WxDxH)
- **Weight (complete KIT):** 9 kg

Electrode model 870

Extension set for electrode 870

Measuring and test instrument Metriso® B530

- 2x measuring electrode model 870 according to DIN EN 61340-4-1/2-3
- 1x hand electrode model 45 according to DIN EN 61340-4-5
- 1x extension set for electrode 870
- Conductive carry case

Item no.	Type
EB530.MK	Metriso® B530 complete measuring kit
ES530.G	Metriso® B530 measuring instrument with measuring cables

Optional accessories

Item no.	Type
E2000.TR50	Cable drum 50 m, with unwinder for ground measurements
E2000.ML	Spare measuring cable set (com/shield + positive cable)

Measurement: $R_{G\text{-system}}$
Personal bleeder resistance (human/shows/flooring) to protective earth

Measurement: R_{p-p}
Point-to-point resistance

Measurement: R_G
Bleeder resistance to protective earth

Handheld meter for testing **conductive surfaces**. Test values displayed on LCD display. Delivery includes conductive carry case, earthing cable, USB cable, works calibration certificate and readout software for stored test data.

- **Measuring range:** $10^3 - 10^{12}$ ohm
- **Measuring voltage:** Open-circuit voltage 100 V
- **Mode of operation:** Battery operation
- **Display:** LCD display
- **Electrodes:** Bar electrode with conductive rubber

- With data storage and USB interface to PC
- Connection of 2 external electrodes possible

Example application

Surface resistance meter SRM®200

Item no.	Type
ESRM200.K	Handheld meter with case

Veribox

- The Veribox contains resistors for testing high-resistance measuring devices prior to use
- 3 different resistors for testing measuring devices
- Each resistance has a separate plug connection

Item no.
E7100.VB2

ESD workplaces

C-foot workergo with basic frames - conductive

- C-foot basic frame
- Conductive, powdered

- ESD conductive worktop, 30 mm

Item no.	Dimensions in mm (WxDxH)

ESD workplaces

C-foot table – conductive

1 workergo C-foot

- Worktop, conductive, 1500 x 750 x 30 mm
- Height adjustment by crank
- Energy board with 2x 2 earthed sockets, 1x network socket, 1x compressed air 1/4"
- Load capacity 200 kg

Item no.	Dimensions in mm (WxDxH)
ESDC150KU75G	1500 x 750 x 700 – 1045

2 Parts trolley

- ESD version, 4x steering caster, thereof 2 with locks, Ø 125 mm
- 1x shelf 320 mm, 1x container strip with boxes
- 12x box: 210 x 330 x 200 mm
- 6x box: 150 x 230 x 125 mm

Item no.	Dimensions in mm (WxDxH)
E07.8310.08K	1000 x 800 x 1476

3 Rotary plate with locking mechanism

- With ribbed rubber mat
- With locking mechanism every 45°

Item no.	Dimensions in mm
E07.60.31	Ø 380, conductive
E07.60.32	Ø 500, conductive

workergo C-foot

- Conductive, powdered
- Worktop, conductive, 1500 x 750 x 30 mm
- Height-adjustable

Multi-board setup

- 2x support column
- 1x perforated wall
- 2x shelf 220 mm, 1x shelf 320 mm
- Pivot arm with keyboard platform, pivot arm with shelf
- Overhead frame with equipment rail and lighting 2x 36W

Item no.	Dimensions in mm (WxDxH)	Height adjustment
EC150KL75-05	1500 x 750 x 700 – 1045	Clamp fixing, load capacity 200 kg
EC150KU75-05	1500 x 750 x 700 – 1045	Crank adjustment, load capacity 200 kg
EC150E175-05	1500 x 750 x 700 – 1045	Electric, 1 motor, load capacity 180 kg
EC150E275-05	1500 x 750 x 700 – 1045	Electric, 2 motors, load capacity 300 kg

Supplied without boxes, hooks and decoration

4-foot table – conductive

ESD workplace systems

workergo 4-foot

- Conductive, powdered
- Worktop, conductive, 1500 x 750 x 30 mm
- Height-adjustable

Multi-board setup

- 2x support column
- 1x energy bar with 3x earthed sockets and on/off switch
- 2x perforated wall
- 1x shelf, 320 mm
- 1x pivot arm with shelf
- 1x pivot arm with laptop shelf
- Overhead frame with equipment rail and lighting 2x 36W

Item no.	Dimensions in mm (WxDxH)	Height adjustment
E4150KL75-04	1500 x 750 x 700 – 1045	Clamp fixing, load capacity 200 kg
E4150KU75-04	1500 x 750 x 700 – 1045	Crank adjustment, load capacity 200 kg
E4150E175-04	1500 x 750 x 700 – 1045	Electric, 1 motor, load capacity 180 kg
E4150E275-04	1500 x 750 x 700 – 1045	Electric, 2 motors, load capacity 300 kg

workraster

- Conductive, powdered
- Worktop, conductive, 1500 x 750 x 30 mm

Multi-board setup

- 2x support column
- 1x energy board with 4x earthed sockets
- 2x perforated wall
- 1x shelf, 320 mm
- Overhead frame with equipment rail and lighting 2x 36W

Item no.	Dimensions in mm (WxDxH)
E07.899.01	1500 x 800 x 2070

Supplied without boxes, hooks and decoration

E07.75.1KUST	1500 x 750 x 765 – 1135	Crank adjustment, load capacity 200 kg
E07.75.1KHEST	1500 x 750 x 765 – 1135	Electric, 1 motor, load capacity 180 kg

Supplied without boxes, hooks, rotary plate and decoration

1

Table cover

- 610 x 1220 mm (WxD)

Item no.

E07.24.03

2

Earthing module

- With 2 m smooth cable
- 4 mm eyelet, without resistance

Item no.

E07.24.21

3

Earthing cable, 1.5 m

- For table/floor coverings, 1 MOhm safety resistor
- 10 mm snap fastener/4 mm eyelet, 3 m

Item no.

E07.24.07

6

Wrist strap

- 3 mm snap fastener

Item no.

E07.24.02

4

Spiral cable

- Highly elastic, 2.4 m long, 2x 1 MOhm safety resistance
- Earthing contact connection: 10 mm snap fastener
- Typical resistance $R = 2x 10^6$ Ohm

Item no.

E07.24.04

7

Floor mat

- Ecostat® Mega - 3.5 Rubber
- 1220 x 2500 x 3.5 mm (W x D x H)

Item no.

E07.24.08

8

Connection examples for earthing terminal strip on the rear

5

Earthing box

- As earth bonding point (EBP) for personal grounding, earthing cable
- 2 m long, connection type: 4 mm eyelet, 1 MOhm safety resistor per connection
- 2x 10 mm snap fastener connection
- 1x 4 mm safety socket

Item no.

E07.24.22

8

Earthing terminal strip

Item no.

E07.24.09

Floor coverings

ECOSTAT® standard floor mats

Flooring material for DIY loose laying

Two-layer composite tile flooring

- Volume conductive
- Abrasion-resistant
- Conductive, elastic backing, adapts to the substrate
- Backing with waffle structure for installation on problematic substrates (e.g. residual moisture)
- Suitable for chair castors
- Suitable for forklifts
- Reusable
- Self-laying | **Easy laying thanks to click system**
- Easy handling using woodwork tools
- Can be walked on during laying, therefore very short downtimes
- Colour: Grey
- Typical bleeder resistance $R_{gp} = 10^4 - 10^5 \text{ ohm}$

Transition (optional)

- Adhesive, easy laying thanks to click system

Item no.	Standard dimension in mm	Packaging unit
E1310PF701R	1220 x 65	1

Corner joint (optional)

- Adhesive

Item no.	Standard dimension in mm	Packaging unit
E1310PF701RES	711 x 65	2

Puzzle tile

Item no.	Dimensions in mm (WxDxH)	Packaging unit
E1310.PF.701	469 x 469 x 8.5	12
E1310.PF.ESD	469 x 469 x 8.5 with ESD logo	1

Standard floor mat

- Rounded corners
- 2x 10 mm snap fastener connection
- Max. roll length 10 m

Incl. earthing cable with protective cap, with 10 mm snap fastener, 4 mm eyelet, 1 MOhm safety resistor, 4.5 m long

ECOSTAT® Mega - 3.5 Rubber

- Adhesive

Item no.	Dimensions in mm (WxDxH)
E1250.681	1220 x 1650 x 3.5
E07.24.08	1220 x 2500 x 3.5

ECOSTAT® PR - 2.0

- Adhesive

Item no.	Dimensions in mm (WxDxH)
E1250.7004.L	1500 x 2000 x 2

ECOSTAT® anti-fatigue mats

- Improved walking, turning and standing properties
- Tread can be quickly extended as desired using puzzle technology
- Customer-specific dimensions also possible lateral and longitudinal directions with puzzle technology
- Smallest configuration: 2 end tiles
- Blister diameter: 8 mm

Item no.	Dimensions in mm (WxDxH)
E06500940VE	End tile: 650 x 940 x 13 incl. 10 mm snap fastener
E06500910VM	Middle tile: 650 x 910 x 13
E307.B1.Z	Custom size on request

ECOSTAT® table mat

ESD workplace systems

- Two-layer composite flooring
- Rugged synthetic rubber
- Resistant to solder and heat
- Abrasion-resistant
- Halogen-free
- Permanently elastic

- Volume conductive
- Material thickness: 2 mm
- Typical bleeder resistance $R_{gp} = 10^6 - 10^7$ ohm
- Includes: 2x 10 mm snap fastener,
*Rounded corners (radius approx. 43 mm)

Table cover

Item no.	Colour	Dimensions in mm (WxD)
E07.24.03	Platinum grey	1220 x 610
E1402.663.S*	Platinum grey	900 x 610
E1402.663.R	Platinum grey	Rolls: 1220 x 10000

Table cover

Item no.	Colour	Dimensions in mm (WxD)

E1402.662.S*	Beige	610 x 900
E1402.662.R	Beige	Rolls: 1220 x 10000

ECOSTAT® shelf mat

Anti-slip covering

- Anti-slip profile in transverse and longitudinal direction - on both sides
- Permanently dissipative due to carbon
- Covering for transport trolleys and shelves
- Profiled, wear-resistant synthetic rubber
- Material thickness: 2 mm

Item no.	Colour	Dimensions in mm (WxD)
E1453.7300.R	Black	Rolls: 1220 x 10000

Shelf mat

- Two-layer composite flooring
- Rugged synthetic rubber
- Resistant to solder and heat
- Abrasion-resistant
- Halogen-free
- Permanently elastic
- Volume conductive
- Material thickness: 1.5 mm
- Typical bleeder resistance $R_{gp} = 10^6 - 10^7$ ohm

Item no.	Colour	Dimensions in mm (WxD)
E1452.659.R	Black	Rolls: 1220 x 10000

Storage systems

Open fronted storage bins

Open fronted storage bins – conductive

- Carbon-loaded, permanently volume conductive polypropylene
- Improved removal opportunity due to rounded corners
- With ESD labelling
- Typical surface resistance $R_{sp} = 10^4 - 10^5$ ohm

ESD parts trolley

Multi-trolley combinations from practice – conductive

Multi-trolley

- Equipped with 2x fixed and 2x steering caster with locks, Ø 125 mm
- Bottom shelf
- 8x inclinable shelf 320 mm depth
- Total load capacity 500 kg

Includes

- 6x Euro storage bins 400 x 300 x 170 mm
- 8x open fronted storage bin 200 x 350 x 200 mm
- 16x open fronted storage bin 200 x 350 x 145 mm

Item no.	Dimensions in mm (WxDxH)
ESD07.58.14	990 x 610 x 1450

Multi-trolley

- Equipped with 2x fixed and 2x steering caster with locks, Ø 125 mm
- 4x inclinable shelf 320 mm depth
- 2x perforated panel, 302 mm
- Total load capacity 500 kg

Includes

- 6x Euro storage bins 400 x 300 x 170 mm
- 8x open fronted storage bin 200 x 350 x 145 mm
- Supplied without tools

Item no.	Dimensions in mm (WxDxH)
ESD07.58.16	990 x 610 x 1450

Multi-trolley

- Equipped with 2x fixed and 2x steering caster with locks, Ø 125 mm
- Open fronted storage bins are hung in rails
- Total load capacity 500 kg

Includes

- 32x open fronted storage bin 100 x 170 x 80 mm
- 24x open fronted storage bin 145 x 230 x 125 mm
- 16x open fronted storage bin 200 x 350 x 200 mm

Item no.	Dimensions in mm (WxDxH)
ESD07.58.12	990 x 610 x 1450

Multi-trolley

- Equipped with 2x fixed and 2x steering caster with locks, Ø 125 mm
- 4x inclinable shelf 420 mm depth
- Total load capacity 500 kg

Includes

- 8x Euro storage bins 400 x 600 x 170 mm

Item no.	Dimensions in mm (WxDxH)
ESD07.58.18	990 x 610 x 1450

Individual parts trolleys on request.

Vinyl roller stool

- Dissipative roller stool with height adjustment
- For clean production areas
- 5-star cruciform base made of chrome-plated aluminium with 5 conductive, load-dependent braked, soft castors
- Safety gas spring
- Seat height adjustment from 500 to 640 mm
- Durable and conductive vinyl cover, seat diameter: 340 mm
- With ESD labelling

Item no.	Type
E1700.VH	Black
E1700.KS.13	Hard, conductive chair castors (for carpeted floors)

Backrest with ESD labelling

PU sit-stand stool

- Dissipative sit-stand stool with height adjustment
- Dissipative and robust construction with anti-skid glides
- Lockable seat height adjustment
- 15° tilting seat
- Dissipative and durable PU integral foam seat
- 16° tilting seat for excellent body contact
- GS tested
- With ESD labelling
- Typical bleeder resistance $R_{gp} = 10^8 - 10^9 \text{ ohm}$

Item no.	Colour
E1700.S	Black

The INDUSTRIAL PU chair provides excellent, ergonomic sitting comfort. It reliably and safely drains static charges from personnel to the conductive flooring or floor mat.

Standard version

- 5-star cruciform base made of chrome-plated aluminium with 5 conductive, load-dependent braked, soft castors
- Safety gas spring
- Seat height adjustment from 380 to 510 mm
- Synchronous adjustment of seat and backrest
- Seat and backrest made of durable, black conductive PU integral foam
- PU integral foam is easy to clean
- With ESD labelling
- GS tested

Item no.	Type
E1700.PU	Without armrests

Backrest with ESD labelling

High model

- Seat height from 540 to 800 mm
- Cruciform base with 5 conductive glides
- Chrome-plated foot ring as climbing aid
- Stepless height adjustment

Item no.	Type
E1710.PU	Without armrests

Optional accessories

Item no.	Type
E1700.KS.13	Hard, conductive chair castors (for carpeted floors)
E1700.XS.PU	Volume conductive PU armrests* incl. mounting plate

Chair

Comfort chair

The COMFORT chair provides an exceptional sitting comfort due to its highly resilient foam contoured seat. It reliably and safely drains static charges from personnel to the conductive flooring or floor mat.

Backrest with ESD labelling

Standard version

- 5-star cruciform base made of chrome-plated aluminium with 5 conductive, load-dependent braked, soft castors
- Safety gas spring
- Seat height adjustment from 400 to 420 mm
- Asynchronous mechanism
- Seat and dynamic back rest individually adjustable
- Hard-wearing and conductive upholstery cover for the seat and backrest in fabric
- Conductive plastic back seat shell with ESD labelling
- GS tested

Item no.	Colour	Type
E1700.ES.B	Blue	Without armrests
E1700.ES.D	Grey	Without armrests

High model

- Seat height from 640 to 760 mm
- Cruciform base with 5 conductive glides, foot ring as climbing aid

Item no.	Colour	Type
E1710.ES.B	Blue	Without armrests
E1710.ES.D	Grey	Without armrests

Optional accessories

Item no.	Type
E1700.KS.13	Hard, conductive chair castors (for carpeted floors)
E1700.XS	Volume conductive PU armrests*

The high-quality COMFORT PLUS chair provides perfect, ergonomic sitting comfort due to its foam contoured seat. It reliably and safely drains static charges from personnel to the conductive flooring or floor mat.

Backrest with ESD labelling

Standard version

- 5-star cruciform base made of polished aluminium with 5 conductive, load-dependent braked, soft castors
- Safety gas spring
- Seat height adjustment from 430 to 540 mm
- Adjustable back height
- Adjustable back height, depth and angle
- Mechanism with synchronous technology ensures active-dynamic sitting
- Seat and dynamic back rest individually adjustable
- High-quality moulded foam pads for perfect sitting comfort
- Hard-wearing and conductive black upholstery cover
- Conductive plastic back seat shell
- With ESD labelling
- GS tested

Item no.	Colour	Type
E1700.ESP.S	Black	Without armrests

High model

- Seat height from 610 to 850 mm
- Cruciform base with 5 conductive glides
- Chrome-plated foot ring as climbing aid
- Stepless height adjustment

Item no.	Colour	Type
E1710.ESP.S	Black	Without armrests

Optional accessories

Item no.	Type
E1700.KS.13	Hard, conductive chair castors (for carpeted floors)
E1700.XS	Volume conductive PU armrests*

Grid subdivision

maxmobile 1 and 2

Mobile logistics systems

- Internal usable area: 600 x 300 mm
- Drawers with full pull-out (FP) 100 %, load capacity 35 kg
- Supplied without decoration, tools and hooks

maxmobile 1

- 5x drawer
- 2x fixed and 2x steering caster with locks, Ø 100 mm
- 1x waste bin, 1x bottle and can holder
- 1x support tray, 1x wooden panel, 1x side cover panel
- 1x swivelling laptop tray
- 1x perforated wall setup 300 mm with swivelling side parts

Item no.	Dimensions in mm (WxDxH)
08.88.90-1	780 x 480 x 1540

maxmobile 2

- 6x drawer
- Axle with 2x fixed caster, Ø 150 mm, 2x steering caster with lock, Ø 100 mm
- 1x waste bin, 1x bottle and can holder
- 1x support tray, 1x wooden panel, 1x side flap
- 1x swivelling laptop tray
- 1x perforated wall setup 300 mm with swivelling side parts

Item no.	Dimensions in mm (WxDxH)
08.89.92-1	780 x 580 x 1540

maxmobile 2

- 5x drawer
- Axle with 2x fixed caster, Ø 150 mm, 2x steering caster with lock, Ø 100 mm
- 1x bottle and can holder
- 1x waste bin, 1x support tray, 1x wooden panel, 1x side flap
- 1x swivelling laptop tray

Item no.	Dimensions in mm (WxDxH)
08.89.90-1	780 x 580 x 912

maxmobile 2

- 5x drawer
- 1x waste bin, 1x support tray, 1x wooden panel, 1x side cover panel
- 1x swivelling laptop tray
- Axle with 2x fixed caster, Ø 150 mm, 2x steering caster with lock, Ø 100 mm
- 1x perforated wall setup 600 mm with swivelling side walls

Item no.	Dimensions in mm (WxDxH)
087.89.303-2	780 x 580 x 1540

maxmobile 1

maxmobile 1

maxmobile 1

- Internal usable area: 600 x 300 mm
- 100 % full pull-out of drawers with max. 35 kg load capacity
- Central locking
- Precise locking and self-retraction
- Circumferential impact and heel protection
- 2x fixed and 2x steering caster with locks, Ø 100 mm
- Comprehensive range of divider material
- Wide range of accessories for every application
- Plastic support surface with moulded surfaces for small parts and ergonomic handles
- Support surface is highly resistant to chemicals and oil
- Support surface in either plastic or beech multiplex version
- Powder coating in 15 standard colours (colour combinations possible)

Your advantages:

- Space-saving
- Small and manoeuvrable
- Comfortable, safe ride
- Theft-proof central locking with "B+H" locking system
- Wide range of accessories for every application
- Comprehensive range of divider material
- Individual configuration
- Eco-friendly painting procedure
- No risk of injury from snagging

maxmobile 1

- 2x hinged door
- 1x internal perforated wall on each side
- 1x shelf

Item no.	Dimensions in mm (WxDxH)
08.88.03	780 x 480 x 912

maxmobile 1

- 6x drawer
- 1x side cover panel

Item no.	Dimensions in mm (WxDxH)

08.88.203	565 x 300

**Key set, 21 pcs.**

- Inlet two-coloured black/blue
- Combination spanner DIN 3113 A, 6, 7, 8, 9, 10, 11, 12, 13, 14, 17, 19, 22, 24 mm
- Double-ended ring spanners, DIN 838 6 x 7, 8 x 9, 10 x 11, 12 x 13, 14 x 15, 16 x 17, 18 x 19, 20 x 22 mm

Item no.	Dimensions in mm (WxD)
08.88.204	565 x 300

**Set of 1/4"-12" socket keys, 71 pcs.**

- Inlet two-coloured black/blue
- 1/2" reversible ratchet, 270 mm
- 1/2" extension, 75 and 250 mm
- 1/2" cardan joint, 75 mm
- 1/2" hex socket 10, 11, 12, 13, 14, 15, 16, 17, 19, 22, 24, 27, 30, 32 mm
- 1/4" reversible ratchet, safety extension, 140 mm
- 1/4" extension, DIN 3123, 50 and 100 mm
- 1/4" drive handle, DIN 3122, 150 mm
- 1/4" hex socket 4, 4.5, 5, 5.5, 6, 7, 8, 9, 10, 11, 12, 13, 14 mm
- 1/4" internal Torx socket, TX 8, 10, 15, 20, 25, 27, 30, 40
- 1/4" external Torx socket, E 4, 5, 6, 7, 8, 10, 11
- 1/4" cross-head socket, PH 1, 2, 3
- 1/4" slot drive socket, 4 x 25, 5,5 x 25, 7 x 25 mm
- Angled hex key, long, ball head, 9 pcs. 1.5 – 10 mm

Item no.	Dimensions in mm (WxD)
08.88.205	565 x 300

**Set of pliers/screwdrivers, 14 pcs.**

- Inlet two-coloured black/blue
- Cross-head screwdriver, Pozidriv, DIN ISO 8764-1/-2, PZ 1, 2, 3
- Cross-head screwdriver, DIN ISO 8764-1/-2, PH 1, 2, 3
- Workshop screwdriver, DIN 5265, D, 6,5 x 150, 5,5 x 125, 6, 5 x 125 mm
- Water pump pliers, ISO 8976, B, 240 mm
- High leverage combination pliers, DIN ISO 5746, 7" / 180 mm
- Diagonal cutter, DIN ISO 5749, 6.1/4" / 160 mm
- Telephone pliers, ISO 5745, straight, 6.3/4" / 170 mm
- Universal grip pliers, 10" / 250 mm

Item no.	Dimensions in mm (WxD)
08.88.206	565 x 300

Drawer tool sets

maxmobile 2 drawer tool sets

Set of spanners, 100, 8 pcs.

- Inlet two-coloured black/blue
- Double open-ended spanner DIN 3110 6 x 7, 8 x 9, 10 x 11, 12 x 13, 14 x 15, 16 x 17, 18 x 19, 20 x 22 mm

04.15.24V	1500 x 750 x 859	Mobile workbench
03.900.15.31	1500 x 1250	Multi-board

Supplied without hooks, boxes and decoration

Mobile computer, measuring and testing stations

Besides standard products in various widths and heights with extensive accessory parts, we also manufacture customer-related solutions and tailor-made products for your production and/or storage area. Simply ask us!

Media stand

- Plastic roller shutters, lockable, top
- Perforated double hinged door, lockable, bottom
- 1x shelf
- Cable passage in rear wall
- 4x steering caster Ø125, thereof 2 with locks
- 2x push handle

Item no.	Dimensions in mm (WxDxH)
04.RC.01	1250 x 500 x 1757

Coffee stand with lateral folding table

- Plastic roller shutters, lockable, top
- 1x hinged door
- 2x shelf
- Lateral folding table, beech multiplex 25 mm
- Cable passage in rear wall
- 4x steering caster Ø125, thereof 2 with locks
- 2x push handle

Item no.	Dimensions in mm (WxDxH)
04.RC.02	600/1400 x 700 x 1757

All models are intended for the holding of IT hardware components. Equipped to customer requirements.

Advantages

- All models are available in stationary and mobile versions
- Stable sheet steel constructions with a powder coating
- Cable passages on the rear
- Ventilation slots/square holes
- Individually configured or according to our arrangement
- Supplied fully assembled

Computer cabinet

Mobile add-on:

- 2x fixed and 2x steering caster with locks, Ø 125 mm

Computer cabinet:

- Hinged door: top H 727, bottom H 979 mm
- Keyboard drawer: H 84 mm with anti-slip mat
- Pull-out shelf
- Fan
- Socket bar, 4x with connection cable

Item no.	Dimensions in mm (WxDxH)	Description
04.118.601	680 x 600 x 160	Mobile add-on
04.118.05	680 x 736 x 160	Mobile add-on
04.118.600	680 x 600 x 1838	Computer cabinet
04.118.003	680 x 736 x 1838	Computer cabinet

Visible area:
468 x 561 mm (W x D)
used for 21" monitor

Computer cabinet | Stationary

- Hinged door: top H 558, bottom H 630 mm
- Keyboard drawer: H 84 mm
- Fan
- 1x 4-way socket bar with connection cable

Item no.	Dimensions in mm (WxDxH)
04.118.002	680 x 736 x 1320

Computer cabinet | Stationary or mobile

- Computer housing made of high-quality thin sheet metal with one vertical and one horizontal partition wall and 1 x keyboard drawer
- 1x 4-way socket bar
- Monitor attachment housing incl. keyboard drawer
- Mobile add-on: 2x fixed and 2x steering caster with locks, Ø 125 mm

Item no.	Dimensions in mm (WxDxH)	Description
04.118.609	1005 x 600 x 160	Mobile add-on: 2x fixed and 2x steering caster with locks, Ø 125 mm
04.118.608	1005 x 600 x 820	Computer housing
04.118.607	680 x 600 x 820	Monitor attachment housing

Mobile computer, measuring and testing stations

Mobile office | Stationary or mobile

Mobile office 1 | Stationary or mobile

- Computer cabinet with 1x shelf
- 2x hinged door
- 1x drawer, 100 mm
- Energy duct with 4x earthed sockets and monitor bracket
- Square holes in rear wall for ventilation

Parts trolley

Multi-trolley combinations from practice - conductive

These mobile material and small parts storage units are ideal wherever assembly, repairs or commissioning is carried out. Fitted with slotted panels and assorted practical open fronted storage bins on both sides, they keep all types of small material clearly arranged and ready to hand and ensure easy transport.

- Small parts boxes L x W x H Size 6 = 230 x 140 x 130 mm | Size 7 = 160 x 105 x 75 mm | Size 8 = 85 x 105 x 45 mm
- Modular structure, 3 different heights, impact and scratch resistant plastic coating, width 1000 mm, depth 500 mm
- Double-sided use, ergonomic handles, horizontal mounting and dismantling of open fronted storage bins

The special design of the hanging rail allows to hang and unhang the storage bin absolutely horizontally even when they're filled. So no spilling of the stored goods.

Parts trolley

RasterMobil® - Combinations from practice

RasterMobil®

is the practical rolling material and tool store - your useful helper in the workshop, factory and assembly hall. They are particularly helpful to save time. Work processes can be organised organised from any location.

- Modular construction in three heights
- Subsequent modification and/or exchange of panels possible
- Impact- and scratch-resistant plastic coating
- Fahrmodul lichtgrau
- Double-sided perforated/slotted panels
- Ergonomische Handgriffe
- Ergonomic handles
- 2 x fixed and 2 x steering castors with lock Ø 100 mm

Open fronted storage bins for hanging

New

- Tray 610 x 410 mm (W x D) with Ripped rubber mat

Item no.	Dimensions in mm (WxDxH)
05.10.52	600 x 600 x 900 – 1250 mm

Other mobile units

Mobile skips

Long-lasting welded steel construction with tilting bin made from 2 mm sheet steel, watertight version also available.

600-litre trolley is reinforced with round tube. Load-bearing chassis of channel steel, forklift pockets made from enclosed hollow structural steel profiles 120 x 60 x 3 mm or 160 x 90 x 4.5 mm.

Wheels

- Axle: Ø 25 mm
 - Axle wheels: Ø 250 mm
 - Steering caster: Ø 200 mm
- All wheels have solid rubber tyres and are mounted on ball-bearings for smooth running.
For size 600 l with elastic tyres.

Large shatterproof wheels with bolted sheet steel rim
Wheel dia. 250 mm, wheel width 60 mm for dia. 25 mm axle.

Forged drop guard prevents accidental tipping of the bin.

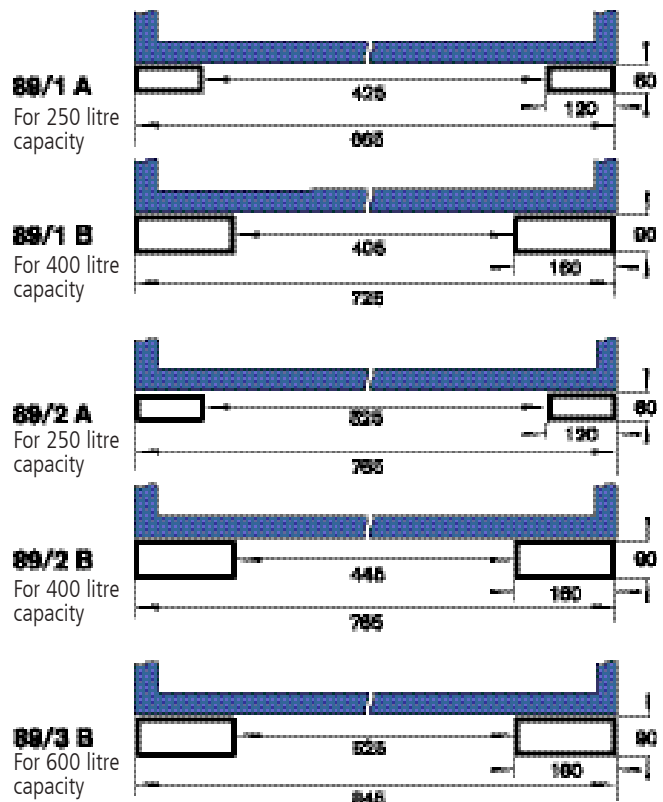

Forklift pockets in two dimensions:
Internal dimensions 114 x 54 mm or 150 x 80 mm
With full lock (for secure positioning) as standard. For reasons of space, not possible for 250-litre version type B

Securing chain prevents the trolley from sliding away during accidental inclination of the forklift masts.
■ Total length approx. 1000 mm
■ Available for surcharge

Forklift pocket dimensions of the different versions:

Mobile skips

Mobile logistics systems

Additional equipment

- Cover lid with welded handle
- Securing chain

250 litres

400 litres

600 litres (steering caster with lock for all sizes apart from 04.18-1010 and 04.18-1011)

03.900.42	140 x 106 x 71

*Supplied without bins, hooks, case, perforated walls and tools.

Mobile workplace systems

Mobile workraster units

workraster workplace systems

The mobile units of the workraster series enable quick access and maximum mobility. More manoeuvrable than ever before with 4 steering casters with a diameter of 125 mm (2 with locks). Simple handling thanks to user-friendly plastic handles. As transport or storage trolleys, whether used as a mobile workstation or for storing tools in the perforated walls,

they can be used in any situation. Thanks to a height grid of 38 mm, various heights and depths, individual equipping is possible on one or both sides. Shelves can be added to supply material as can many parts of the multi-board. The accessories of the workraster range are compatible.

Mobile workraster units: Basic dimensions

The mobile workraster units can be arranged in different depths and heights and can be used just as flexibly and individually as the series itself.

- Ergonomic plastic handle
- 4x steering caster, Ø 125 mm with lock
- Load capacity 200 kg

Shelving systems

Multi-purpose shelving

The superb all-rounder is noted for shelf loads up to 250 kg, bay loads of up to 2000 kg and robust panel shelf levels for bay widths of up to 1695 mm. Locking bars as well as shelving levels made from stepped bars and inset shelf/panel mean no additional stiffening is necessary. Easy, quick and safe assembly is guaranteed.

- With pre-assembled frame
- Additional shelf load 250 kg
- Galvanised surface

single-sided

- Base and add-on shelving
- 60 kg load capacity per shelf
- Simple push-fit assembly
- Galvanised surface
- Shelving with rear stop edge
- Height-adjustability 25 : 25 mm
- External dimensions:
 - Width base shelving 810 or 1060 mm
 - Width add-on shelving 760 or 1010 mm
 - Nominal dimension depth + 35 mm
- Additional shelves on request

Security:

Shelving with a height/depth ratio greater than 5:1 must be secured to prevent it from tipping DGUV rule 108-007

Example:

3000 mm (H): 435 mm (D) = 6.9

The shelf must be secured!

2000 mm (H): 535 mm (D) = 3.74

The shelf does not need to be secured

Tilt protection see page 566

Shelving systems

Shelving racks

- Base and add-on shelving with shelves
- 200 - 240 kg load capacity per shelf
- Simple push-fit assembly
- Galvanised surface
- 40 mm folded shelf edge
- Height-adjustability 25 : 25 mm
- External dimensions:
 - Width base shelving 1060/1360 mm
 - Width add-on shelving 1010/1310 mm
 - Nominal dimension depth + 35 mm
- Other versions on request.

Security:

Shelving with a height/depth ratio greater than 5:1 must be secured to prevent it from tipping DGUV rule 108-007

Example:

3000 mm (H): 435 mm (D) = 6.9

The shelf must be secured!

2000 mm (H): 535 mm (D) = 3.74

The shelf does not need to be secured

Tilt protection

Necessary if a height-depth ratio of 5:1 is exceeded

	05.HZG30613XM	1300 x 600 x 3000	7		05.HZA30613XM

- Corner shelving rack
- 125 kg per shelf
- Simple push-fit assembly
- Galvanised surface
- Height-adjustability 25 : 25 mm
- With diagonal bars and reinforcement cross-members
- Room corners can be fully utilised by avoiding the "dead corner"
- Recommended add-on shelving, see page 566

Security:

Shelving with a height/depth ratio greater than 5:1 must be secured to prevent it from tipping DGUV rule 108-007

Example:

3000 mm (H): 435 mm (D) = 6.9

The shelf must be secured!

2000 mm (H): 535 mm (D) = 3.74

The shelf does not need to be secured

**Tilt protection**

Shelving systems

Wide-span shelving rack

New

Compact wide-span shelving system, which represents the step between standard shelving and pallet shelving and is designed for the storage of particularly large and heavy goods. Due to its shelving dimensions, this wide-span shelving system offers large-area storage options. It can therefore be used in many different sectors.

Advantages:

- 3 shelf levels with wooden inlay chip 19 mm P4
- Height 2000mm, optional 2500mm and 3000mm
- Compact shelving system, powder-coated in RAL 5010.
- Large-area storage options
- Bay widths up to 2,700 mm
- High shelf loads up to 975 kg
- Bay load up to 7,500 kg

Pallet shelving

New

Chairs and shelving

The ideal solution for professional storage of pallets, pallet cages and heavy loads. Thanks to an optimally coordinated range of shelving components such as support frames, support beams and many other accessories, pallet shelving can be individually adapted to different stored goods and spatial conditions.

- Frame similar to RAL 7001 silver grey, support beams similar to RAL 2004 pure orange
- All specified loads apply with uniformly distributed load
- The specified buckling lengths must not be exceeded
- Further versions on request...

Pallet shelving

- 2 levels (4x support beam)
- Shelf load 2000 kg
- Bay load 4000 kg

Base shelving	Item no.	Dimensions in mm (W x D x H)	max. buckling length	Add-on shelving	Item no.	Dimensions in mm (W x D x H)

Shelving systems

Cantilever shelving

Technical features:

- Cantilever arms permanently welded
- Uprights and cantilever arms in IPE profiles
- Cantilever arms with permanently welded roll-off protection
- Storage levels including foot support
- Usable depth 500 mm
- Up to 200 kg load capacity per cantilever arm
- High-quality industrial coating RAL 5010

Planning notes:

- External dimensions:
Width base shelving 1305 mm
Width add-on shelving 1250 mm
Nominal dimension depth + 100 mm

Product advantages:

- Affordable system
- Standardised shelving components
- Quick and easy assembly
- Single or double-sided use

Cantilever shelving

Item no.	Description	Dimensions in mm (WxDxH)

Cantilever shelving for light loads

Technical features:

- Versatile modular system for every type of stored goods
- High-quality powder coating for indoor use
- Durable hot dip galvanised finish for outdoor use
- Cantilever shelving with roof construction as a cold hall
- Shelving systems for light to heavy loads
- Single and double sided shelving systems
- Cantilever racking with short delivery times
- Cantilever racking with roof and wall
- Further versions on request

- Load capacity one-sided shelving 1500 kg per pillar

These fire brigade lockers ensure that your personal protective equipment and also private clothing are always well and safely stored and quick drying is guaranteed. Thanks to the combinability of all models, they can be flexibly adapted to your fire station. And also in terms of colour: in addition to the classic fire red, there is a wide range of other colours to choose from.

Contact us!

Product features and accessories thought out down to the last detail, e.g.

Black-white separation
Legally compliant
Black-white separation to avoid carry-over of contamination after use.

Foldable helmet holder
Helmet holder with effective ventilation function, fits all EU helmet manufacturers and sizes without adjustment, suitable for body sound microphones.

Ventilation / Drying
Well thought-out ventilation supports the quick drying of the garment.

GENERAL CONDITIONS OF PAYMENT AND DELIVERY OF BEDRUNKA & HIRTH GMBH BRÄUNLINGEN

1. Scope of validity

1.1 The following terms and conditions are applicable to all our offers, sales, deliveries and services and shall form part of the contract unless a separate contractual agreement is concluded in writing. They shall not apply if our contract partner is a private individual and does not act in a professional or commercial capacity. They shall also apply to all future business relationships, even if they are not expressly agreed as being applicable to future orders.

1.2 We hereby expressly reject any and all deviating or supplemental General Terms and Conditions of the Buyer. These shall also not apply if the Buyer has based his order or other declaration upon them or has rejected the applicability of our General Terms and Conditions.

2. Offers and conclusion of contract

2.1 Our offers are non-binding and may therefore be revoked by us prior to delivery for acceptance by the customer and for 2 working days thereafter, unless they have been described as binding in writing. An effective contract therefore comes into existence only through our order confirmation or the despatch of the goods.

2.2 Dimensions, weights, illustrations, drawings and other documents belonging to our non-binding offers shall remain our property and are indicative only. They shall become a binding part of the contract only with our express written confirmation.

3. Doubtful creditworthiness

3.1 If, after concluding the contract, we become aware of circumstances that cause us to have doubts about the Buyer's ability to pay, we may make further deliveries contingent upon the Buyer making advance payment for the goods. We can require the Buyer to make advance payment within an appropriate period and withdraw from the contract if the advance payment is not paid on time; the Buyer can furnish us with collateral in the form of a bank guarantee instead of the advance payment. If we have already delivered the goods, the purchase price shall immediately become due for payment in full, regardless of any agreed payment deadlines.

3.2 Reasons for doubting the Buyer's ability to pay include the initiation of insolvency proceedings over the Buyer's assets or the failure to make payments to us or third parties on time.

4. Prices

4.1 All prices are net, ex works, without packaging, unless agreed otherwise. The prices applicable on the day of delivery shall always apply. In the case of fixed-price arrangements, we are also entitled to bill proportionately for any increase in the price of materials, salary increases and the like. The prevailing rate of statutory VAT shall be added to all prices.

4.2 Unless agreed otherwise in the offer or order confirmation, packaging shall be charged for separately.

4.3 Shipping / transfer of risk

All risks shall transfer to the Buyer upon handover to the haulier and not later than when the goods leave the factory or warehouse. We are at liberty to choose the shipping method.

4.4 Goods reported as available for despatch on the agreed date must be collected without delay, failing which, we are entitled to store the goods at our own discretion at the Buyer's expense and risk and to charge for them as delivered ex works or ex warehouse. The same shall apply if shipping cannot take place due to traffic stoppages or other circumstances beyond our control.

4.5 Statutory value added tax is not included in our prices and the rate applicable on the billing date shall be indicated separately on the invoice.

4.6 If a delivery within the internal market of the EC was treated as tax-free within the scope of the intra-community supply of goods, even though the prerequisites for this were not met, the delivery shall nevertheless be deemed tax-free if the utilisation of the tax exemption is based on the incorrect information provided by the Buyer and we were unable to identify the incorrect nature of this information, even with the due care of a prudent merchant. In this case, the Buyer shall owe the unpaid tax.

4.7 If more than 4 months pass between the date on which the contract is concluded and the date of delivery, without this being due to a delay in delivery for which Bedrunka+Hirth is responsible, and if our applicable price list has changed during this time, we may demand the list price applicable on the date of delivery instead of the agreed purchase price. We will send the Buyer an appropriately amended order confirmation prior to delivery. In this case, the Buyer may withdraw from its order in respect of the goods for which the price has been increased. The Buyer must declare its intention to withdraw by not later than on the fifth day after receiving the amended order confirmation. This declaration may be sent by fax or email.

5. Delivery time

5.1 All indicated delivery dates are non-binding and are agreed as indicative only, unless we have expressly described them as binding. For non-binding delivery dates, a delivery within 14 days of the indicated delivery date shall in any event still be deemed to be a timely delivery.

5.2 If we are unable to adhere to an expressly agreed deadline or fall behind for other reasons for which we are responsible, the Buyer shall grant us an appropriate grace period. If this grace period expires without success, the Buyer shall be entitled to withdraw from the contract.

5.3 If performance becomes temporarily impossible or considerably more difficult for us, whether in full or in part, due to force majeure or for other extraordinary circumstances beyond our control, the agreed delivery time shall be extended by the duration of the obstacle to performance. The same applies to a deadline for the rendering of service set by the law or by the Buyer, in particular for grace periods set in the event of default.

5.4 Prior to the expiry of the delivery time or the performance deadline extended in accordance with para. 3, the Buyer shall not be entitled to withdraw nor to receive compensation. If the obstacle to performance lasts longer than 3 months, both the Buyer and we shall be entitled to withdraw from the contract if the contract has not yet been executed. If the Buyer is entitled to withdraw from the contract in accordance with the contract or the law (e.g. due to a lack of interest) without setting a grace period, this right shall remain unaffected.

5.5 In the event of a delay in delivery that is not based on intent or gross negligence, claims for compensation of all kinds shall be precluded.

6. Shipping and transport risk

6.1 Delivery shall be ex warehouse, which is also the place of performance for the delivery and any supplementary performance. Upon demand from the customer and at the customer's cost, the goods shall be sent to a different destination (sales shipment). Unless agreed otherwise, we reserve the right to determine the type of shipment (in particular the transport company, dispatch route, pack-aging).

6.2 The risk of accidental destruction and accidental deterioration of the goods shall transfer to the customer upon transfer of the goods at the latest. For mailorder purchases, however, risk of inadvertent destruction and inadvertent deterioration of the goods and the risk of delay shall transfer to the customer upon delivery of the goods to the haulier, freight carrier or other persons or organisations charged with transporting the goods. Insofar as acceptance is agreed, this shall be decisive for the transfer of risk. Moreover, the statutory provisions of the work and services contract law shall apply correspondingly to the agreed acceptance. Transfer or acceptance also applies if the customer is late accepting the goods.

6.3 If the customer is late accepting the goods, if they omit a duty of cooperation or if our delivery is delayed for other reasons attributable to the customer, we reserve the right to demand compensation for resulting damages, including additional costs (e.g. storage costs).

6.4 Unless otherwise expressly agreed in writing, we are authorised to make partial deliveries to a reasonable extent.

6.5 We will charge EUR 7.50 for each notification of delivery requested by the customer that is made by telephone, fax or email

7. Terms of payment

7.1 Our invoices are payable within 10 days from the invoice date with a 2% discount or within 30 days in full.

7.2 The Buyer shall be in default, without any warning by ourselves, if it does not pay the purchase price within 30 days of becoming due and receipt of the invoice or an equivalent demand for payment.

7.3 If the Buyer is late making a payment, all of its payment obligations arising from the business relationship with us shall immediately become due. In this case, we are entitled to demand interest in the legally established amount with effect from the relevant moment. The Vendor reserves the right to provide proof of further damage.

7.4 The Buyer is entitled to set-off, even if complaints or counterclaims are asserted, only if the counterclaims have been legally established, acknowledged by the Vendor or are not in dispute. The Buyer is authorised to exercise its right of retention if its counterclaim is based on the same purchase agreement.

8. Liability

8.1 Information about the properties of goods, as well as references to technical standards in catalogues or other advertising media and our price lists, are for descriptive purposes only and do not form the basis for any guarantee of quality without explicit reference in the order confirmation or in the contract.

8.2 We are not obliged to provide any warranty if the Buyer has not immediately complained about an apparent fault in writing. In the case of hidden faults, which could not be discovered even with careful execution of the obligations of the customer pursuant to Art. 377 German Commercial Code, the complaint shall be raised immediately after the fault has been found. If the product has a fault for which we are responsible and the Buyer complains about it promptly in writing, we will undertake to rectify the fault - to the exclusion of the right of the Buyer to withdraw from the contract or to reduce the purchase price - unless we are entitled to refuse rectification on the basis of a statutory regulation. For each individual fault, the Buyer shall grant us an appropriate period of time in which to effect rectification.

8.3 Rectification can take the form of the elimination of the fault or the delivery of a new product, at the Buyer's option. We are entitled to reject the method of rectification chosen by the Buyer if it is associated with disproportionately high costs. During rectification, a reduction in the purchase price or withdrawal from the contract by the Buyer are precluded. Rectification is deemed to have failed after the second unsuccessful attempt. If rectification has failed or the Vendor has rejected the rectification overall, the Buyer can demand a lowering of the purchase price (reduction) or declare its withdrawal from the contract, at its option.

8.4 The Buyer can only bring claims to compensation under the following conditions because of the fault if the rectification failed or we refused to carry out rectification. The right of the Buyer to bring further claims for compensation under the following conditions remains unaffected.

8.5 In accordance with statutory provisions, we are liable without restriction for intentional or grossly negligent breaches of duty as well as for damage caused by an injury to life, limb or health. Moreover, we shall only be liable if the breached contractual obligation is of material importance for achieving the purpose of the contract and only up to the amount of the typically foreseeable loss.

8.6 The limitation of liability in accordance with para. 5 applies accordingly to other than contractual claims for compensation, in particular claims arising from tortious liability, with the exception of claims in accordance with the German Product Liability Act. It further also applies to the benefit of our executives, employees, workers, representatives and vicarious agents.

8.7 If we have issued a guarantee or quality and/or shelf life in respect of the goods or parts thereof, we shall also be liable within the scope of this guarantee. However, we shall only be liable for damage that is based on the absence of the guaranteed quality or shelf life but does not occur directly on the goods, if the risk of such damage is apparent from the guarantee of quality and shelf life.

8.8 Any further liability is precluded without consideration of the legal nature of the claim brought. Insofar as the Vendor's liability is precluded or limited, this also applies to the personal liability of his executives, employees, workers, representatives and vicarious agents.

8.9 All claims for defects expire 24 months after the transfer or risk, unless any longer periods are mandatorily prescribed pursuant to Articles 438 I (2), 479 I and 634a I (2) German Federal Civil Code.

9. Retention of title

9.1 We shall retain possession of the goods (goods subject to retention of title) until all payments due under the purchase agreement have been received. The delivered goods shall pass into the possession of the Buyer only when the Buyer has fulfilled all of its liabilities under the business relationship, including subsidiary claims, claims for compensation and redemptions of cheques and bills of exchange. In the case of the cheque/bills of exchange procedure, the retention of title in all of its forms listed here shall expire not with the payment by cheque but only with the redemption of the bill of exchange.

9.2 The Buyer shall notify us in writing without delay of all third-party interventions, in particular of enforcement measures and other impairments of its property. The Buyer shall make good all damage and costs we incur, which arise through a breach of this obligation and through necessary measures to protect against third-party interventions.

9.3 If the Buyer does not comply with its obligation to make payment, despite our reminder, we can, without prior notice, demand that the Buyer release the goods that are still in its possession and subject to the retention of title. The Buyer shall bear the transport costs associated with this. The attachment of the matter subject to the retention of title by us always includes a withdrawal from the contract. We are entitled to dispose of the goods subject to the retention of title following their retention. The proceeds of disposal shall be offset against our outstanding claims.

10. Place of fulfilment

The place of fulfilment for payments is Bräunlingen, for our deliveries of goods the place of shipping.

11. Data processing

The Buyer agrees that we may process the data about the Buyer received in connection with the business relationship in accordance with the Federal Data Protection Act for the fulfilment of our business purposes, in particular to store them or transmit them to a credit reference agency, where this is done within the scope of the identified purpose of the contract or required for the preservation of our legitimate interests, and there is no reason to assume that the legitimate interests of the Buyer outweigh the preclusion of the processing of these data, in particular their transmission.

12. Severability clause

Amendments or additions to the contract or these General Terms and Conditions must be made in writing in order to obtain effectiveness. Should a provision of these General Conditions of Delivery and Payment be or become ineffective or unenforceable, this shall not affect the effectiveness of the remaining General Conditions of Delivery and Payment.

13. Jurisdiction and applicable law

13.1 The contractual relationship between the Buyer and ourselves is governed exclusively by the law of the Federal Republic of Germany, even if the Buyer has its place of residence or business abroad. Application of the Uniform Law on the International Purchase of Goods and the Uniform Law on the Formation of Contracts for the International Sale of Goods is precluded.

13.2 The Buyer is not authorised to cede claims arising from the purchase agreement without the permission of the Vendor.

13.3 If the Buyer is a merchant legal entity under public law or a special fund under public law, the place of jurisdiction for both parties - including for complaints regarding cheques and bills of exchange - is Donaueschingen, Germany. We are, however, also entitled to sue the Buyer at its general place of jurisdiction.

Index with product names

Product name	Page
Shelf bracket for roller shutter cabinet and CNC- frame	162
Shelf, 3rd level	241, 364
Shelving	564 - 577
Shelving divider	518
Showroom	18-19
Side cover panel	465, 469
Side end wall	125
Side flap	468
Side panel	127
Side table	404, 417
Sieve bottom for mobile skips	513
Sit.stand stools	453
Sliding door cabinet	550-551
Slotted wall	277,286,398
Small parts boxes	
- single small parts boxes	105
- small parts boxes sets	51, 57, 63, 75, 83, 91, 97, 131, 133, 465, 469, 493
Small roller conveyor	331, 374 - 377, 575 - 577
Socket holder	310
Socket key box	107
Socket panel	229, 239, 282, 387, 398
Soft close	72 - 94
Sorting racks	251
Spacer bars	104-105
Spanner holder	310
Spare part	104-105, 110-113
Spiral cable	445
Spiral vending machine	15
Spool holder	310
Spring balancer	274, 399
Spring balancer	274, 399
Stacking containers	248-249
Stacking stool	555
Stain relief	274, 399
Standard colours	27
Standing aid	561-563
Steering castors	458 - 459
Stool	453, 554 - 555
Stopper	329, 375, 572, 573
Storage box	248 - 249
Storage rack	139
Storage shelf	314
Superstructure stand	372, 398
Support column	274, 288
Support column profile	274, 288, 292, 368, 411, 413
Support frame MRS®	124
Support tray	465, 469
Support tray set with cylinder lock für MRS®	129, 136
Swing door	230
Swivel stool	554
Swivelling laptop tray	465, 469
